Pathological cycle of U.S. & Canadian policies in Honduras & Guatemala

In March and April 2018, thousands of Guatemalan and mainly Honduran refugees formed a caravan to walk north across Mexico. All were fleeing violent, corrupt, desperate living conditions in their home countries; some will stay in Mexico – many are trying to get to the U.S.

Then the U.S. media ramped up with alarmist propaganda about an “army” of “illegals” heading for the U.S. President Trump tweeted: “Big Caravan of People from Honduras, now coming across Mexico and heading to our “Weak Laws” border - Had better be stopped before it gets there” … and ordered more soldiers, guns and money to “protect” the border.

Vicious, deceitful cycle
U.S. and Canadian government and private sector policies are contributing directly to the very conditions forcing tens of thousands to flee annually. The situation is most acute today in Honduras.

In 2009, the U.S. and Canada supported a coup that ousted Honduras’ last democratically elected government. In 2009, 2013 and then again in 2017, the U.S. and Canada deemed ‘fair and democratic’ elections that were blatantly fraudulent; each time, the government cracked down with deadly force against pro-democracy protesters.

Over these nine years, the U.S. and Canada, the World Bank, and international companies and banks expanded investments with the corrupt, repressive regimes in the sectors of mining, hydro-electric dams, bananas, tourism African palm, and more.

Thank you Paul Magno & fare thee well

After years of dedicated work with Rights Action, on and off, dating back to before 1995 when Rights Action (U.S.) was known as Guatemala Partners, Paul Magno is again leaving us, heading to Baltimore where he will take up residence in the Jonah House Community, where he will continue with his life-long commitments to ending the U.S.’s endless wars and war machinery, working for respect of all human rights for all people and building the conditions of real and lasting peace. (Paul can be reached at: pmagno56@gmail.com)

Over these nine years, indices of government and private sector repression, exploitation and poverty, generalized violence, corruption and impunity have spiked to their highest levels in Honduran history. The March 2016 assassination of Berta Caceres is the most well-known case of over 500 people killed and assassinated for political reasons since the 2009 coup.

Until the U.S. and Canada – and other “international community” actors – end their political, military and economic support for and empowerment of the corrupt, repressive governments in power, there will be no end to tens of thousands of people desperately fleeing north every year …

Your donations at work

Here, a summary of organizations, individuals and projects that Rights Action has funded and worked with, to date, in 2018. Rights Action receives our funds mainly from individuals (including anonymous donors), a few institutional donors in the U.S. and Canada (including: Tikva Grassroots Empowerment Fund, Cut Foundation, an Anonymous Foundation), and Donors of Stock.

Karen Spring, of the Honduras Solidarity Network (previously with Rights Action 2008-2014), with her partner Edwin Espinal. On January 19, 2018, Edwin was illegally detained by the Honduran regime. Since the fraudulent, stolen elections of November 26, 2017 (deemed ‘fair and democratic’ by the U.S. and Canada), the Honduran regime has killed over 40 pro-democracy protesters and jailed dozens of political prisoners, such as Edwin, on trumped up charges. More information: Karen Spring, HSN, spring.kj@gmail.com.
