CORIAN®
DESIGN

Design: Lake
Sector: Higher Education
A&D: HPI Architecture
Project: Mt Sac College
Location: Walnut, CA
Description:
Designed to protect high traffic areas with the popular and calming Lake design, 4,000 sq ft of wall cladding elevates 3 stories of this student center.

Design: Droplet
Sector: Corporate
A&D: FCA
Project: Amerihealth HQ
Location: Philadelphia, PA
Description:

80 ft tall stairwell wall highlights M|R patented software featuring the capability of non repetitive designs at any scale.

Design: Orbit
Sector: Corporate
Project: Deloitte Office
Location: Canberra, AU
Description:

This show stopping piece, designed to beautify the workspace, is heightened by M|R Curvature with thermoforming capabilities.

Design: Reeds
Sector: Corporate
Project: HQ, Undisclosed
Location: Santa Clara, CA
Description:

30 x 15 ft lobby wall with integrated signage monitor features programmed cut-out with texture gradually fading up to the border around the perimeter of the feature wall and the opening.

Design: Custom Map of LA
Sector: Corporate
A&D: Gensler
Project: Willkie Law Firm
Location: Los Angeles, CA
Description:

A topography and route map of Los Angeles comes to life with custom scenes from M|R Programmable LED backlighting.

Design: Custom Forest
Sector: Multi-Family
Project: The Parker
Location: Toronto, CA
Description:
The surrounding terrain is brought into the building through the design of this garage entry to create a unique luxury experience for homeowners.

Design: Reeds
Sector: Corporate
A&D: Beckson Design
Project: Fox Media Center
Location: Phoenix, AZ
Description:
In this Reeds design wall, the custom, embedded backlight logo appears like an original film projection: a subtle tie-in to company identity and brand.

Design: Chicago
Sector: Corporate
Project: HQ, Undisclosed
Location: Irvine, CA
Description:
Featured in meeting rooms, the reception area, and an aquarium, the Chicago design is used in each space, varying in color, to unite the office as a shared design element.

Design: Custom Hillside

Sector: Healthcare

A&D: Gresham Smith

Project: Orlando Health

Location: Orlando, FL

Description:

This 550 sq ft feature wall with a custom geometric, hillside design consists of micro-grooves paired with dramatic strokes to create a multi layered design.

Design: Honey
Sector: Healthcare
Project: NY Psychotherapy and Counseling Center
Location: New York, NY
Description:
This carved, backlit logo demonstrates how variable depths and lighting create distinction between design elements for depicting detailed icons.

Design: Chicago
Sector: Healthcare
Project: Dr. Vince Clinical Research Institute
Location: Overland Park, KS
Description:
700 sq ft of hygienic, non-porous, and easy to clean surfaces line the reception area and hallway walls of the health focused institute.

Design: Custom Brick
Sector: Healthcare
A&D: Corgan
Project: McKesson Health
Location: Tyler, TX
Description:
Texture, horizontal stacks, and an extra layer of vertical "bricks" come together to create a new, multi-dimensional interpretation of a stacked stone wall.

Design: Irvine Mountain
Sector: Healthcare
A&D: Taylor Design
Project: Hoag Hospital
Location: Irvine, CA
Description:
Local topography inspired custom design is matched with healthcare approved materials to create a stunning hospital atrium feature wall.

Design: Cloud
Sector: Healthcare
A&D: Stantec
Project: Jefferson Health
Location: Philadelphia, PA
Description:
High-touch design meets healthcare to promote serenity and wellness throughout 17,000 sq ft of curved elevator lobbies and hallways on 12 floors.

Design: Cosmos Slice
Sector: Healthcare
Project: Eazy Foot & Ankle
Location: Los Angeles, CA
Description:
Split, backlight panel float off the ceiling and shine light out the sides showcasing a refreshed approach to overhead lighting for healthcare spaces.

Design: Honey
Sector: Corporate
Project: The Nest at Glasshouse
Location: Cheshire, ENG
Description:
Honey lights up this yoga studio and wellness space designed for the contemporary tech workplace that concentrates on culture and innovation.

Design: Flower of Life
Sector: Retail
Project: Sage Goddess
Location: Los Angeles, CA
Description:
A magical moment was created for Sage Goddess, crystal storefront, with backlighting that accentuates the detailed, carved logo that intensifies as the sun goes down.

Design: Marilyn
Sector: Residential
Project: Elm Street
Location: Los Angeles, CA
Description:

MJR Image Processing software creates life-like imagery through texture. This outdoor patio backlight wall has a solid white light behind it and the texture is creating all of the detail.

Design: Custom Ribs
Sector: Residential
A&D: Monroe Group
Project: Bel Air Bar
Location: Los Angeles, CA
Description:

Undulating vertical ribs create a unique and functional backdrop. MJR Ribs are dimensional, dramatic, and a great solution for both walls and ceilings.

Design: Custom Buffalo
Sector: Hospitality
Project: Blue Bovine Steak
+ Sushi House
Location: Toronto, CA
Description:

This custom column wrap, designed to the project's theme, creates an eye catching design feature from every angle of the luxury restaurant.

Design: Flame
Sector: Hospitality
Location: Madrid, ES
Description:

Backlight flame is a beautiful backdrop for dining. The warm, white lighting with a halo effect on the surrounding surfaces brightens the space with a soft, calming presence.

Design: Custom
Sector: Hospitality
Project: Morongo Casino
Location: Cabazon, CA
Description:
Illuminated, curved and suspended from a casino lounge ceiling, this eye catching custom system was developed to defy gravity and enhance the experience of casino goers.

Design: Billow
Sector: Hospitality
Project: The Strand House
Location: Manhattan Beach, CA
Description:

This 25 ft tall focal wall at a beach front restaurant reflects on the glass guardrail and is visible throughout the double story dining room.

Design: Custom Solar
Sector: Hospitality
A&D: Wynn Development
Project: The Wynn
Location: Las Vegas, NV
Description:

This M|R Programmable backlight wall radiates sunshine for the entrance to Encore Beach Club with custom lighting scenes that animate the design.

Design: Oasis
Sector: Hospitality
Project: Oasis Hallandale
Location: Miami, FL
Description:

Lights shine up as water runs down the texture of this 200 ft long, four sided black water feature to create a stunning entrance in the drive way to a luxury condominium.

Design: Nazare
Sector: Healthcare
Project: Siperstein Dermatology
Location: Boca Raton, FL
Description:

A large overarching design is made of unique, overlapping fins to create this hurricane rated, Florida engineer approved facade.

Design: Diamonds
Sector: Residential
Project: San Remo
Location: Los Angeles, CA
Description:

The M|R Fins system is a hassle-free method that can be thermoformed to wrap corners, is easy to install and is flexible for climate conditions and heat expansion.

Design: Bird Feathers & Custom Screen
Sector: Multi-Family
Project: 9th Street
Location: Los Angeles, CA
Description:

This facade face lift is comprised of a floating leaf privacy screen framed by M|R Bird Feathers, an organic, angled and undulating facade system.

Design: Custom Blossom
Project: Blossom Facade
Location: Los Angeles, CA
Description:

This event venue's grand facade pairs the Reeds design with a custom floral focal point that ties into the project theme. M|R Walls is also featured as the ballroom dance floor.
