Kumpulan Powernet (KPB MK)

Buy (Maintained)

First Win in FY21; Keep BUY

Target Price (Return): MYR4.04 (19.2%)
 Price: MYR3.39
 Market Cap: USD91.9m
 Avg Daily Turnover (MYR/USD): 5.47m/1.19m

- **Reiterate BUY with higher TP of MYR4.04 from MYR3.77, 19% upside and c.2% FY21 (Jun) yield.** We are positive on Kumpulan Powernet's USD46m EPCC of a hydropower plant in Nepal, which is on track to expand its orderbook. Meanwhile, in our view, the strategy of producing medical-grade fabric, will form part of the transformation of the manufacturing business and, M&A of relevant technology companies, will be essential to further enhance such capabilities.

- **USD46m EPCC of a hydropower project.** KPOWER announced that it has received and accepted a letter of award from Apex Makalu Hydro Power Pvt. Ltd. to undertake engineering, procurement, construction and commissioning (EPCC) of a 22 MW Mid Hongu Kholu-A hydropower project located at Mahakulung VDC, Solukhumbu District in Nepal. Both parties will enter into a definitive agreement within 90 business days, from the date of the award. The contract price is a fixed lump sum of USD46m (c.MYR193m), with a contract duration of 36 months. This marks the second contract win in Nepal and we estimate that these overseas projects tend to fetch lower gross margins of 15-18% vs those from domestic projects.

- **Venturing into healthcare and medical products space.** In the conference call yesterday, management explained the potential venture into healthcare and medical products, focusing on technology applications and solutions. The strategy of producing medical-grade fabric will form part of the transformation of the manufacturing business, especially when KPOWER has been identified by the Ministry of Health as a potential candidate to produce medical equipment for sustainability of supply in the future. Thus, M&A of relevant technology companies will be essential to further enhance such capabilities. Management believes that this segment will provide strong growth in the long run and the deal size will be at a manageable level. Meanwhile, management is also evaluating several new property development proposals and would like to replicate the similar strategy as the Sentul project by teaming up with land owners.

- **Forecasts.** We are keeping our earnings estimates intact, as this first win of MYR193m in FY21 is within our MYR1bn replenishment assumption.

- **Still BUY and we lift our TP to MYR4.04 from MYR3.77** pegging to a higher P/E of 15x FY21F P/E (from 14x) as we are more positive over its manufacturing business transformation. We are upbeat on this stock, as it offers strong earnings growth premising on potentially doubling its orderbook by end-FY21 and superior ROEs.
