The Authority had capital expenditures of \$121,399 which was funded through the capital fund program. The current year additions included additional security cameras and boiler improvements.

The Authority's operating expenses cover a range of expenses. The largest expense was for housing assistance payment expenses representing 48% percent of total operating expenses. Administrative expenses accounted for 20% percent, tenant services accounted for less than 1% percent, utilities expense accounted for 9% percent, maintenance expense accounted for 10% percent, protective services accounted for 2% percent, other operating expenses accounted for 3% percent, interest expenses accounted for 1% percent, and depreciation accounted for the remaining 6% percent of the total operating expenses.

The Authority operating expenses exceeded its operating revenue resulting in a deficiency of revenue from operations in the amount of \$1,744,995 from operations as compared to excess expenses from operations of \$1,162,664 for the previous year. The key elements for the increase in the deficit in comparison to the prior year are as follow:

- Total tenant rental income increased in the amount of \$141,200 or 5% mainly due to tenant's recertification process of finding additional household income.
- The Authority reported an increase in HUD PHA operating grants in the amount of \$71,262 or 1% percent, due to additional Federal funding subsidy by HUD in comparison to the past few fiscal years.
- The Authority experienced an increase in other revenue in the amount of \$22,240 mainly due to increase revenues from the Section 8 HCV portability income from other Authorities.
- The Authority experienced increases in the following operating expense accounts:
  - Administrative expenses increased \$487,192 or 19% percent
  - Maintenance expense increased \$273,815 or 21% percent
  - Other operating expenses increased \$34,028 or 7% percent
  - Housing Assistance Payments increased \$312,040 or 5% percent
- To combat the above increases, the Authority reduced the following operating expense accounts:
  - Utilities expense decreased \$211,092 or 14% percent
  - Protective services decreased \$65,365 or 21% percent
  - Interest expense decreased \$8,641 or 8% percent

**HOUSING AUTHORITY OF THE CITY OF UNION CITY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AT JUNE 30, 2018**

**THE AUTHORITY AS A WHOLE**

The Authority's revenues consist primarily of rents and subsidies and grants received from HUD. The Authority receives subsidies each month based on a pre-approved amount by HUD. Grants are drawn down based on need against a pre-authorized funding level.

By far, the largest portion of the Authority's net position reflects its net investment in capital assets (e.g., land, buildings, equipment, and construction in progress). The Authority uses these capital assets to provide housing services to its tenants. Consequently, these assets are reported as "Net Investment in Capital Assets" and are not available for future spending. The unrestricted position of the Authority is available for future use to provide program services.

**HOUSING AUTHORITY OF THE CITY OF UNION CITY PROGRAMS**

Public and Indian Housing Program:

Under the Public and Indian Housing Program, the Authority rents units that it owns to low-income households. This program is operated under an Annual Contributions Contract (ACC) with HUD. HUD's rent subsidy program provides housing assistance to low income families so that they are able to lease "decent, safe, and sanitary" housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts: (a) 30% of the family's adjusted monthly income, (b) 10% of the family's monthly income, or (c) the Housing Authority of the City of Union City flat rent amount.

Public Housing Capital Fund Program:

The Public Housing Capital Fund was established under the Quality Housing & Work Responsibility Act of 1998 (QHWRA). Substantially all additions to land, structures and equipment are accomplished through these programs (included in the financial statements under PHA Owned Housing). These funds replace or materially upgrade deteriorated portions of existing Authority property. This fund is used for repairs, major replacements, upgrading and other non-routine maintenance work that needs to be done on the Authority's apartments to keep them clean, safe and in good condition.

Section 8 Housing Choice Voucher Program

Under the Section 8 Housing Choice Voucher Program, the Authority administers contracts with independent landlords to provide housing to Section 8 tenants. The Authority subsidizes the tenant's rent through Housing Assistance Payment made to the landlord. This program is also administered under an Annual Contributions Contract (ACC) with HUD. HUD provides annual contributions funding to enable the Authority to structure a contract that sets the participants' rent at approximately 30% of household income subject to certain restrictions.

