**STXBP1 Awareness Month is Always a Success**

STXBP1 Awareness Month is a celebration to raise awareness and find a cure for STXBP1 disorders. The foundation is proud to introduce two new board members, Daniele Greiner, a seasoned nonprofit development expert, and Jason Stanaland, a cure for STXBP1 disorders. The foundation is expanding its team to raise awareness and find a cure.

**Exciting News: The STXBP1 Foundation is Growing!**

We are excited to share some short videos created at the Summit+ in Colorado. You can view them on the Foundation website. If interested in donating at any of the above conferences, contact Jackie Steinberg at jackie.steinberg@stxbp1disorders.org.

**STXBP1 Meeting with FDA**

On October 20, the STXBP1 Foundation is bringing the STXBP1 patient community together for a first ever Externally-Led Patient-Focused Drug Development Meeting (EL-PFDD), to inform the FDA and other stakeholders about the patient perspective of living with STXBP1-related disorders. This information can help the FDA to make informed decisions on approvals of potential medicines for STXBP1-related disorders. The FDA Externally-Led Patient-Focused Drug Development Meeting will be held on October 20, 2023, at the Food and Drug Administration (FDA) headquarters in Silver Spring, MD.
