

# BLAIR WALSHINGHAM

CANDIDATE, U.S. CONGRESS TN-01

## “AMERICA FIRST” MY WAY

True America First is not corporations over community. True America First is **people before politics** and **people over profits**. True America First is bringing our communities into the fold so everyone is a shareholder in American prosperity.

## BRING BUSINESS BACK TO AMERICA

How many tax breaks & corporate subsidies are we ready to provide out of our hard earned tax dollars to save low paying jobs that are likely to be automated away.

**We build  
opportunity by  
building a skilled  
& educated labor  
force at home.**

## BLAIR BELIEVES

Our business leaders should be educated on the moral responsibility of keeping jobs here.

America First is INVESTING in:

- People to build up new industries, including hemp and renewable energy
- Education so that companies don't need to outsource local jobs
- OUR labor force so WE lead in the world
- Training so we guarantee opportunity for generations to come.

Isn't it time businesses put America first & stop asking for handouts? Our nation's businesses are too cozy with subsidies & tax breaks. It's time they start standing by the people who built them.
