**About The Data Foundation**

For purposes of publication, data and findings from the study should be attributed to:

Please visit methods and tools, and advanced principles of scientific integrity and collaboration. Today, government, corporate, and nonprofit clients around the world, philanthropy, and government contract funding, the Data Foundation provides administration and operational support for the COVID-19 pandemic. The foundation is committed to providing reliable, data-driven insights to inform public health decisions.

**GRID ITEMS RANDOMIZED**

<table>
<thead>
<tr>
<th>Data Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demographics</td>
<td>Age, gender, race, ethnicity, and household size</td>
</tr>
<tr>
<td>Health Status</td>
<td>Symptoms, risk factors, and health outcomes</td>
</tr>
<tr>
<td>Economic Impact</td>
<td>Employment status, income, and financial challenges</td>
</tr>
<tr>
<td>Social Distancing</td>
<td>Contact with others, social gatherings, and public events</td>
</tr>
<tr>
<td>Behavioral Changes</td>
<td>Mask wearing, handwashing, and cleaning practices</td>
</tr>
<tr>
<td>Public Health Policies</td>
<td>Quarantine requirements, closures, and restrictions</td>
</tr>
<tr>
<td>Assisted Living</td>
<td>Assistance from community organizations, government programs</td>

</table>

**PHONE SCREENERS**

Phone screeners are conducted to determine eligibility for the main survey. The main survey is conducted online and includes a comprehensive set of questions to gather data on the impact of the pandemic.

**USE OF PROMPTED ITEMS**

Prompts are used to guide respondents through the survey and ensure consistency in data collection.

**DATA QUALITY AND RELEVANCE**

Data is validated to ensure accuracy and relevance to the study objectives. The Data Foundation is committed to maintaining the highest standards of data quality.

**DATA SECURITY AND PRIVACY**

All data is collected confidentially and is only used for research purposes. The Data Foundation complies with all data protection and privacy regulations.

**DATA SHARING AND ACCESS**

Data is shared with authorized parties for research and analysis. The Data Foundation ensures that all data is shared responsibly and in accordance with data sharing agreements.

**DATA PRIVILEGES AND LIMITATIONS**

Data privileges are granted to authorized parties based on the scope of the research project. The Data Foundation adheres to strict data privileges and limitations to protect the confidentiality of the respondents.

**DATA REDUCTION AND ANALYSIS**

Data is reduced and analyzed to provide insights and recommendations. The Data Foundation is committed to using data-driven approaches to inform public health decisions.

**DATA DISSEMINATION AND COMMUNICATION**

Data is disseminated through research reports, publications, and presentations. The Data Foundation communicates findings to stakeholders and the public to promote evidence-based policies.

**DATA Archiving and Preservation**

Data is archived and preserved for future research and analysis. The Data Foundation ensures that data is stored securely and can be accessed for future research projects.

**DATA OMISSIONS AND ERRORS**

Data omissions and errors are reported and corrected. The Data Foundation is committed to maintaining the accuracy and completeness of the data collection process.

**DATA UPDATES AND REVISIONS**

Data is updated and revised based on new information and insights. The Data Foundation is committed to staying up-to-date with the latest research and policy changes.

**DATA MANAGEMENT AND REGULATIONS**

Data management and regulations are in place to ensure compliance with all legal and ethical standards. The Data Foundation adheres to strict data management and regulatory practices.

**DATA ACCESSIBILITY AND ACCOMMODATIONS**

Data is made accessible to all authorized parties. The Data Foundation provides accommodations for individuals with disabilities to ensure equal access to data.

**DATA SECURITY AND AVAILABILITY**

Data is secured and available for authorized parties. The Data Foundation is committed to maintaining the availability and security of the data collection process.

**DATA DISTRIBUTION AND ACCESSIBILITY**

Data is distributed and made accessible through various means, including online platforms, research reports, and presentations. The Data Foundation ensures that data is distributed and made accessible to all authorized parties.

**DATA ANALYSIS AND INTERPRETATION**

Data is analyzed and interpreted to provide insights and recommendations. The Data Foundation is committed to using data-driven approaches to inform public health decisions.
