

BLAIR WALSINGHAM

CANDIDATE,
US CONGRESS,
1ST DISTRICT
TENNESSEE

Blair Believes

“We CAN protect choices and quality in healthcare AND build an affordable public option to compete with private insurance.

Let’s work together to strengthen our communities so that we can all thrive.”

HEALTHCARE For Every Household

It’s time to take charge of our healthcare. Local hospitals are closing, unemployment is leaving more people without coverage, and the medicaid wage cap excludes too many local residents.

Blair will:

- Make it easier for new healthcare facilities to open and provide competition for Ballad Health who has zero accountability because they have zero competition
- Control prescription drug prices
- Raise medicaid wage caps to cover more of us who currently do not have access to health insurance
- Provide paid family & medical leave so we no longer have to choose between caring for loved ones and paying our bills
- Ensure that nobody loses insurance due to ineligibility without their knowledge by placing the burden of proof on the state
- Support EMT’s with technology to ensure they can save lives en route to treatment.
- Advocate for expanded telehealth to provide access to non-emergency services for both physical and emotional health

“It’s time to come together to provide accessible, affordable, quality healthcare to all Americans, including treatment of mental and emotional challenges so that they can feel productive and valued by society.”
