

Sustainability Report Review

Perfect the Disclosure of Non-Financial Information

Our Service Offer

About the Sustainability Report Review

Companies' sustainability performance is increasingly under scrutiny from a wide variety of stakeholders. On one hand, European lawmakers are coming up with new measures, such as the [Corporate Sustainability Reporting Directive](#) and the [EU Taxonomy Regulation](#), to increase companies' transparency. On the other hand, the investors' community is increasingly assessing and benchmarking companies not only from a financial standpoint but also based on their ability to address environmental, social, and governance (ESG) issues.

As the reporting landscape becomes increasingly complex, **CSR Europe's Sustainability Report Review supports companies in navigating and mastering sustainability reporting practices to meet different stakeholders' expectations and increase trust in your business operations.** Under our guide, your company will be able to **better monitor its performance, manage potential risks, and set concrete targets** to become more sustainable in the coming future. In other words, the Review equips you with a better understanding of your current reporting practices.

Our Signature Approach

A PROVEN METHODOLOGY

With over **25 years of experience**, CSR Europe will use **format and content criteria of international and European standards and regulations** to review your report.

FACE-TO-FACE FEEDBACK

Instead of engaging stakeholders in virtual settings, CSR Europe will bring **selected key stakeholders to the table.*** This allows for a **two-way dialogue** that will not only enhance the quality and depth of feedback, but will also build trust and long-term relationships with key stakeholders that have an impact on your business.

THE POWER OF THE NETWORK

CSR Europe has insider access to a wide array of experts coming from **internationally recognised organisations, companies**, and institutions, such as the **European Investment Bank**, the **European Commission** and experts from **national governments**.

* Due to the COVID-19 restrictions feedback rounds will take place virtually.

The Service Delivery Process

CSR Europe delivers the Sustainability Report Review in a three-step process based on the first initial meeting with your company to align expectations. After the delivery of the service, we will present

the outcomes at a second meeting, giving you the opportunity to get an in-depth understanding of the analysis and its results.

STEP 1: PREPARATION

Initial meeting to assess the company's needs and expectations from the sustainability report review.

1 HOUR

STEP 2: EVALUATION & DELIVERY

- **Analysis** of the different sections of your sustainability report.
- **Evaluation of the report** against a set of principles that cover both **format and content criteria** based on the reporting frameworks of the Global Reporting Initiative (GRI) and the International Integrated Reporting Council (IIRC).
- Tailor-made recommendations and suggestions to improve the most challenging areas in your company's reporting exercise. To help you acquire a more practical understanding of how a specific topic can be disclosed, we will present you with **exemplary best practices from other leading organisations**.

4-6 WEEKS

STEP 3: FOLLOW UP

Final meeting to present the results and outcomes, giving you the opportunity to ask further clarification on specific areas.

1 HOUR

1 MONTH 1/2

Responsible Business, Better Future.
