Dining Hall and Meals

We are a nut aware camp, sensitive to the concerns of the children we serve and their families with severe-life threatening allergies. **Please do not bring nut or peanut products to camp, as well as any products that *may contain nuts*.**

Due to health regulations, we ask that **guests do not enter the kitchen area.**

If you are planning on doing any crafts, drawing or any messy projects we ask that you bring table clothes or coverings to prevent any damage to our tables.

Meals

C.Y.O. Camp Brébeuf can provide meals for you during your stay. For pricing please see the pricing page at the end of this package. If guests have any specialty diets or allergies C.Y.O Camp Brébeuf must be made aware 2 weeks prior to the group's arrival in order to ensure that we are able to accommodate for the specific dietary restrictions. Guests are welcome to bring food to store in our dining hall open area fridge.

Our cook will arrange the menu - we do not have a choice option on our menu.

Providing your own meals:

Guests are welcome to provide their own meals for their time at C.Y.O. Camp Brébeuf. Unfortunately, we do not allow guests to use our oven and stove / kitchen facilities unless they have their food handler's certificate and sign off on the camp policies around kitchen usage. Guests are not permitted to enter the kitchen area for any reason unless indicated on their booking contract.

If you choose to provide your own meals for the weekend we ask that you bring anything that you would need to prepare and consume your meals. Including:

- Cutlery
- Serving Utensils
- Dishes (Cups, plates, bowls, serving dishes, etc.)
- Any cooking supplies

Snacks

Camp Brébeuf does not provide snacks in between meals unless arranged and indicated on your contract. If you would like to bring snacks please make sure that they are completely nut/peanut free. We have a lot of campers and staff serious nut allergies. Snacks are not to be brought to cabins and must only be consumed in the dining hall – animals of all sorts are attracted to any food in our cabins.

Driveway

Please note that the laneway up to camp past the farm and into the camp is in fact a laneway / driveway. It's not a road. Please respect the posted **10km/** hour speed limit. This is a shared laneway with the families of our full time staff living along it. **Vehicles are not allowed past the green gate into camp.** If vehicles go past the green gate and cause damage to the property your group will be responsible and it will be reflected on your invoice.

Parking

Please have your group park in the parking lot. For both the safety of our campers and the risk of damage to our property, user group vehicles are not allowed past the green gate. Ignoring this policy could affect future bookings. **Damage done by driving on fields may result in an additional fee.**

Cabins and Quiet Time

While using the cabins, please **do not move bunk beds** or mattresses.

Please **do not unplug any power cords** in the cabins as they may be for heaters/fans that we need to keep running.

Please **do not bring food or drink** into the cabins as they attract critters and bugs and could leave allergens behind.

The side doors on field cabins are emergency exits. Please **do not use them to enter or exit** cabins except in emergency situations.

If you open a window, please close it before you leave your cabin.

Please respect those who make Camp Brébeuf their full time home, by walking quietly on the grounds after 10 pm.

Buildings

We have multiple indoor spaces you may book for your group. You are welcome to move furniture to suit your program needs, but please **return it to its original position when finished.**

Please do not adjust the heat in buildings or cabins - your staff are happy to assist you with this.

Please take off shoes when entering all buildings to reduce mess caused by mud, fresh cut grass or snow.

We do have staff who live on site that may not be working with your group. They are asked not to disturb weekend groups and we ask that you return the favour by not entering cabins or buildings other than those that you have been given access to.

Trails

Our trail system and property are quite extensive. Our staff would be happy to recommend an appropriate trail for a hike, but do not want to have to come rescue lost guests! Please encourage your participants to remain in areas where they can see main camp, unless directed otherwise and to travel in pairs when leaving their cabins.

Campfire

Your group is welcome to have a campfire at one of our many campfire sites. Please ensure you have water on hand to put the fire out. If you need staff to start a fire there will be an additional \$20 charge for their time.

