BARREL AGED FINN'S GIN After the great success of Finn’s Gin Chicago Distilling Co started tinkering and improved what many thought was already fantastic. Being Whiskey lovers they decided to barrel Finn’s in Bourbon barrels. It paid off! The citrus and pepper beautifully mingle with the sugary char from the barrels. With enticing notes of oak on the nose and the subtleness of the botanicals deepened, Barrel Finished Finn’s is great on its own but stands up well in a cocktail.

90 Proof

Family Made for You.

Chicago Distilling Company was founded in 2010 by the DiPrizio family turning a family pastime making moonshine and wine in the Northwoods of Wisconsin into what promises to be a multi-generational business. Production of their small batch spirits began in the Fall of 2013 in the Logan Square Neighborhood of Chicago where husband and wife, Jay and Noelle as well as Jay’s Brother Vic call home. Focused on sourcing ingredients as local as possible, most of the grain is farmed specifically for their spirits less than 50 miles from CDco in Dekalb County. Whiskey is the primary spirit in production at Chicago Distilling Company but there is also a mission to continue to add specialty spirits to their expanding portfolio.
