

PARTS DEPARTMENT

A COMPLETE SOLUTION

We have been the experts in workspace storage and organization for over 70 years. In this time we have developed industry-leading expertise in parts department installations. You can therefore rest assured that all our products fulfill the strictest requirements for any dealership. All our products are designed, manufactured and rigorously tested in North America to meet the highest standards of engineering and quality.

The strength of our system is that it adapts to your environment and evolves with your needs. With the wide range of sizes and accessories available, you can create your own layouts and configurations to complement the installations you already have in place.

SERVICE COUNTERS

With our service counters, you can provide rapid, efficient and secure service to your customers. These workspaces can be fully personalized to ensure your most used items are always within easy reach. Placed exactly where you need it, your service counter will be an indispensable addition to your parts department.

Our products are customized to integrate into your unique environment and the space you have available. From corner workstations to counter cabinets, our scalable service counters offer the perfect blend of aesthetics and ergonomics.

PARTS DEPARTMENT

SPECIALIZED STORAGE

106-109

With our storage solutions, your parts are stored to make them easy to handle and completely secure. With racks available for any requirement, there's dedicated storage for every part: moldings, bumpers, exhaust pipes, tires, etc. Our specialists will also support you throughout the process, so you can take full advantage of everything our specialized storage has to offer.

By choosing our solutions, you ensure your parts department is optimally organized, and your inventory management is as efficient as possible.

STORAGE

118-119

Rousseau's various storage solutions can be used to apply the Japanese 5S method. We have a range of products specially designed to optimize organization of your work area by assigning a specific place for each item. From hooks to tool holders to adhesive identification labels, everything has been designed to create a safe environment that facilitates inventory management and helps your staff to move around and work efficiently.

MULTITEK CART

114

When parts are located far away from the service counter, the MultiTek Cart is your best friend. It offers a safe and secure way to rapidly transport parts of different sizes from A to B.

Built for heavy-duty tasks, the premium-quality MultiTek Cart is available in various dimensions and can be equipped with a range of accessories, which makes it incredibly versatile and perfectly adapted to automotive dealership environments. And by adding shelves with a 150lb. load capacity, you can transport more items in one go, saving you precious time and energy.

DRAWERS FOR SHELVING

99-100

By adding drawers to your shelving, you can recover 50% to 70% of your floor space. This can help you reduce the size of your parts department, leaving more room available for money-making departments like the service department or showroom. And with our drawer subdividing and labeling accessories, it's also much easier and quicker to locate the parts you need, saving you time and effort. Great savings that will surpass your expectations!

MAIN BENEFITS:

- More parts stored in the same space
- Less time spent searching for parts
- Less time spent by your mechanics waiting at the service counter
- More time for vehicle maintenance
- More time for your customers

Rousseau drawers add value to your existing equipment. They can be installed in more than 35 brands of shelving on the market.

CURRENT SITUATION

- 1 Top and bottom shelves are not properly filled and hard to access
- 2 Backs of shelves are poorly lit
- 3 Shelves obstruct line of sight for stored items
- 4 Huge amount of unused space between shelves

RESULT

An inefficient system that makes finding items and managing inventory a laborious task

OUR RECOMMENDATIONS

- 1 Widely spaced shelves for storage of larger items
- 2 Close-set shelves positioned at eye level
- 3 Drawers that open to full extension for easily locating objects
- 4 Optimized use of space based on the size of stored items

RESULT

An organized and efficient storage system that enables easier inventory management

SMALL AND MEDIUM-SIZED PARTS STORAGE

MUCH MORE THAN A SIMPLE SHELVING UNIT

Our Spider® Shelving system is perfect for day-to-day parts, special orders and parts you need to keep in stock for warranties. It's the most versatile and complete solution of its type on the market! Thanks to its unique design, it is extremely easy to configure and add accessories.

