

To Whom It May Concern:

I am a proud member of the Football4Climate Fan Club, a unique fan club which is driven by individuals and clubs who are passionate about both football and climate action.

The Football4Climate Fan Club is an initiative supported by Sport and Sustainability International (SandSI) which is an international NGO, based in Geneva, that seeks to accelerate sustainability in and through sport (www.sportsustainability.org).

By signing up for the Football4Climate Fan Club, I have pledged to **support you as my favourite football club in taking climate action** while doing what I can on my side as well. On behalf of the Football4Climate Fan Club, I would like to request you the following:

- 1) **Report the club's carbon footprint** (environmental impact) and make it visible and transparent on the club's website. Kindly start measuring now if the club does not yet measure its carbon footprint;
⇒ Contact info@football4climate.org if you have any questions
- 2) **Become a signatory of the United Nations Sports for Climate Action framework;**
⇒ For more information: <https://unfccc.int/climate-action/sectoral-engagement/sports-for-climate-action>
- 3) **Encourage your football club fans to join the Football4Climate Fan Club.**
⇒ For more information: <https://www.football4climate.org/fanclub>

Thank you in advance for your leadership and do not hesitate to contact me or Football4Climate should you have any further question.

Yours sincerely,

A Football4Climate Fan
