SHELVING WITH SLOPED SHELVES

Rousseau shelving with sloped shelves provides superior-quality gravity flow storage that integrates perfectly with other products in our Spider® range. This unique product on the market is available in a wide range of dimensions to fulfill your exact requirements.

With an average slope of 15 degrees, sloped shelves are perfect for rear-loading applications (flow rack). These units help to create a "first in, first out" (FIFO) system. Shelving units without rear access are also available for more conventional storage.

Sloped shelves provide optimum visibility for items stored on shelves above the user's eye level. For shelves below this level, the extra angle reduces visibility of the shelf contents. If visibility is more important than flow in your system, we recommend installing lower shelves at right angles (SH20/21).

SRE1F-EE750501 + SRG1F-EE750501

PRECONFIGURED MODELS

SRE1T-EE750502*

NOTE: *A sloped shelf (SH27) can be replaced with a right-angled BOX shelf (SH20 / 21), see page 100.

OPEN AND CLOSED SHELVING

HERE ARE SOME OF OUR MOST POPULAR PRECONFIGURED MODELS OF SHELVING UNITS

- The preconfigured models in this section include open or closed uprights and sloped shelves
- The shelves have perforations for SH52 dividers and SH57 guides in 1½" increments c/c. Extra perforations have also been added on each side for aligning an SH52 divider or an SH57 guide with the side of the post (this part acts as a side edge and prevents interference between stored items and the post fold)
- SH52 dividers are available for 18"D and 24"D shelving only
- A sloped shelf can be replaced with a right-angled BOX shelf, see page 100
- The closed shelving preconfigured models in this section include back panels and a front base
- The open shelving preconfigured models in this section include a back brace

PRECONFIGURED MODELS

NOTE: *A sloped shelf (SH27) can be replaced with a right-angled BOX shelf (SH20 / 21), see page 100.

FIFO OPEN SHELVING

HERE ARE SOME OF OUR MOST POPULAR PRECONFIGURED MODELS OF SHELVING UNITS

- The preconfigured models in this section include open uprights and sloped shelves These preconfigured models include two dividing guides per shelf. The guides can be adjusted in 1¹/₂" increments c/c.
- The shelves have perforations for SH52 dividers and SH57 guides in 1½" increments c/c. Extra perforations have also been added on each side for aligning an SH52 divider or an SH57 guide with the side of the post (this part acts as a side edge and prevents interference between stored items and the post fold)
- SH52 dividers are available for 18"D and 24"D shelving only
- A sloped shelf can be replaced with a right-angled BOX shelf, see page 100
- These preconfigured models include single or double corner gussets (depending on configuration)

SHELVES AND SHELF ACCESSORIES

SLOPED SHELF

BOX SHELF

SH60

 For gravity flow storage ("first in, first out" – FIFO)

- Approx. 15° angle slope
- Includes a heavy-duty front edge to keep stored items in place. Front edge height: 1%"
- 20ga steel shelves (painted steel)
- Shelf is placed on galvanized steel side supports (included)
- Includes perforations for SH52 dividers and SH57 dividing guides in 1¹/₂" increments c/c
- SH52 dividers are available for 18"D and 24"D shelving only
- Extra perforations have been added to the sides to optimize alignment of the divider or guide with the post and to prevent stored items from falling
- Height can be adjusted in 1" increments, except if SR35 or SR36 corner gussets are used (in which case, can be adjusted in 2" increments)
- Sloped shelves and non-sloped SH20/21 BOX shelves can be combined in the same unit

- Sloped shelf load capacity: 450lb.
- Compatible with:
- SH99 base for mobile shelving
- SH41/43/91/93 doors with frame*
- SH85 flipper door directly underneath an SH27 shelf*
- Drawers directly underneath an SH27 shelf*
- SH28 base
- SH81 and SH82 label holders
- SH37/38/66/68/69 and SR79 panels

NOTES: Not compatible with the following products: SH50 divider, SH56 dividing rod, SH65 and SH67 panels for plastic bins, SH35 corner gussets. *Not compatible with SR35/SR36 corner gussets.