- The only system that allows you to alternate shelves (medium-sized parts) and steel decking (large parts)
- Our common post reduces the number of posts needed by 25%, leaving more space for storage
- When planning tomorrow's needs today, make Spider® Shelving the heart of your multi-level shelving system

SMALL AND MEDIUM-SIZED PARTS STORAGE

CABINETS WITH DRAWERS

DO YOU NEED MAXIMUM FLEXIBILITY?

Are you constantly rearranging your parts department or planning a remodel in the future? No problem! Choose a solution that makes the job easier: cabinets with drawers. With our selection of forklift bases, you can rest assured that moving them is fast, efficient and safe.

STACKING CABINETS

Stacking cabinets allow you to add storage for medium-sized parts above your small parts storage. For parts that require safekeeping, our doors with locks give you the security you need.

- Includes one adjustable shelf (adjustable in 1" increments c/c) and one bottom shelf
- Available with or without door (lock included on every door)

SMALL AND MEDIUM-SIZED PARTS STORAGE

SOLID DOORS WITH FRAME

SRE3205

- Designed for shelving with or without drawers, Rousseau doors store equipment safely and protect it from dirt
- Ideal for expensive parts, such as car radios
- Doors open 180° with a locking mechanism integrated into the handle

POLYCARBONATE DOORS WITH FRAME

SRE3204

- Designed for shelving with or without drawers, Rousseau doors store equipment safely and protect it from dirt
- Ideal for expensive parts, such as promotional items
- Polycarbonate panels ensure contents are visible
- Excellent impact resistance
- Doors open 180° with a locking mechanism integrated into the handle

STACKED SOLID DOORS WITH FRAME

R5SEE-871813

- These doors install in the top part of Spider® Shelving over a bank of drawers without obstructing them
- Ideal for storage and keeping work areas tidy
- Ideal for storing expensive parts or slow-moving inventory
- Doors open fully on 180° hinges, allowing shelving contents to be visible and easily accessible
- The sturdy handle includes a lock
- See technical guide S64 for all available dimensions

STACKED POLYCARBONATE DOORS WITH FRAME

R5SEE-871815

- These doors install in the top part of Spider® Shelving over a bank of drawers without obstructing them
- Ideal for storage and keeping work areas tidy
- The polycarbonate panels ensure shelving contents are visible and have excellent impact resistance
- Ideal for storing expensive parts or slow-moving inventory
- Doors open fully on 180° hinges, allowing shelving contents to be visible and easily accessible
- The sturdy handle includes a lock
- See technical guide S64 for all available dimensions

Important: Refer to technical guide S64 Spider® Shelving Doors - Layouts and Dimensions for recommended configurations and all possible combinations.

DISTINCTIVE FEATURES

Door opens by turning handle to the left or right.

Door closes with a simple push.

Electronic lock: easier management of door access permissions.

R5SEE-871811

SPECIALIZED STORAGE

A SOLUTION FOR EVERY NEED

What's the best way to store mufflers, bumpers, bodywork parts, batteries, tires and other items with unique shapes and sizes? The solution is simple: Rousseau specialized storage racks. These racks are the perfect way to make your parts department both efficient and tidy.

HANGING RACK FOR ASSORTED PARTS

- These racks are ideal for hanging exhaust pipes and any other item
- Available with one or two rails and includes hooks
- Three steel decking levels for storing large parts
- Extra hook (SR63-02)

SRP0404

DOUBLE HANGING RACK FOR ASSORTED PARTS

- Easily find what you are looking for!
- This two-level hanging rack can be used to store many items of different shapes and sizes
- Available with two or four rails and includes hooks
- Three steel decking levels for storing large parts
- Extra hook (SR63-02)

48" × 48" × 87"	88	11	SRP0410_

NOTE: To order an add-on unit, add **A** to the product number.

HIGH-DENSITY MAT RACK

- This unit stores a large number of mats and includes dividing rods.
- Includes three steel shelves for storing mats vertically
- Includes one steel shelf at the top for extra storage space
- Includes stainless steel dividing rods

W × D × H	PRODUCT NO.
60" × 36" × 87"	SRP0482_

NOTE: To order an add-on unit, add **A** to the product number.

