The count of COVID-19 deaths. Demographic weighting variables were obtained from the 2020 Current Population Survey. The count of COVID-19 deaths (regional) is larger than the national estimate because it includes COVID-19 deaths from March 2, 2020, to April 26, 2020, that were not included in the national estimate.

Data for the regional estimates are collected using a multi-mode address-based (or ABS) approach that allows residents of each area to communicate with friends and family by phone, text, email, app, or using the Internet?

Data for the national estimates are collected using the AmeriSpeak Panel®, NORC's probability-based panel designed to be representative of the civilian, non-institutionalized population of the United States.

PHYS1. Have you experienced any of the following symptoms in the past 7 days, or not?

PHYS2. Have you had a cough in the past 7 days?

PHYS3. Have you felt feverish or chills?

PHYS4. Have you felt short of breath when you were not physically exerting yourself?

PHYS5. Has a doctor or other health care provider ever told someone you live with that they have COVID-19?

PHYS6. Have you been told to isolate or quarantine because you were exposed to someone with COVID-19?

PHYS7. Have you been told to isolate or quarantine because you had COVID-19?

PHYS8. Would you say your health in general is excellent, very good, good, fair, or poor?

PHYS9. How many times per week do you communicate with friends and family by phone, text, email, app, or using the Internet?

PHYS10. There are some options for testing and tracking people who may have COVID-19 in order to help slow the spread of this virus. If you or someone you live with has COVID-19, which of the following has/have been recommended about COVID-19?

PHYS11. Have you had your temperature measured in the past 7 days?

PHYS12. Have you been informed by a doctor or health care provider that you have COVID-19?

PHYS13. Have you been told by a doctor or health care provider that you do not have COVID-19?

PHYS14. If you have COVID-19, have you been informed about how to isolate?

PHYS15. If you have COVID-19, have you been informed about how to quarantine?

PHYS16. If you have COVID-19, have you been informed about home care?

PHYS17. If you have COVID-19, have you been informed about seeking care?

PHYS18. If someone you live with has COVID-19, have you been informed about how to isolate?

PHYS19. If someone you live with has COVID-19, have you been informed about how to quarantine?

PHYS20. If someone you live with has COVID-19, have you been informed about home care?

PHYS21. If someone you live with has COVID-19, have you been informed about seeking care?

PHYS22. If someone you live with has COVID-19, have you been informed about protective practices?

PHYS23. If someone you live with has COVID-19, are you using protective practices?

PHYS24. If someone you live with has COVID-19, are you using personal protective equipment (PPE)?

PHYS25. If someone you live with has COVID-19, have you been informed about what to do if you are infected?

PHYS26. If someone you live with has COVID-19, have you been informed about what to do if you come into contact with someone who is infected?

PHYS27. If someone you live with has COVID-19, have you been informed about what to do if the sick person is not sick?

PHYS28. If someone you live with has COVID-19, have you been informed about what to do if the sick person is sick?

PHYS29. If someone you live with has COVID-19, have you been informed about what to do if you come into contact with someone who is not sick?

PHYS30. If someone you live with has COVID-19, have you been informed about what to do if you come into contact with someone who is sick?

PHYS31. If someone you live with has COVID-19, have you been informed about what to do if you are not sick?

PHYS32. If someone you live with has COVID-19, have you been informed about what to do if you are sick?

PHYS33. If someone you live with has COVID-19, have you been informed about what to do if you are not sick and come into contact with someone who is sick?

PHYS34. If someone you live with has COVID-19, have you been informed about what to do if you are sick and come into contact with someone who is not sick?

PHYS35. If someone you live with has COVID-19, have you been informed about what to do if you are sick and come into contact with someone who is sick?

PHYS36. If someone you live with has COVID-19, have you been informed about what to do if you are not sick and come into contact with someone who is not sick?

PHYS37. If someone you live with has COVID-19, have you been informed about what to do if you are not sick and come into contact with someone who is sick?

PHYS38. If someone you live with has COVID-19, have you been informed about what to do if you are sick and come into contact with someone who is not sick?

PHYS39. If someone you live with has COVID-19, have you been informed about what to do if you are sick and come into contact with someone who is sick?

PHYS40. If someone you live with has COVID-19, have you been informed about what to do if you are not sick and come into contact with someone who is not sick?
