

# LAUNCH EVENT - European Business Toolbox for Just Transition

Online | 21.02.2023, 10.30-12.00

## CONTEXT

By combining efforts from local, European and global stakeholders, in 2022 the **People Leaders Hub** created the **first-ever European Business Roadmap for Just Transition**, giving companies strategic directions to realise a fair transformation. However, the quick raise of social inequalities across the world demonstrated that today theory is not enough. This is the reason why we decided to go one step forward and **design a related Toolbox, which provides practical methodologies to convert words into actions.**

This event marks the official public launch of this new innovative document, during which knowledge partners will present their insights whilst business leaders will report their personal testimony. With this work, CSR Europe advocates for the **development of a Green Social Deal**, able to put people at the core of business transformation, leaving none behind.
