EC/WAC Triage Line
1. Ask the parent the listed symptom* AND exposure*** questions. If yes, tell the parent that you will call them back. Notify physician, APP, or nurse for guidance.
2. Consider telehealth appointment.

Nursing Checklist for Suspected COVID-19 Patients:
1. Patient contact should only be with essential staff (no students).
2. Staff must wear appropriate PPE.
3. Limit patient and family to private room.
4. Maintain log of all staff entries into the room.
5. Once patient transfer occurs, room should be closed off followed by routine environmental cleaning.
7. Refer to “Care of the PUI Patient” for additional details.