DOUBLE BUMPER RACK

WMA3510

- Double racks can hold up to 12 bumpers. Several models are available, including stationary and mobile versions.
- The support arms are easily reconfigured, removed and stored as needed without tools

W × D × H	VERSION	PRODUCT NO.
45" × 42" × 85 1/2"	Standard version	WMA3510
45" × 42" × 87"	With leveling glide kit	WMA3511
45" × 42" × 91"	With 4" casters: 2 rigid and 2 swivel with total-lock brake	WMA3512
45" × 42" × 91"	With 4" casters: 2 swivel and 2 swivel with total-lock brake	WMA3513

WALL-MOUNTED BUMPER RACK

- Wall-mounted racks can hold up to six bumpers.
- The support arms are easily reconfigured, removed and stored as needed without tools
- Load capacity: 300lb. (if wall and wall anchoring are of sufficient strength)

W × D × H	PRODUCT NO.
45" × 23" × 72"	WMP1000

SPECIALIZED STORAGE

TIRE RACK

SRP0442

- With Rousseau tire racks, you can efficiently store, quickly identify and easily access all your tires.
- The angled beams provide excellent support for your tires
- The rack can also be used to store rims and wheels
- The single row version includes a wall spacer, while the double row version includes a unit spacer

W x D x H	VERSION	PRODUCT NO.
60" x 15" x 87"	Single	SRP0443_
60" x 48" x 87"	Double	SRP0444_

72" x 48" x 87"	Double	SRP0442_

NOTE: To order an add-on unit, add **A** to the product number.

BATTERY RACK

SRP0461

- The battery shelves are sloped 15° for easier battery rotation (first in, first out)
- Each level has a stop at the front and two guides on the sides to prevent batteries from falling accidentally
- 87"H models also include one steel decking level

W x D x H	NO. OF SHELVES	PRODUCT NO.
36" x 36" x 39"	2	SRP0464_
36" x 36" x 51"	3	SRP0465_
48" x 36" x 75"	4	SRP0460_
48" x 48" x 75"	4	SRP0461_
48" x 36" x 87"	4	SRP0462_
48" x 48" x 87"	4	SRP0463_

NOTES: Mobile version only available for 75"H starter units or shorter.

For an add-on unit, add **A** to the product number.

For a mobile rack, add **M** to the product number.

RECORD STORAGE SYSTEM

- Save between 10% and 15% of shelving space compared to similar products on the market.
- Designed to accommodate all popular sizes of record storage boxes
- Capacity: up to 80 boxes
- Shelving and Mini-Racking units are available in many dimensions. Contact our specialists for more information

KEY CUTTING STATION

- This unit makes cutting keys easy by ensuring everything is within easy reach.
- 1 roll-out shelf, 100% extension to accommodate the cutting machine
- 2 drawers (3"H) for storing keys and small parts
- 4 steel shelves for storing larger items

W x D x H	PRODUCT NO.
36" x 24" x 87"	R5SEE-871202

LARGE PARTS STORAGE

MINI-RACKING FOR LARGE PARTS

SRP0286

Mini-Racking is designed for storing large and heavy parts. With a wide choice of dimensions and decks, you can configure the units to fully meet your specific requirements.

There are three options available: steel decking, wire-mesh decking and wood decking.

MINI-RACKING WITH CHOICE OF DECKING

STEEL

To order a unit with steel decking, add **S** to the product number.

SRB5127S

SRE5127S

WIRE MESH

To order a unit with wire-mesh shelves, add **W** to the product number. Available for 48"W, 60"W, 72"W and 96"W units and 24"D, 36"D and 48"D.

SRB5127W

SRE5127W

WOOD

To order a unit without decking (e.g., for use with wood decking), leave the product number as is.

