SUSTAINABLE FASHION WEEK

# FASHION, RECLAIMED

Sustainable Fashion Week (SFW) is now in its fifth year, bringing together the community across the UK - and beyond - in an explosion of creative activity built to change fashion habits.

This year's theme is 'Fashion, Reclaimed'. We'll be celebrating the power of reclaiming your style, your wardrobe and your impact on the planet.

## CONTENTS

**HOW DOES SFW WORK?** // Page 3  
**THE COMMUNITY FRINGE** // Pages 4-12  
**THE HUBS** // Pages 13-48  
**FUTURE CITIZEN** // Page 51  
**RECONNECTION PODCAST** // Page 52

We stand for a fashion system that centres people and nature over profit. We believe in the power of unified, but decentralised, collective action.

#FashionReclaimed

# HOW DOES IT WORK?

This is not like other fashion weeks...

SFW is community-led for community benefit. This is where **YOU** take centre stage in reclaiming your power and taking back control of how the fashion system works.

Individuals, collectives and organisations host activities all over the UK - and even further afield - all coming together in a week and more of powerful, amplified **ACTION**.

Our programme is split into the Hubs and our Community Fringe.

The Hubs are larger in scale and have multiple activities linked together

...whereas our Fringe events are smaller, one-off events & workshops.

# FASHION RECLAIMED

Reclaim your power.

Reclaim fashion through reclaiming your style, your connection to your clothing, your skills, your community, your love of colour, the magic of secondhand, the love of visible repair and the secrets of invisible repair.

Take action in a powerful partnership with your network, or even just on your own... find your unique resistance to the industry's status quo.

Reclaim control over your style, your wardrobe, your spending habits, the interaction with your clothing, its impact on the world and the way we see ourselves.

## FUTURE CITIZEN

Inspiring young people to take action, we are giving them tools to shift clothing habits, build resilience and design a new fashion future.

Are you a teacher, tutor, lecturer?  
Are you a student?  
Are you a skills technician hosting workshops for young people?

16-22 MARCH 2026

Future Citizen is a UK-wide programme of collective action, aimed specifically at young people, led by A Single Thread CIC and delivered by **YOU!**

We're connecting up schools, colleges, universities and other places of learning to reach young people aged 11-23.

Join in - get planning, talk to your team at work and involve the students - what could you create to inspire and empower young people at the start of their fashion journey?

## RECONNECTION PODCAST

If you could only pick **5 items** from your wardrobe to wear for the rest of your life, what would they be and why?

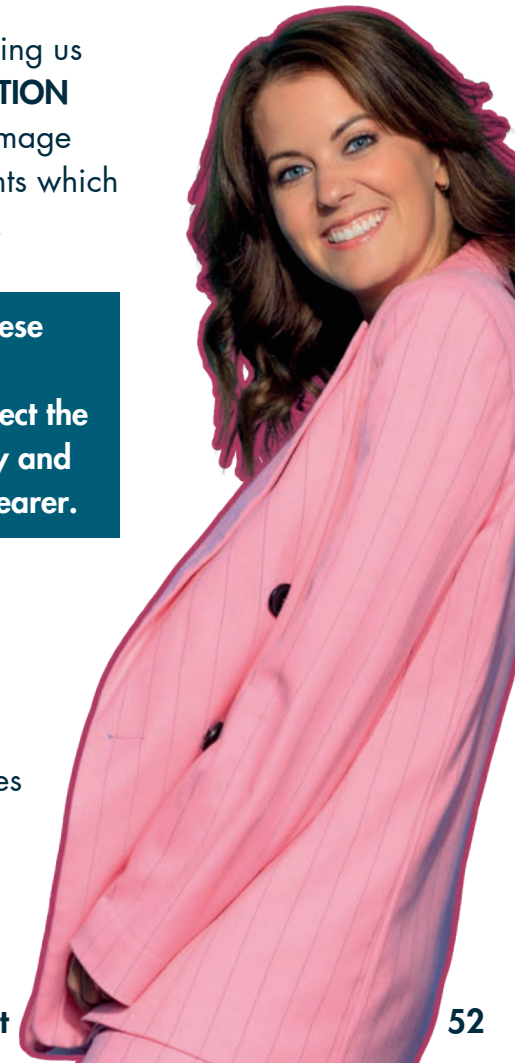

In 2025 presenter Louise Gookey is joining us again for season two of the **RECONNECTION** podcast. We'll be inviting guests to rummage through their drawers to find the garments which mean the most to them and their bodies.

We'll be exploring the stories behind these pieces... why they're important, what memories they provoke, who they connect the guest to, what they feel like on the body and what identity they help shape for the wearer.

And throughout each episode **we'll be weaving in the thread of sustainability**, examining fabrics, farming, craft, community and fashion's future as we move through the guest's chosen 5 pieces and the personal story of each.

**Want to listen in? Find us on Spotify, Apple and all the usual places!**