**HOUSING AUTHORITY OF THE CITY OF UNION CITY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AT JUNE 30, 2018**

**BUDGETARY HIGHLIGHTS**

The Authority submits its annual operating budgets and capital budgets to HUD. The Authority also submits its annual operating and capital budgets to the State of New Jersey Department of Community Affairs in accordance with New Jersey statute. After the New Jersey Department of Community Affairs approves the budget, it is formally adopted by resolution of the Housing Authority's Board of Commissioners. Once adopted, the Board of Commissioners may amend the legally adopted budget when unexpected modifications are required in estimated revenues and expenses. Each fund's budget is prepared on a detailed line item basis. Revenues are budgeted by source and expenditures are budgeted by expense classification within each revenue source.

**NEW INITIATIVES**

For the fiscal year 2018 the Housing Authority's primary focus has been on funding and accountability. As a public entity that derives approximately 65% percent of its revenue from the Department of Housing and Urban Development, (2017 fiscal year was 67% percent), the Authority is constantly monitoring for any appropriation changes, especially since it appears the nation is continuing an era of need for additional public assistance to help families meet the challenges of a very tumultuous economy.

The current administration of the Authority is determined to improve the financial results of the Authority's operations. The Authority has made steady progress in various phases of our operations, all the while maintaining a strong occupancy percentage in the public housing units and a high utilization rate in Housing Assistance Programs. Interactions with the residents are a constant reminder of the need of the services.

Regardless of the constraints (financial or regulatory) placed on this Housing Authority, the Authority will continuously look for ways to better provide or expand housing and housing assistance to qualified residents of the City of Union City all the while being mindful of their responsibility to be good stewards of the public's tax dollars.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

1 – Capital Assets

The Authority's net investment in capital assets as of June 30, 2018 was \$12,459,523 (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, and construction in progress. The total decrease during the year in the Authority's investment in capital assets was \$867,215 or 7% percent. Major capital expenditures of \$121,399 were made during the year. Major capital assets events during the fiscal year included the following:

- Additional Security Cameras
- Boiler Improvements

2 – Long Term Debt

The Authority has participated in the New Jersey pooled leveraging program. Through this financing of majority capital projects will be completed on an expedited basis. Capital Project Bond payable of \$1,865,000 in outstanding debt. A full disclosure of loans payable at June 30, 2018 can be found in Note 16 to the financial statements.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The Housing Authority of the City of Union City is primarily dependent upon HUD for the funding of operations; therefore, the Housing Authority is affected more by Federal budget than by local economic conditions. Pressure on the federal budget will remain in the form of both record deficits and competing funding needs.

The capital budgets for the 2019 fiscal year have already been submitted to HUD for approval and no major changes are expected. The Capital fund programs are multiple year budgets and have remained relatively stable. Capital Funds are used for the modernization of public housing property including administrative fees involved in the modernization.

AT JUNE 30, 2018**

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES -CONTINUED**

The following factors were considered in preparing the Authority's budget for the fiscal year ending June 30, 2019.

- State of New Jersey economy including the impact on tenant income. Local inflationary, recessionary and employment trends, which can affect resident incomes and therefore the amount of rental income. Tenant rental payments are based on tenant income.
- The need for Congress to fund the war on terrorism and other impending military activities, and the impact these activities may have on federal funds available for HUD subsidies and grants.
- Continued increases in health care insurance are expected to impact employee benefits cost over the next several years.
- Inflationary pressure on utility rates, supplies and other cost.
- Trends in the housing market which affect rental housing available for the Section 8 tenants, along with the amount of the rents charged by the private landlords, are expected to have a continued impact on Section 8 HAP payments.
- Converting Low Income Housing Program rental units into RAD subsidy units.
- Even if HUD was fully funded for both the Operating and Capital Funds, it is unlikely that Congress would appropriate adequate funding. Pressure on the federal budget will remain in the form of both record deficits and competing funding needs.

