Milestone Collections

It's true what they say - Don't Blink! One day we're bringing them home from the hospital all brand new, and then suddenly they're taking their first steps, starting Kindergarten, and playing their first little league game. Our babies grow up fast which is why I created these collections to help document those milestones! As with all of my collections, I will walk you through every step of the process from the time we schedule your session to delivering beautifully curated print pieces for your walls!

I understand that my little clients sometimes require a little warm up time but we will have loads of fun and they might just leave our session calling me aunty Carolyn! I always tell my clients that their images aren't an expense; they're an investment. These images are moments frozen in time forever that you may relive and share. A client once told me no words describe the emotional rewards of seeing the images we've taken together. The art we create together will live on for many generations to enjoy.

LET'S GET STARTED TOGETHER

Tiny Fox Photography

Communicating with my clients is a huge part of what I love so much about my business. I remain friends with many of my clients long after I've finished our initial sessions together (and enjoy continuing to document their lives!).

I want to be here for you in every way possible. I encourage you to ask questions, suggest ideas, and play a hands-on role in the planning process. The following is a list of ways to get ahold of me, so you always feel cared for.

Fine Art Prints

It takes a team of passionate, experienced professionals to craft photo products of the standards and quality my clients have come to expect from Tiny Fox Photography. Not only must the image itself be meticulously edited, color-corrected, retouched, and perfected on the photographer's side, but the printing lab must also be equally painstaking in its craftsmanship.

Although there are many printers catering directly to consumers, my clients time and again prefer to order their prints through Tiny Fox Photography because of my unyielding commitment to flawless photo reproduction. The brilliant color, high-grade materials, and archival craftsmanship defining my products cannot be found anywhere but in top professional photo labs.

Mounted Fine Art Prints

Your choice of lustre, deep matte, or glossy paper mounted on 3mm styrene board.

Heritage Wood Prints

It takes a team of passionate, experienced professionals to craft photo products of the standards and quality my clients have come to expect from Tiny Fox Photography. Not only must the image itself be meticulously edited, color-corrected, retouched, and perfected on the photographer's side, but the printing lab must also be equally painstaking in its craftsmanship.

If you like the look of wood prints but want full color and richness in their images, our Heritage Wood Prints are for you. Whereas a traditional wood print is a print transfer process that allows some of the natural color and grain to show slightly through the image, Heritage Woods prints are a Fine Art Paper Mounted directly to 3/4" wood with hand sanded corners. No wood color or grain shows through these prints so you get the look of a wood print with true color and clarity in the printed image.
