### ECON3. Prior to March 1, 2020 when COVID-19 began spreading in the United States, how many hours did you usually work each week for pay?

- **Yes, I worked for someone else for wages, salary, piece rate, commission, tips, or payments 'in kind,' for at least 1 hour last week.**
- **No, I did not work for pay last week.**

---

### SOC2B. During a typical month prior to March 1, 2020, when COVID-19 began spreading in the United States, how often did you talk to a doctor or hospital?

- **Not at all**
- **Once a month**
- **A few times a week**
- **Basically every day**

---

### 404. If these options were available to you, how likely would you be to participate in them?

- **I would be very likely:** 
- **I would be moderately likely:** 
- **I would be somewhat likely:** 
- **I would be only slightly likely:** 
- **I would not be likely at all:** 

---

### 400. For each of the following options, please rate how likely you are to participate from 1 to 5 (1 = Not at all likely, 5 = Extremely likely), and provide comments if your rating is different from what you think it should be.

- **Domestic travel restrictions or bans**
- **Work from home requirements**
- **Closure of work**
- **Furloughs**
- **Flex time**
- **Telework only**
- **Reopen retail shops and entertainment venues**
- **CANCELED OR POSTPONED SCHOOL ACTIVITIES**
- **Component of a COVID-19 test**
- **Symptoms and provides a raw sample (e.g., a nasal swab)**
- **Symptoms and provides a raw sample (e.g., using a q-tip to swab your cheek or your arm)**

---

### Respondents are offered a small monetary incentive for completing the survey.

The questionnaire is available at: [About the NORC at the University of Chicago](https://www.norc.org)
