<tr>
<td>Plant turnip seeds in August for a fall harvest. Keep seedlings watered to get them through the hot, dry end of summer.</td>
<td>Check on your growing turnip plants! Keep the area immediately around your turnip seedlings free of weeds.</td>
<td>Check on your turnips! How do they look? Draw a picture! Measure how tall they are.</td>
<td>Harvest turnip greens in the morning, cutting the outermost leaves.</td>
<td>Turnip roots should be harvested when they are about 2-3 inches in diameter.</td>
</tr>
