A LETTER FROM THE DIRECTOR...

Celebrating Our First Year

Thank you to everyone who made 2019 AppleFest a great success! We generated $16,601 in revenue. A special thanks to all the wonderful volunteers, event sponsors, and donors. We introduced a few new activities this year that added to the fun; Madison Gas and Electric sponsored laser tag and we had a trunk or treat car show.

As NewBridge closes out our first year as a new organization we have encountered a few challenges and I want to thank everyone for your patience and continued support of the essential work we do with the older adults in Madison and Monona. The NewBridge Board made a decision to close our south office on October 25 and relocate the staff to the other offices. We will continue to provide the same quality services for older adults on Madison's south side.

In 2020 NewBridge will develop and begin implementation of a three-year strategic plan. We will be reaching out to our Friends group, program participants and other community stakeholders for feedback to ensure our priorities address both the current and future needs of the older adults in our community. We look forward to the future!

MONTHLY MIPPA MOMENT: PREVENTING PNEUMONIA

MIPPA (Medicare Improvements for Patients and Providers Act) has a goal of educating older adults on Medicare’s cost-saving benefits & preventive services.

Did you know that about 1 million Americans go to the hospital with pneumonia each year? Pneumonia is a lung infection caused by pneumococcal disease, which can also cause blood infections and meningitis. The bacteria that causes pneumococcal disease spreads through person-to-person contact. There’s a vaccine to help prevent pneumonia, but only 67% of adults 65 and over have ever gotten it.

Medicare can help protect you from pneumococcal infections by getting the pneumococcal shot. Medicare Part B covers the shot and a second shot one year after you got the first shot. You may be at a higher risk if you:
- Are 65 or older
- Have a chronic illness (like asthma, diabetes, or lung, heart, liver, or kidney disease)
- Have a condition that weakens your immune system (like HIV, AIDS, or cancer)
- Live in a nursing home or other facility
- Have cochlear implants or cerebrospinal fluid (CSF) leaks
- Smoke tobacco

Protect yourself from pneumonia—get your pneumococcal shot today.

For more MIPPA program information, call MIPPA Program Specialist Leilani Amundson at (608) 240-7458.
