**National Survey of COVID-19 Impact**

University of Chicago is conducting the survey. The survey is designed to provide weekly estimates of the U.S. adult household population nationwide and for 18 regional areas including 10 major metropolitan areas (Chicago, Los Angeles, New York, Miami, Philadelphia, Houston, Atlanta, Detroit, Boston, and San Francisco). Data collection is occurring over a week long period. Interviews are conducted in English and Spanish.

**Wave 3 samples, NAT_WGT_COMB_POP and REG_WGT_COMB_POP, should be used for analysis for national and regional samples, respectively. Adults.**

Interviews are conducted with adults age 18 and over. The sample is constructed with random digit dialing of landline households across the United States. Addresses are stratified by the Census propensity to respond metric and then randomly selected within each target stratum. The sample includes people with P.O. Box only addresses, some addresses not listed in the USPS Delivery Sequence File, and some newly constructed dwellings. 

---

**Survey Questions:***

**PHYS1.** Have you experienced any of the following symptoms in the past 7 days, or not? (Yes/No)

**PHYS2.** Have you experienced any of the following symptoms in the past 14 days, or not? (Yes/No)

**PHYS3.** Have you experienced any of the following symptoms in the past 30 days, or not? (Yes/No)

**PHYS4.** Has a doctor or other health care provider ever told you that you have COVID-19? (Yes/No)

**PHYS5.** How confident are you in the information you’ve received about COVID-19? (Not at all/Not too likely/Moderately likely/Extremely likely)

**PHYS6.** How likely or unlikely are you to have COVID-19 if you were to contract it? (Not at all/Not too likely/Moderately likely/Extremely likely)

**PHYS7.** What’s your opinion on the effectiveness of the healthcare system in dealing with COVID-19? (Not at all/Not too likely/Moderately likely/Extremely likely)

**PHYS8.** If you or someone close to you were diagnosed with COVID-19, how likely would you be to go into isolation? (Not at all/Not too likely/Moderately likely/Extremely likely)

**PHYS9.** Are you currently covered by any of the following types of health insurance or health coverage plans? (Check all that apply)