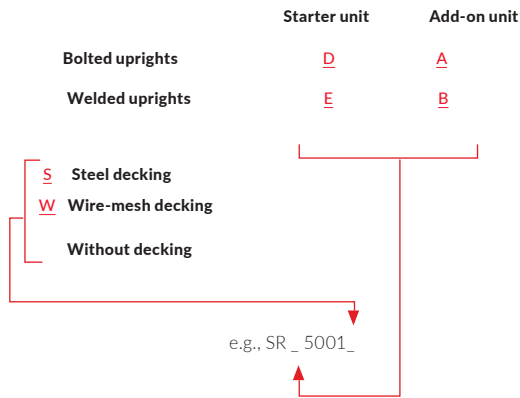

SRB5127

SRE5127

HOW TO ORDER

When ordering, model numbers must be completed as follows:

e.g., SRD5001S

For a starter unit (48"W x 18"D x 75"H) with bolted uprights and steel decking

* Mini-Racking units in these sizes can be joined to back-to-back shelving units of the same depth.

NOTES: Steel decking has a greater load capacity than wood.

Wire-mesh decking reduces fire risk.

Wood panels are not available from Rousseau.

LARGE PARTS STORAGE

MOBILE MINI-RACKING FOR LARGE PARTS

SRE4545SM

Mobile Mini-Racking is designed for moving parts, tools, and other large and heavy items. There are three options available: steel decking, wire-mesh decking and no decking.

- The preconfigured models in this section include a mobile base for Mini Racking and four 4" casters, including two swivel casters with total-lock brakes and two rigid casters
- Models with a 36"D or 48"D base include a mobile Mini-Racking handle
- Load capacity: 1000lb. per base
- All preconfigured models are quick and easy to assemble and can be disassembled when not in use

MOBILE MINI-RACKING WITH CHOICE OF DECKING

STEEL

To order a unit with steel decking, add **S** to the product number.

SRE4515SM

WIRE MESH

To order a unit with wire mesh decking, add **W** to the product number.

Not compatible with 18"D units.

SRE4515WM

WOOD

To order a unit without decking (e.g., for use with wood decking), leave the product number as is.

SRE4515M

HOW TO ORDER

When ordering, model numbers must be completed as follows:

e.g., SRE4515SM
For a 36"D x 75"H unit with welded uprights, steel decking, and a 60"W x 36"D mobile base with 4" casters

NOTES: Steel decking has a greater load capacity than wood.
Wire-mesh decking reduces fire risk.
Wood panels are not available from Rousseau.

MULTI-LEVEL SHELVING SYSTEM

NOT ENOUGH SPACE?

BEFORE YOU EMBARK ON AN EXPANSION PROJECT, CONSIDER ROUSSEAU MULTI-LEVEL SHELVING

Our specialists will suggest solutions to work around all your building's obstacles: beams, columns, doors, air ducts, building structure, sprinklers, etc.

Our system maximizes your storage potential by combining shelving (with or without drawers), Mini Racking and specialized storage (tire racks, battery racks, etc.).

MULTI-LEVEL SHELVING SYSTEM

EXPERTISE THAT LEAVES NOTHING TO CHANCE

Multi-level shelving systems are subject to standards and recommendations in earthquake-prone regions.

The Rousseau team is available to help you work out what shelving and sway bracing you need to complete your multi-level shelving project.

Call us to speak with our experts. They will evaluate your requirements and suggest a system that meets your needs.

USE THE SECOND LEVEL TO STORE LARGER PARTS AND SPECIALIZED PARTS

WORKSTATIONS

OPTIMIZE YOUR WORKSPACE

To help you optimize your work area, Rousseau offers workstations tailored to your needs. Whether you are looking for a basic workbench or more extensive storage options over and under the work surface, we have many options available. And with a wide range of accessories to choose from, there is a near limitless number of layouts and configurations possible.

Heavy duty and meticulously designed, our workstations meet the strictest standards of quality and functionality. You will love their versatility and the value they add for specific tasks, including computer work, key copying, packaging, shipping, and much more.

