Transformative Struggles,
Taking on the Violent Global Economic Model

SEPTEMBER 2017 SPECIAL FUNDING APPEAL

Hudbay Minerals Lawsuits &
Justice for Assassination of Berta Caceres

The work and struggles Rights Action supports with your donations are long-term, by definition. The underlying causes of the exploitation and poverty, human rights violations and environmental destruction that our partner groups are working to end, are historical and are local-to-national-to global — these are not ‘Guatemalan’ or ‘Honduran’ problems.

Rights Action directly supports people and organizations suffering and denouncing repression, forced evictions, human rights violations and environmental harms caused by mining companies, hydro-electric dams, production of African palm trees, ‘maquiladora’ garment sweatshop factories, tourism and more. (Below: Summary of funds granted, as of July 1, 2017)

Highlighted Struggles

No work or struggle we support is more or less important than any other. The exploitation, repression and environmental harms are similar in all cases. The underlying causes are

equally similar: In Honduras and Guatemala, the economic-political-military elites partner with international companies, investors and ‘development’ banks to exploit workers and the land, to then endlessly export goods and products to global markets — repression, corruption and impunity are endemic. Here, we highlight two struggles and ask for your continued financial support.

**Hudbay Minerals Civil Lawsuits in Canada, Criminal Trial in Guatemala**

Read here (http://rightsaction.org/newsletterapril17-miningrepressionandimpunity/) a summary of the precedent-setting Hudbay Minerals lawsuits in Canadian courts and the courageous criminal trial in Guatemala against Hudbay’s former head of security.

Since 2004, Rights Action has supported the territorial and environmental defense work of the Q’eqchi’ people against harms and violations caused by successive Canadian mining companies: INCO, Skye Resources and Hudbay Minerals. Since 2010, we have supported the civil lawsuits and criminal trials in Canadian and Guatemalan courts for the 2007 gang-rapes of 11 Q’eqchi’ women from the village of Lote 8, and for the 2009 assassination of Adolfo Ich and shooting-paralysis of German Chub.

**Examinations for Discovery, November 2017**

Barring further delays, 13 plaintiffs will travel to Toronto in November to be questioned by Hudbay’s lawyers during examination for discovery. Rights Action aims to raise $20,000 to help facilitate all aspects of their trip (in-country travel, food, clothing, lodging, immigration documents, family support, etc.) from their homes in El Estor, Guatemala, to Toronto, and back.

At the same time, the murder and aggravated assault trial continues in Guatemala against Mynor Padilla, Hudbay’s former head of security (and former Lieutenant-colonel in the Guatemalan army). We seek to raise $7,500, to pay for the participation of the victims-witnesses and their lawyer.

**Justice for Assassination of Berta Caceres**

Since the U.S. and Canadian backed military coup in Honduras in 2009, Honduras has become the repression, murder, impunity and corruption capital of the Americas. The impacts of the coup could not have been more predictable, disastrous and deadly. Hundreds of people have been assassinated or killed for political reasons related to community struggles in defense of land, human rights, the environment, and a return to democracy and the rule of law. These killings went virtually unnoticed internationally until the assassination of well-known and respected Berta Caceres (and shooting-wounding of Gustavo Castro) on March 3, 2016, in Berta’s home, in La Esperanza, Honduras.

Predictably, in the context of Honduras’ entrenched corruption and impunity, no justice has been done for this crime. Due to pressure garnered by Berta Caceres’ family, COPINH and their allies, eight ‘material’ authors of her assassination have been arrested (including...
members of the U.S.-backed military), but none of the ‘intellectual’ authors – who planned and paid for the death of Berta — have been identified publicly, let alone detained. Rights Action seeks to raise $10,000 to provide continued support to the family of Berta Caceres and COPINH (the organization co-founded by Berta), at the forefront of the justice struggle.

Here, a summary of organizations, individuals and projects Rights Action funded and worked with in 2017. (Also found at: [http://rightsaction.org/yeardonationsatwork-june30-2017/](http://rightsaction.org/yeardonationsatwork-june30-2017/))
