The weighted data reflect the population of adults age 18 and over in each region.

A Note on Applying Weights

When generating estimates for a geographic region, the REGION_WEIGHT or REGION_WEIGHT_POP should be applied.

Please visit [Foundation](mailto:covidimpactsurvey@datafoundation.org) for more information.

**Research publications that use microdata from the COVID Impact Survey should cite as:**

**ECON3.** Prior to March 1, 2020 when COVID-19 began spreading in the United States, how many hours did you usually work each week?

**Show if Did not work for pay last week in ECON1**

**Show if Worked for someone else in ECON1**

**SOC5.** In the past 7 days, how often have you?

**SOC4B.** During a typical month prior to March 1, 2020, when COVID-19 began spreading in the United States, did you spend any time communicating with friends and family by phone, text, email, app, or using the Internet?

**SOC3B.** During a typical month prior to March 1, 2020, when COVID-19 began spreading in the United States, how often did you travel outside your state to attend a public event with 250 or more people?
