

## CSR EUROPE ATELIER - Decarbonising your supply chain

An **exclusive opportunity** for CSR Europe **corporate members** to tackle the Scope 3 Challenge.

### CONTEXT

Decarbonisation, net-zero or carbon neutrality - numerous concepts describe business efforts to reduce emissions in support of the Paris Agreement's target to achieve carbon neutral by 2050.

In their "decarbonisation journey" companies face different challenges:

- 1) For many businesses **the majority of emissions are so-called Scope 3 emissions, indirect emissions** that are located in an organisation's value chains chain.
- 2) **Increasing requirements and expectations** for businesses to reduce emissions and a broad landscape of initiatives and approaches to meet these.
- 3) **Different maturities** along supply chains and the need for new solutions
- 4) Global supply chains spanning **different actors and industries**

The purpose of this atelier is:

- 1) **Connect key stakeholders and nurture closer interaction across industries**
- 2) **Take stock** of the status quo, discuss challenges & potential solutions
- 3) **Share experiences and best practices**, success stories and learnings

Through this Atelier the participating companies will be able to analyse the management of Scope 3 emissions and get exposed to innovative approaches to supplier engagement on decarbonization.

### ABOUT THE EVENT

The atelier is a series of connected workshops, with three sessions planned for 2022.

#### **Session 1 - Businesses' supplier engagement, 24 May 2022, virtual workshop (Zoom)**

Insights into the supplier perspective on supply chain engagement on decarbonisation. Tour de table with members and their suppliers to map an ideal collaboration picture, status quo including success/failure factors for each aspect of the decarbonisation practices.

**Participants:** CSR E members, external keynote speaker representing the supplier view on decarbonizing the supply chain

#### **Session 2 - Sector engagement, 13 Sept 2022, in-person workshop in Brussels**

Analyzing the role of sector associations for the engagement with suppliers on climate, learnings and areas to be strengthened.

#### **Session 3 - Cross-sector engagement, 24 November 2022, virtual workshop (Zoom)**

Analysis of cross-sector sector associations' activities on climate, learnings and areas to be strengthened. Focus on how companies work with initiatives like CDP, SBTi across sectors.

**Key learning points:**

- Clarify expectations towards decarbonisation engagement and collaboration
- Strengthen members' engagement with key stakeholders on climate, including suppliers, sector and cross-sector initiatives.
- Identify challenges for value chain engagement and collect ideas on how to make collaborative activities on climate impactful.

**Who should join:**

- Procurement, sustainability/CSR, climate business experts and supplier representatives that engage with the participating members on GHG management/decarbonisation.
- Company practitioners that want to develop a deeper understanding and skills related to climate protection, especially through exchange with peers
- Company practitioners that seek to engage in cross-sector initiatives and look for collaborative solutions

**SCHEDULE**
**Session 1 - Businesses' supplier engagement, Wed, 24th May, 14:00 – 17:00 CEST**

<b>TIME (CET)</b>	<b>SESSION</b>	<b>SPEAKER(s)</b>
14:00 - 14:30	<b>Welcome &amp; Introduction</b> <ul style="list-style-type: none"> <li>• Introduction and session overview</li> <li>• Atelier learnings 2022</li> </ul>	<b>Marianne Kropf (TBC)</b> Senior Specialist <b>CSR Europe</b>
14:30 - 14:45	<b>Keynote speaker</b> The supplier perspective: customer expectations on supply chain emissions and collaboration potentials with suppliers.	Speaker (TBC) <b>European Association of Automotive Suppliers (CLEPA)</b>
14:45 - 15:15	<b>Roundtable presentations</b> Showcasing examples of customer and supplier engagement for Scope 3 emissions.	<i>CSR Europe member presentations:</i> <b>Javier Romero</b> , Strategy Manager, <b>Solvay</b>  <b>Sema Alyamac</b> Head of Value Chain Emissions <b>ArcelorMittal</b>
