Stanford University vaccine requirement (9/1/2021)
All faculty, staff, postdocs, and students coming on-site to work at a Stanford location are required to be fully vaccinated for COVID-19. Faculty, staff, and postdocs must provide their vaccination documentation to Stanford Health Check. Follow these instructions to upload documentation if you have not already.

Stanford Medicine vaccine requirement (9/1/2021)
In addition, Stanford Medicine’s vaccine requirement program applies to the School of Medicine workforce (faculty, staff, postdocs, students) who enter health system facilities for work purposes. Faculty, staff and postdocs who enter health system facilities for work must be fully vaccinated against COVID-19 by Sept. 30, in accordance with the directive from the California Department of Public Health (CDPH).
