Johnny Micheel
5:00 p.m. to Sunset

Learn about incorporating several different management techniques that have a big impact on resource conservation and land productivity.

Experience sawmill operation and how woodland maintenance improves lumber quality & profitability.

Several management techniques will be present: Grazing of goats, Christmas Trees, Pollinator Habitat, Timber Stand Improvement (TSI).

Meet industry professionals and peers to improve your forest land.

Please wear appropriate closed-toe shoes for hiking. Seating is limited so bring a lawn chair if needed. Prepare for ticks & bugs.
