# INVISIBLE VIRTUAL TOUR

INVISIBLE originated at Science Gallery  
London, King's College London in 2019,  
titled DARK MATTER

# WHO ARE THE MEDIATORS?

Mediators are the cornerstone of Science Gallery Dublin: an engaging group of young people responsible for guiding the public through our exhibitions, asking the big (and small) questions, and having conversations about art-science, the world around us and beyond.

In light of the current health and safety guidelines, for the first time we're looking beyond the confines of the gallery space and bringing this mediator experience online. This is an experimental experience for us, just as much as it is for you, so we are really looking forward to seeing you explore this new format together with us.

The mediator-led online experience will be an hour-long online Zoom call where visitors can chat with our mediators and explore our current exhibition INVISIBLE from the comfort of your own home. We'd encourage you to ask questions and share your thoughts on the exhibits throughout the online tour - just as you would in person at the gallery.

# HOW TO GET THE MOST OUT OF THINGS

## **ON THE DAY OF YOUR SESSION**

- Select a quiet space in your surroundings to set yourself up
- Get comfortable (snacks and water to hand are optional, but definitely recommended!) Bring your favourite pair of headphones for the best experience
- Ensure you have a stable internet connection (a wired connection to your router is often a good trick if available to you)
- Join the Zoom link five minutes before the start of your session to ensure you don't miss anything

## **DURING THE SESSION**

- Our mediators will admit you to the session, welcome you and introduce you to Science Gallery Dublin and our exhibition, **INVISIBLE**
- Keep an eye on the chat box feature - our mediators may send extra resources to enhance your experience and to help you explore our themes further
- Ask questions and share your thoughts throughout the tour. We love hearing from you.

- Don't worry if we mute your microphone during any stage of the session when you're not talking - this is just to ensure the best quality audio for all visitors attending the session

### **IF YOU ARE ATTENDING ALONE**

- Please mute your microphone unless speaking with the session group to ensure the best quality audio for other visitors - our mediators will do the same

### **IF YOU ARE ATTENDING IN A GROUP OF 2+ PEOPLE**

- Join from a single device if possible
- Try to reduce external noise or connect to speakers to improve audio quality
- If you are joining with children under the age of 18, please do not leave them unattended on the call at any stage during the session

### **TROUBLESHOOTING**

- Mute on/off - click the microphone icon at the bottom left of your screen to toggle your microphone on and off
- Camera on/off - click the camera icon at the

bottom left of your screen to toggle your webcam on and off

- If you are struggling with a weaker internet connection - turn off your webcam feed to save bandwidth
- If you drop out due to internet difficulties, don't worry - you can join again through the original Zoom link sent to you
- In the event you drop out completely, or must leave during a session - please feel free to get in touch with us through [tours@dublin.sciencegallery.com](mailto:tours@dublin.sciencegallery.com) to arrange for joining an alternative session at a later date