Cleaning

Our staff thoroughly disinfects cabins and replaces garbage bags after each group. Please do your best to clean up by sweeping, placing garbage in the garbage bins, and collecting your group's lost and found. **An extra cleaning fee of \$100 will be applied to groups that do not leave cabins in appropriate condition.**

Packing Up and Moving Out

Your host staff will give you some direction regarding packing up and moving out. Usually, we ask groups to pack and move out before coming up to their last breakfast to give staff time to disinfect the cabins.

Smoking

We do not allow smoking on site.

Alcohol and Drug Use

Weekend groups are not permitted to bring or consume alcohol on property. Drug use is also not permitted. Breaking this policy may affect future bookings with us.

Programming:

If programming has been selected your program staff will meet you at the dining hall, unless otherwise communicated with you. If arts and crafts are part of your program we ask that you cover the tables before use. If meals are being provided by camp please aim to be on-time so that your food will be ready. If for any reason your meal schedule needs to change please contact the kitchen staff.

Program Areas

Year-round:

-The following programs **MUST** have a Brébeuf staff member present to give introductions, rules and ensure that everyone is participating properly and safely: **Archery, High ropes, Low ropes, Rock wall, Swimming and Canoeing.**

-Weekend groups are not permitted to use any of these areas, regardless of their outside training or experiences, without a Brébeuf staff member.

-Outside of scheduled programming times, no one should be on or around the program areas. Low ropes and rock wall are our most accessible program areas, but they should not be used or attempted without guidance and instruction from a trained Brébeuf staff member. The rock wall is not meant for free climbing or bouldering at any time.

-The rules are based on our own, in-house operational procedures. Please respect and follow these rules. Again non-adherence to these rules may affect future bookings at camp.

Winter Specific:

-Tobogganing should only be done on our main hill in front of the office/tuck shop, heading down towards the cabins. Tobogganing is done at the groups own risk. Toboggans **CANNOT** be used at night or in poor visibility

-Cross country skis, snowshoeing may be used with a Brébeuf staff present.

-Low ropes, high ropes and rock wall are off limits during the winter season.

-Before going out on the ice, check with your host staff to ensure the ice is thick enough for use. Do not allow anyone to go down to the pond on their own.

-**No type of rifle/gun activities are allowed.** Please note because of our OCA accreditation we do not have these programs available at our site. Please do not bring your own equipment onto the site for this activity as it is still against our policy. This also includes pellet and paint ball guns.