BASIC WORKBENCH

- A high-quality bench available in multiple dimensions and with a choice of work tops

W x D x H	PRODUCT NO.
60" x 30" x 50"	WSA2006

SERVICE COUNTERS

OPTIMIZE YOUR SERVICE

To provide rapid and efficient service to your internal and external customers, make sure you have high-turnover parts to hand, i.e., directly at the service counter!

Adding drawers under the work surface provides high-density storage. This means you can access more parts without having to move. We also recommend combining shelves and drawers to maximize storage efficiency of parts with a high turnover.

Rousseau service counters have been designed to be welcoming for your customers while also providing an efficient and ergonomic workspace. You will love the distinctive look of our new corner service counters. With an attractive finish and the option to personalize stainless steel front panels, you can proudly display your logo and highlight your brand image. See [page 94](#) for more details.

CORNER SERVICE COUNTER, CONFIGURATION 1830: 15 DRAWERS

This counter allows you to keep high-turnover parts within arm's reach. With a 24" W leg space, it's easy to work at the counter or store a chair underneath as needed.

- Left bank (24"W)
- Middle bank (24"W)

- 1 right bank, 48"W (R5KHE-3820)

W x D x H	PRODUCT NO.
72" x 24" x 40"	R5XSE-120_

The Japanese 5S method focuses on sorting, straightening or setting in order, sweeping or shining, standardizing and sustaining the practice. This method ensures that the various tools and parts are stored according to their purpose and the frequency with which they are used, in a manner that is clear and well identified. Each item has its place, which reduces wasted time and lost items. With this method, the work environment is standardized so as to ensure the best organization possible while enhancing working conditions and team morale. Moreover, this means that less time and money are wasted. Here are several Rousseau accessories that will enable you to integrate the 5S method for lean manufacturing in the storage solution for the parts department of your automobile dealership.

WALL-MOUNTED UTILITY PANEL

- Can be used to organize a wide variety of items of different sizes and weights in the same system
- Compatible with light-duty and heavy-duty hooks, vinyl rub-on identification decals, plastic bin rails, can holders and tiltable shelves
- 16"W: vertical installation and conforms with architectural standards with uprights spaced 16" apart c/c
- An optional finishing panel (WM58/WM5D) is available to create an aesthetic finish on the right-hand side
- Available in painted steel or stainless steel

PRODUCT NO.	FINISH	WIDTH
WM57-16__	Painted steel	16"
WM57-24__	Painted steel	24"
WM5B-16__	Stainless steel	16"
WM5B-24__	Stainless steel	24"

NOTE: To order, specify the height required: 18", 24", 30", 36", 48", 60", 72".

WALL-MOUNTED PLASTIC BIN PANEL

- For easier storing, moving and managing of small parts
- 16"W: vertical installation and conforms with architectural standards with uprights spaced 16" apart c/c
- Compatible with RG20 plastic bins and all brands of plastic bins with hanging lip on the market

PRODUCT NO.	WIDTH
WM5C-16__	16"
WM5C-24__	24"

NOTE: To order, specify the height required: 18", 24", 30", 36", 48", 60", 72".

VINYL RUB-ON IDENTIFICATION DECAL

- Vinyl decals help to easily identify the proper place for tools on utility panels
- The contrasting color makes it easy to notice when a tool is missing and what kind of tool it is

PRODUCT NO.	W x L
WM91-01J	2' x 8'

FINISHING PANEL

- Provides a more aesthetic finish to the wall panel system
- Closes off the panel at the right-hand side
- Order the same height as the main utility panel
- Available in painted steel or stainless steel
- 1 1/8"W

PRODUCT NO.	FINISH
WM58-__	Painted steel
WM5D-__	Stainless steel

NOTE: To order, specify the height required: 18", 24", 30", 36", 48", 60", 72".

