February is Black history month, a time to celebrate Black pride and recognize the amazing contributions of Black people. Throughout the month the NewBridge Diversity & Inclusion Program will be hosting a variety of events for Black older adults to highlight Black history, celebrate Black heroes who have enriched our country, celebrate Black music and discuss how these things have impacted their lives. All events will be held virtually to keep us all safe during COVID-19. See pages 14-15 for more details.
A LETTER FROM THE DIRECTOR…

Last summer NewBridge made a commitment to promote anti-racism and advance racial equity and inclusion within our organization and our work with older adults. The first step is to assess our current practices as individuals, an organization, and in our contacts with older adults.

NewBridge has established a partnership with the nINA Collective to evaluate where we are now and what areas we can improve upon.

NewBridge will also seek input from older adults, our staff and board, our supporters and collaborators and the community at large. A Core Team of NewBridge staff have been meeting to develop and implement a plan to carry out this project. We will keep you posted.

Thank you to our NewBridge Funders: [List of logos and names]

HELP PROTECT THE VULNERABLE (AND YOURSELF) GET VACCINATED!

Many people are feeling a sense of relief now that COVID-19 vaccines have been developed and some are concerned or resistant about getting vaccinated. They don’t trust the vaccine or they had COVID and believe they are immune. The COVID-19 vaccines in the United States have been shown to be highly effective. The vaccine may help you from getting seriously ill and protect the people you care about. You can also protect people at increased risk for severe illness including the older adult community.

If you have had COVID-19 you still should get vaccinated. Experts do not know how long the immunity lasts and you run the risk of getting sick again or passing it on to others. Vaccines will work with your immune system so it will be ready to fight the virus if you are exposed. Until a large portion of the community is vaccinated the best way to protect yourself and others is to keep wearing masks and practice social distancing. Please encourage older adults and the others around you to get vaccinated. Once the COVID-19 vaccine is made available for all older adults please contact your health care provider for information.