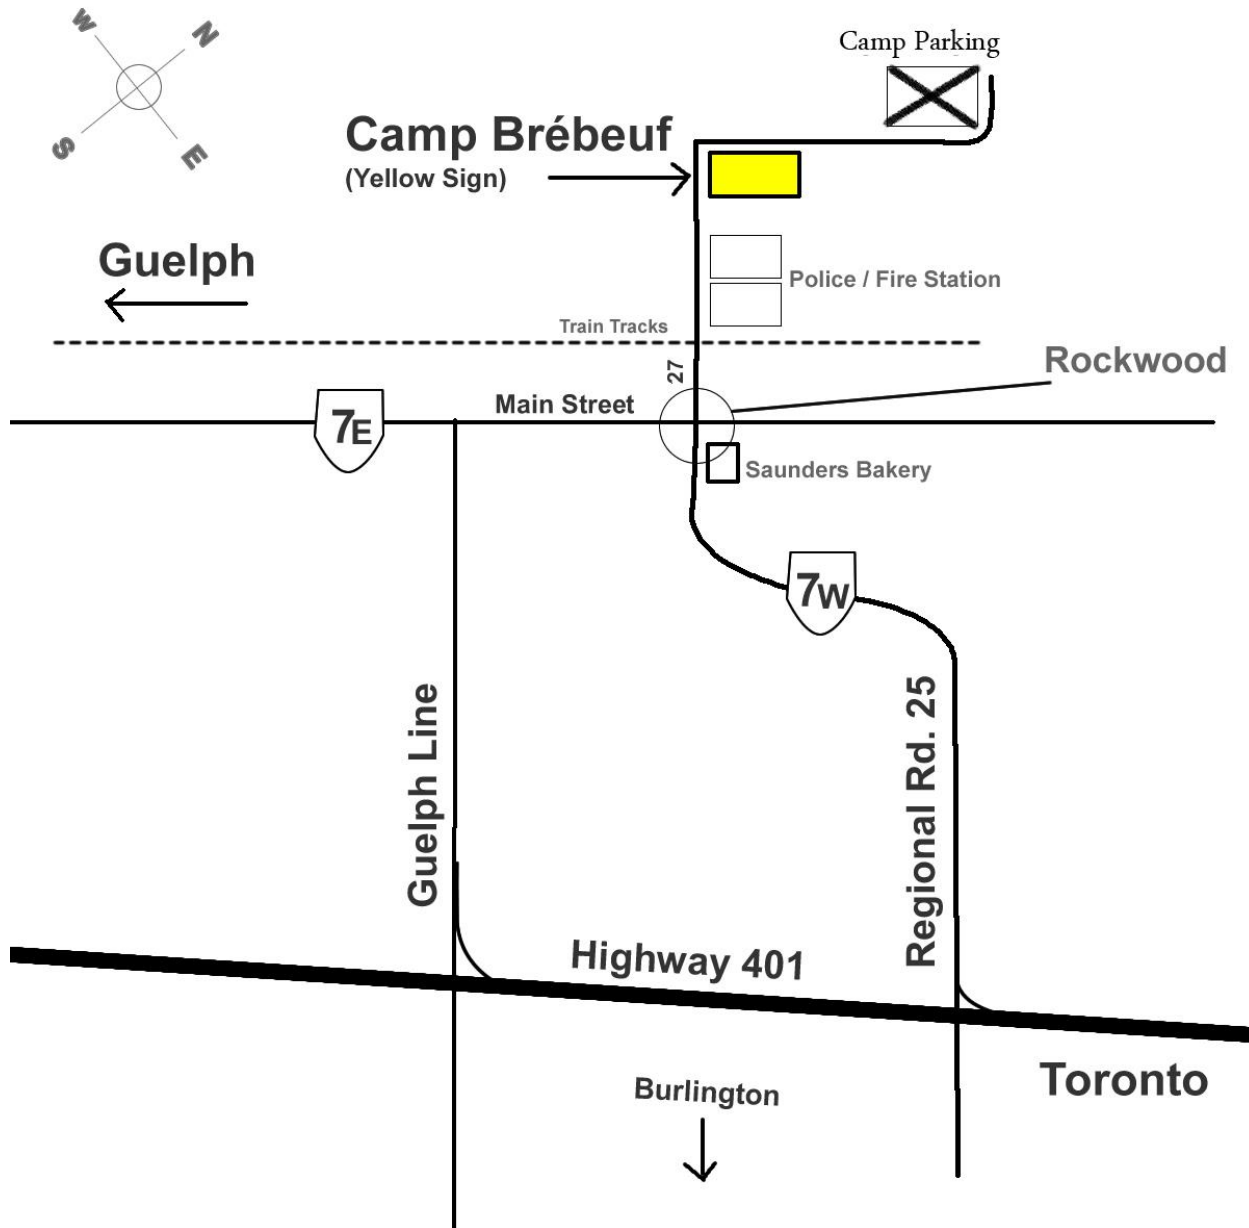

Poor weather:

-We still run programming, rain or shine, but will be accommodating for heavy downpours.

-If there is lightning or thunder everyone must stay indoors until there have been 10 minutes without thunder. For severe weather warnings/watches (tornadoes). Everyone will be directed.

-In extreme cold conditions, outdoor time should be limited to 20-30 minute periods, with 10-15 minute warm-up breaks to prevent frostbite.

-In extreme heat conditions, direct sunlight time should be limited and cool off/water breaks taken as needed. All the hoses on blue posts around camp have drinkable water running through them.