### **NOTE 1 - SUMMARY OF ORGANIZATION, ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES**

**1. Organization** - The Authority is a governmental, public corporation which was organized under the laws public corporation created under federal and state housing laws as defined by State statute (N.J., S.A. 40A:12A-1 et al the Housing Authority Act) for the purpose of engaging in the development, acquisition and administrative activities of the low-income housing program and other programs with similar objectives for low and moderate income families residing in the City of Union City in accordance with the rules and regulations prescribed by the Department of Housing and Urban Development (HUD).

The Authority is governed by a Board of Commissioners which is essentially autonomous but is responsible to the U.S. Department of Housing and Urban Development and the State of New Jersey Department of Community Affairs. An Executive Director is appointed by the Housing Authority's Board to manage the day-to-day operations of the Authority. The Authority is responsible for the development, maintenance, and management of public housing for low and moderate income families residing in Union City. Operating and modernization subsidies are provided to the Authority by the federal government.

The financial statements include all the accounts of the Authority. The Authority is the lowest level of government over which the Authority's Board of Commissioners and Executive Director exercise oversight responsibility. The Authority is not included in any governmental "reporting entity" since its board members; while they are appointed primarily by the Mayor of Union City and City Council, the Board of Commissioners have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary responsibility for accounting and fiscal matters. The Authority has also concluded that it is excluded from the City of Union City reporting entity.

Based on the following criteria, the Authority has not identified any entity which should be subject to evaluation for inclusion in the Authority's reporting entity. The criteria for including or excluding a component unit relationship as set forth in GASB's #61 *The financial Reporting Entity* and Financial Reporting Standards, include whether:

- A. The organization is legally separate.
- B. The organization is fiscal dependency on the primary government.
- C. The organization has potential to impose a financial benefit or burden on the primary government.
- D. The organization meets the financial accountability criteria for inclusion as a component unit of the primary government.
- E. The primary government is able to impose its will on the organization.

### **2. Significant Accounting Policies**

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative sources. The Authority has determined that the applicable measurement focus (flow of economic resources) and accounting basis (accrual) is similar to that of a commercial enterprise. As such, the use of proprietary funds best reflects the activities of the Authority.

The Authority has adopted GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. The Statement establishes accounting and financial reporting standards for non-exchange transactions including financial or capital resources. The Authority's primary source of non-exchange revenue relates to grants and subsidies. Grant and subsidy revenue are recognized at the time eligible program expenditures occur and/or the Authority has complied with the grant and subsidy requirements.

In accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, the Authority incorporates FASB and AICPA guidance into GASB authoritative literature.

On January 30, 2008, HUD issued *PIH Notice 2008-9* which among other things requires that unused housing assistance payments ("HAP") under proprietary fund reporting should be reported as restricted net position, with the associated cash and investments also being reported on the Statement of Net Position and HUD's Financial Data Schedule ("FDS") as restricted. Any unused administrative fees should be reported as unrestricted net position, with the associated assets being reported on the FDS as unrestricted.

Both administrative fees and HAP revenue continue to be recognized under the guidelines set forth in GASB Statement No. 33. Accordingly, both the time and purpose restrictions as defined by GASB 33 are met when these funds are available and measurable, not when these funds are expended. The Housing Choice Voucher program is no longer a cost reimbursement grant, therefore the Authority recognizes unspent administrative fees and HAP revenue in the reporting period as revenue for financial statement reporting.

## Notes to Financial Statements June 30, 2018

### **Significant Accounting Policies -Continued**

The Authority adopted Statement No. 68 of the Governmental Accounting Standards Board "*Accounting and Financial Reporting for Pensions.*" The Statement established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenditures associated with pension plans of State and Local Governments. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actual present value, and attribute that present value to periods of employee service. In addition, this Statement details the recognition and disclosure requirements for employers with liabilities to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions.

### New Accounting Standards Adopted

Statement No. 75 of the Government Accounting Standards Board ("GASB 75") *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* was issued June 2015. GASB 75 establishes financial reporting standards for other postemployment benefits (OPEB) plans for state and local governments. This standard replaces the requirements of GASB 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended. The statement establishes standards for recognizing and measuring liabilities, deferred inflows and outflows of resources, and expense/expenditures, as well as identifying the methods and assumptions required to project benefit payments, discount projected benefit payments, to their actuarial present value, and attribute that present value to periods of employee service. Additionally, GASB 75 lays out requirements for additional note disclosures and required supplementary information.