PLASTIC BINS

- 45° angled rim for easy identification of bin contents and removal of bins
- 6" plastic bins can be subdivided

PRODUCT NO.	W x D x H
RG20-030302	3" x 3" x 2"

RG20-060302	6" x 3" x 2"
RG20-060602	6" x 6" x 2"
RG20-030303	3" x 3" x 3"
RG20-040303	4" x 3" x 3"
RG20-060303	6" x 3" x 3"
RG20-060603	6" x 6" x 3"

HEAVY-DUTY HOOKS

- Our hooks can be used to store many different parts and tools
- Load capacity: 50lb.
- Square and round versions available

PRODUCT NO.	TYPE OF HOOK	LENGTH
WM9A-06	Square	6"
WM9A-12	Square	12"
WM9B-06	Round	6"
WM9B-12	Round	12"

PLASTIC BIN RAIL

- Ideal for integrating and managing small parts in a 5S storage system
- Compatible with RG20 plastic bins

PRODUCT NO.	W x H
WM9C-06	6" x 3"
WM9C-15	15" x 3"

PLIERS HOLDER

- Holds up to six pliers

PRODUCT NO.	W x D x H
WM9M-01	9" x 2 1/2" x 2"

SCREWDRIVER HOLDER

- Two versions available for holding 6 or 12 screwdrivers

PRODUCT NO.	W x D x H	VERSION
WM9N-01	9" x 1 1/2" x 2"	Single
WM9N-02	9" x 3 3/4" x 2"	Double

LIGHT-DUTY HOOKS

- Our hooks can be used to store many different parts, tools and accessories
- They are compatible with Rousseau utility panels as well as other panels currently available on the market (1/4" dia. holes)
- Also compatible with the wall-mounted panel system
- Color: black

CAN HOLDER

- Ideal for organization and storage of aerosol cans
- Also compatible with drinks cans
- The 6"W version stores 2 cans (standard size) and the 15"W version stores 5 cans

PRODUCT NO.	W x D x H
WM9D-06	6" x 3" x 4"
WM9D-15	15" x 3" x 4"

TILTABLE SHELF

- Includes slots spaced 2" apart c/c for installing SH52 dividers
- Includes two side brackets which can be placed at right angles or at a 15° angle
- The shelf is reversible and its edge can act as a back stop for plastic bins and ring binders
- Load capacity: 50lb. (evenly distributed)

PRODUCT NO.	W x D
WM21-1308	13" x 8"
WM21-1312	13" x 12"
WM21-1508	15" x 8"
WM21-1512	15" x 12"
WM21-3108	31" x 8"
WM21-3112	31" x 12"

LONG TOOL HOLDER

- For storing long tools, e.g., pry bars
- Holds up to three long tools
- Space available for two smaller tools, e.g., screwdrivers

PRODUCT NO.	W x D x H

CABINETS FOR SPECIALIZED TOOLS

UNEQUALED FLEXIBILITY

We understand how valuable specialized tools are and that they must be carefully protected and completely secure. Our drawer accessories have been designed to protect your precious tools, regardless of their shape or size, and to make it easy to locate them.

We provide a turnkey service to help you create a cabinet that meets your exact and personal requirements.

YOUR OWN COMPLETELY ACCESSORIZED AND READY-TO-USE PRODUCT

Create fully personalized storage space with drawer accessories (PVC drawer liners, tool foam, plastic bins, subdivided compartment system)

Easily identify the contents of each compartment

Label your drawers and protect the labels from dirt with handle protectors

DRAWER ACCESSORIES

Our wide range of drawer accessories are compatible with each other to help you keep your tools organized and easy to find. No matter what shape or size of item you need to store, we have the accessory you need.

The unique design of the R drawer is a trademark of Rousseau Metal Inc. The drawer is also protected by a registered industrial design. To view various preconfigured models, visit the Modular Drawers & Compartments section on our website.

NON-SLIP PVC DRAWER LINER **NEW DIMENSION**

- Non-slip surface protects items stored in drawers
- Thickness: $\frac{3}{32}$ "
- Sold in sizes to fit drawer dimensions or in 27"W x 50"L rolls

NOTES: Not compatible with partitions and dividers.
To order a 27" x 50' roll: RG49-RR27-01.

