

NATAN

WORLDWIDE DISASTER RELIEF

Therese Berkowitz is NATAN's chief designer. As a graduate of the Fashion Institute of Technology in Manhattan and a 30+ year career in advertising, Therese's experience includes illustration, graphic design and art direction. In 2010 after many years as an award-winning Creative Director, she took her talents and experience to the classroom and began teaching graphic design and photography. Her work as an art educator has been the most rewarding. Wanting to be near her children and grandchildren, Therese made Aliyah from New York to

Netanya in 2017. Inspired by our work and mission, she volunteers with NATAN and supports our design efforts working on everything from social media to print brochures, annual reports and our newsletter.
