About the NORC at the University of Chicago

Sourced from ABS is a 501(c)(3) non-profit based in Washington, D.C. The organization focuses on studying and developing strategies to improve the federal government's data infrastructure to support evidence-based policymaking and open data products. Supported by private and public funds, The Data Foundation is a network of organizations working together to make data a public good.

Please visit tools, and advanced principles of scientific integrity and collaboration. Today, government, corporate, and nonprofit clients around the world communicate with friends and family by phone, text, email, app, or using the Internet?

For purposes of publication, data and findings from the study should be attributed to:

**NORC** at the University of Chicago and The Data Foundation

Respondents are offered a small monetary incentive for completing the survey. The questionnaire is available at:

[Questionnaire]