PVC DRAWER LINER (RG40)

- Thickness: $\frac{3}{32}$ "
- Sold in sizes to fit drawer dimensions or in 7"W x 100"L
- Compatible with partitions and dividers

NOTE: To order a 7' x 100' roll: RG40-RR84-01.

TOOL FOAM

- Helps to easily identify stored items
- Oil resistant and non-absorbent
- The blue foam is $\frac{1}{4}$ " thick and the black self-adhesive foam is $\frac{1}{2}$ " thick

NOTE: Sold without cut-outs.

49 = Non-slip PVC drawer liner; 40 = PVC drawer liner; 42 = Tool Foam
Nominal drawer widths: 18", 24", 30", 36", 42", 48", 54", 60"
Nominal drawer depths: 18", 24", 27"
RG__-____-01

PARTITIONS AND DIVIDERS **PATENTED**

- Front to back and left to right partitions available
- Our tool-free "clip-in" subdividing system keeps the dividers firmly in place and reduces noise caused by vibrations

DRAWER DIVIDER

Nominal divider widths: 03", 04", 05", 06", 07", 08", 09", 10", 11", 12", 13", 14", 16"
Nominal drawer heights: 03", 04", 05", 06" (6" and 7"), 08" (8" and 9"), 10", 12" (12" and 14")
RG10-____

FRONT TO BACK PARTITIONS

Nominal drawer depths: 18", 24", 27"
Drawer heights: 03", 04", 05", 06" (6" and 7"), 08" (8" and 9"), 10", 12" (12" and 14")
RG00-____

LEFT TO RIGHT PARTITIONS

Nominal drawer widths: 18", 24", 30", 36", 42", 48", 54", 60"
Drawer heights: 03", 04", 05", 06" (6" and 7"), 08" (8" and 9"), 10", 12" (12" and 14")
RG01-____

NOTE: Drawer accessories are available in other dimensions. Please contact your customer service representative for more details.

DRAWER ACCESSORIES

PLASTIC BINS

- Ideal for easier storage, handling and management of small parts
- 45° angled rim for easy identification of bin contents and removal of bins
- Designed for 3"H and 4"H drawers

"OUR PARTS DEPARTMENT HAD A PROBLEM WITH LACK OF SPACE"

Derek Copeland, BMW Mississauga

CHALLENGE

Find the ideal solution to maximize the space in the parts department at BMW Mississauga, and by doing so, assemble the entire inventory in one place.

OBJECTIVE

Create a storage solution that would allow the client to solve the problem of having little space in the parts department, using Spider® Shelving Systems and Rousseau drawers.

ROUSSEAU SOLUTION

BMW Mississauga is a prestigious car dealership which serves a huge client base in the Greater Toronto Area, in Canada. This very busy garage was looking for a solution for their lack of space in the existing parts department. When Derek Copeland, Parts Manager at BMW Mississauga, came to the conclusion that the parts department needed to be renovated, he had already made his decision on which option to go with. The owner of this high end dealership owns several other dealerships, among them a Ferrari dealership where he had selected Rousseau Storage Solutions in the past. He was so satisfied with the results that he knew right away he would use Rousseau systems for his BMW parts department to get the customized solution he needed.

"He was always available to talk to us. He asked questions about our needs and he presented us with his proposal. I liked their solution very much." This is what Mr. Copeland had to say about our automotive specialist Mike de Prinse. He loved his experience! After a week of working on the project, our distributor was successful in presenting the client with a customized solution, adapted to their specific needs. Quality, modularity, flexibility and efficiency were all combined to provide a personalized solution. The excellent team work between Mr. Copeland and Mr. de Prinse was the key to the success of this project!

"Our parts department had a problem with lack of space. It is impressive to see how the layout of the shelving, drawers and accessories in the parts department has made storing all of our materials in a limited space possible, while also maximizing the work environment and storage. The productivity in the parts department has significantly increased since installing these solutions!"

