Can you beat a master if the Queen starts in these squares? (You get to decide whether you want to go first or second.)
For each square on this board:

- If you can beat a master if the Queen starts in that square and you go first, color the square blue.
- If you can beat a master if the Queen starts in that square and you go second, color the square red.
- If you can beat a master if the Queen starts in that square and you go either first or second, color the square purple.
