HEALTHY & HAPPY WORKSPACE

SANITIZATION
All staff is performing ongoing sanitization of doorknobs, handles, railings, countertops, tables, tablets and other contact surfaces. We schedule weekly deep cleans with an outside service.

SINGLE-USE MENUS
All concepts will switch to single-use or sanitized laminated menus until further notice. In an effort to be environmentally-conscious, guests are also welcome to use their own devices to look at menus online.

EDUCATION
Detailed sanitization guidelines for full-service restaurants have been posted in every concept and are continually reviewed by staff before each shift. Staff is receiving ongoing trainings on cleanliness and safety.

HEALTHY & HAPPY TEAM

HANDWASHING
All employees are required to wash their hands in compliance with CDC suggested methods every 30 minutes. Timers are set in all restaurants to ensure this occurs.

MASKS & GLOVES
Masks are to be worn by all guests and staff. Gloves are mandatory for all: food prep including bar garnishes, polishing glassware, resetting tables, janitorial & cleaning duties. Tongs, tweezers or clean-gloved hands required for all plating and garnishing.

HEALTH CHECKS
Staff temperatures are checked and recorded at the beginning of every shift and are encouraged to stay home at the slightest suspicion of any illness. Travel is highly discouraged and a self isolation of 14 days is recommended for anyone who leaves the state.

HEALTHY & HAPPY GUESTS

SOCIAL DISTANCING
We adhere and ask our guests to adhere to 6-foot social distancing. Drastically decreased seating will allow for plenty of space for dine-in guests. Until further notice, we will not seat tables of more than 4 guests.

SAFE TRANSACTIONS
Bonanno Concepts is cashless throughout the pandemic. We provide touchless options for payment at venues where possible and encourage pay-ahead online ordering. Our venues offer curbside pickup on all orders.

COMMUNICATION
Questions about our practices or the safety of you or our team? We are happy to talk to you via phone or email. Our company-wide COVID-19 training manual is also available to the public.
