IF A STUDENT HAS:

1. A measured temperature ≥ 100.4°F
   OR
2. Any of the following symptoms:
   - Subjective fever, chills
   - Cough*
   - Shortness of breath*
   - Nasal congestion or runny nose*
   - Sore throat
   - Headache*
   - Nausea or vomiting or diarrhea*
   - New loss of taste or smell
   - Fatigue*
   - Muscle aches
   - Poor feeding or appetite*

*May be able to disregard this symptom if school personnel are already aware of a non-COVID chronic pre-existing condition that causes that symptom AND if the nature of that symptom (duration, intensity, etc.) is consistent with what school personnel are familiar.

TAKE THE FOLLOWING ACTIONS:

1. Ensure the symptomatic student(s) is in appropriate PPE and remove them from public spaces
2. Isolate student(s) until they can be transported home and remove siblings from other classrooms
3. Refer symptomatic student(s) to call their Primary Care Provider (PCP)

STUDENT(S) TO STAY HOME UNTIL:

COMPLETED A COVID-19 TEST

Do not complete a COVID-19 test

CONFIRMED CHRONIC DIAGNOSIS OF NON-COVID-19 ILLNESS

May Return to School When:

1. Negative COVID-19 test and 3 days of resolved symptoms
   AND
2. If school receives a note from licensed MD/DO/NP who manages staff/student attesting a pre-existing chronic medical condition that explain symptoms unrelated to COVID-19, then they may be able to remain at school if similar symptoms reoccur

*Note: A note of an acute alternate diagnosis (e.g., strep throat or ear infection) without negative COVID-19 testing cannot be accepted at this time due to the risk of co-infection with COVID-19