SH20/SH21

SH21 SHELF LOAD CAPACITY

Visual distortion is reduced if an SH26 reinforcement and two SH23 reinforcements are used on the shelf.

Two SH2A reinforcements increase the BOX shelf's rigidity (but do not increase the shelf's load capacity).

BOX-type shelf with roll-formed and welded front and back edges

- 20ga steel. Thickness: 1¼"
- Includes four sturdy and compact SH60 clips
- Includes perforations spaced 3" apart c/c for installing SH52 dividers
- SH52 dividers are available for 18"D and 24"D shelving only
- To order: Complete the product number with the width required: 30", 36", 42" or 48"
- SH20: Reinforcements are available for these shelves. For load capacities, see page 95
- SH21: To see load capacities and shelf reinforcements available, refer to the following table

PRODUCT NO.	DEPTH
SH2018	18"
SH2024	24"
SH2130*	30"
SH2136*	36"

NOTE: * Double bend on the sides.

OMPONENTS

SH57

- Guides for sloped shelves (version 01) can be used to guide items all the way down the shelf
 - Width can be adjusted in 1¹/₂" increments
 - The front of the guide slots into the bend at the front of the shelf
 - The guide is held at the back by a plastic end piece that screws into the shelf holes
 - 18"D and 24"D guides use aluminum rods, while 30"D and 36"D guides use stainless steel rods

- Dividing guides for BOX shelves (version 02) can be used to separate items
 - -Width can be adjusted in 3" increments
 - The guide is held at the front and back by a plastic end piece that screws into the shelf holes
- 18"D and 24"D guides use aluminum rods, while 30"D and 36"D guides use stainless steel rods
- Heavy-duty black plastic end pieces

SH34 SINGLE CORNER GUSSET KIT

• Replaces a back sway brace to provide full access to the front and rear of the shelving

SR35

- For use with an end-of-aisle post or a common post with shelves side by side and offset by at least 4" in height
- Does not allow two shelves side by side at the same height
- Installs at the front and back of the post Compatible with SH20, SH21 and SH27 shelves
- For use with SR uprights and posts only
- Not compatible with doors with frame, drawers, roll-out shelves and flipper doors

PRODUCT NO.	
SR35-02	1 pair
SR35-04	2 pairs

NOTES: A minimum of three kits of two SR35 or SR36 gussets per post is required to provide proper lateral bracing. Not to be used for shelving over 99"H, multi-level shelving or double shelf reinforcements (SHC2XXX).

OMPONENTS

- Replaces sway brace to provide full access to the front and rear of the shelving
- For use with a common post with shelves side by side at the same height
- Installs at the front and back of the post Compatible with SH20, SH21
- and SH27 shelves
- For use with SR uprights and posts only
- Not compatible with doors with frame, drawers, roll-out shelves and flipper doors

NOTES: A minimum of three kits of two SR35 or SR36 gussets per common post is required to provide proper lateral bracing Not to be used for shelving over 99"H, multi-level shelving or double shelf reinforcements (SHC2XXX)

SR36 STRUCTURAL BACK UTILITY PANEL

- Utility panel for the backs of shelving
- Forms an integral part of the • shelving structure
- Holes spaced 1" apart c/c

• Load capacity: maximum 250lb. per panel

- Compatible with WM9F, WM9G, WM9H, • WM9J and WM9L light-duty hooks, and WM9A and WM9B heavy-duty hooks
- Compatible with WM9C rails, and WM9D, • WM9M, WM9N, WM9P and WM9Q holders
- Panel combinations:
 - 75"H posts (39"H+39"H)
- -87"H posts (39"H+51"H)
- 99"H posts (51"H+51"H)
- To order: Complete the product number with the width required: 30", 36", 42" or 48"

PRODUCT NO.	HEIGHT