FINAL COMMENTS FROM DEREK COPELAND

Here is what Mr. Copeland noticed most about Rousseau Storage Systems: "Durability and quality are what best describe Rousseau. Their modular storage materials allow you to create infinite configurations".

CASE STUDIES

"WHAT GRABBED OUR ATTENTION WAS THE DESIGN AND FLEXIBILITY OF THE PRODUCTS AND HOW HEAVY-DUTY THEY WERE"

Lorenzo D'Alexandro, Queensway Honda

CHALLENGE

The new dealership had to look professional and include technicians workstations, toolboxes, reel cabinets and computer stations

OBJECTIVE

Create a comprehensive solution that combined high-quality products, professional aesthetics and efficient workflow

ROUSSEAU SOLUTION

For over 50 years, Marino's Auto Group's promise to its customers has always been to exceed expectations. This business in the greater Toronto area specializes in five vehicle brands: Honda, Subaru, Volvo, Jaguar and Land Rover. Each customer is given a family-style welcome by passionate employees. Their driving force is to provide the best customer service possible. Although the business was thriving for this respected company, it did not want to sit back and rely on its good reputation. Recognizing that the market was evolving, and customers had new expectations, the owners wanted to relocate three of its dealerships to a new location. As a result, the group moved Lakeshore Honda to a building built for the new Queensway Honda. Located in Etobicoke in Ontario, the new building needed to cater to current needs as well as growth in the medium and long term. This meant choosing a storage system that was flexible enough to scale over time. The group heard about Rousseau at the annual NADA trade show and at the Automotive Conference Expo (ACE). The managers were immediately

impressed by the quality of the products on show: "What grabbed our attention most of all was the design and flexibility of the products and, of course, how heavy-duty they were," said Partner Lorenzo D'Alexandro. "We also liked the fact that the products were made entirely in North America."

The group was in the early stages of their relocation project and meeting with the Rousseau team was a turning point. The Rousseau product specialist at Metric Storage Systems, was soon involved in the project. As Mr. D'Alexandro said, "It has been great to work with Rousseau products expert from Metric Automotive – he listened to our needs and presented us with recommendations based on our requirements as well as innovative storage solutions for our parts department. The initial need was for a high-quality

workbench solution with a professional appearance, but as we had a more in-depth look at our requirements, we had to find a solution for multiple technician shifts, as well as a way to integrate everything from toolboxes and air and oil reels to computer stations."

Everything was considered in this project. From technicians workstations to alignment stations and oil changes, every detail was included in the creation of workspaces that met the specific needs of the tasks to be performed. The Honda dealership now has stylish and distinctive aesthetics and is a pleasant environment for employees to work in. Mr. D'Alexandro maintains that the quality of the installations is also important for hiring and retaining high-performing employees.

"Their design aesthetic makes an impactful statement by presenting a professional appearance not only to our customers but equally as important - to our employees." The work environment's design and functionality of the custom workstations will most likely help recruit top talent in the coming years.

The end result is down to teamwork from start to finish. This project proves that establishing a partnership between passionate people with a common goal - to offer customers the best experience - leads to an end result that exceeds expectations. Our Rousseau specialist agrees. He believes that a project of this scale is particularly rewarding: "It's great to work on a project of this size. We installed a total of 24 workstations and a complete parts department. We took the time to listen to our client and advise them. When you look at the result, and when the client is happy, you know you've done a good job."

Although they didn't know at the start of the project that the three dealerships would turn to Rousseau for their parts and service departments, they were left in no doubt after the Queensway Honda project was completed: Rousseau had the solution. Mr. D'Alessandro summed it up, "Rousseau products have greatly contributed to increased productivity and given the business a more professional look." A few months after completing the Honda Queensway installation, Marino's Auto Group once again called on Rousseau for Marino's Fine Cars Subaru and Jaguar Land Rover Metro West.