The Authority adopted this accounting standards effective July 1, 2017. As a result of adopting GASB 75, which was applied retroactively, the Authority restated its other postemployment benefit liability and its net position as of June 30, 2017 by (\$7,013,411).

### **Basis of Accounting –**

In proprietary fund, activities are recorded using the accrual basis of accounting. Under the accrual basis of accounting revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. This requires the Housing Authority to account for operations in a manner similar to private business or where the Board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The major sources of revenue are tenants dwelling rentals, HUD operating subsidy, and other revenue. The Authority provides housing assistance payments to participating owners on behalf of eligible tenants to provide decent, safe and sanitary housing for extremely low and very low income families.

# HOUSING AUTHORITY OF THE CITY OF UNION CITY

## Notes to Financial Statements

June 30, 2018

### **Basis of Accounting – Continued**

HUD's rent subsidy program provides housing to low income families so that they are able to lease "decent, safe, and sanitary" housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts:

- (a) 30% of the family's adjusted monthly income,
- (b) 10% of the family's monthly income, or
- (c) Housing Authority of the City of Union City's flat rent amount.

Tenants dwelling rental charges are determined and billed monthly and are recognized as revenue when assessed because they are measurable and are collectible within the current period. The amounts not received by June 30, are considered to be accounts receivable and any amounts received for subsequent period are recorded as deferred revenue.

Other revenue composed primarily of miscellaneous services fees and resident's late charges. The revenue is recorded as earned since it is measurable and available. Non-operating revenue and expenses consist of revenues and expenses that are related to financing and investing activities and result from non-exchange transactions or ancillary activities.

HUD Section 8 Housing Choice Voucher Assistance Program receives from HUD an Annual Budget Amount (ABA) during the year in accordance with applicable HUD program guidelines. As of January 1, 2005 excess funds disbursed by HUD to the Authority for the payment of HAP's that are not utilized are not returned to HUD, but become part of the undesignated fund balance and may only be used to assist additional families up to the number of units under contract.

Administrative fee paid by HUD to the Authority in excess of administrative expenses are a part of the undesignated fund balance and are considered to be administrative fee reserves.

Financial transactions are recorded and organized in accordance with the purpose of the transaction. Each program is an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. All material inter-program accounts and transactions are eliminated in the preparation of the basic financial statements. Because the Authority's activity is considered self-financing and does not rely on specific taxes or fines (i.e. property taxes, sales and use tax etc.) no activity will be maintained as governmental funds but will be recorded as proprietary funds under the Enterprise Fund.

### **Report Presentation**

The financial statements of the Authority have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to enterprise funds of State and Local Governments on a going concern basis. The focus of enterprise funds is the measurement of economic resources, that is, the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The Authority is a single enterprise fund and maintains its records on the accrual basis of accounting. Enterprise funds account for activities (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (ii) that are required by law or regulations that the activity's cost of providing services, including capital cost (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues, or (iii) that the pricing policies of the activity establish fees and charges, designated to recover its costs, including capital costs (such as depreciation or debt service). Under this method, revenues are recorded when earned and expenses are recorded when the related liability is incurred.

The Authority's financial statements are prepared in accordance with GASB Statement No. 34 (as amended), *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* ("Statement"). The Statement requires the basic financial statements to be prepared using the economic resources measurement focus and the accrual basis of accounting and requires the presentation of a Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Net Position, and a Statement of Cash Flows. The Statement also requires the Authority to include Management's Discussion and Analysis as part of Required Supplementary Information.

GASB Statement No. 63 requires the classification of "net assets" into "net position" which consists of three components, Net Investment in Capital Assets, Restricted, and Unrestricted.

The adoptions of Statement No. 34, Statement No. 37, Statement No. 38, and Statement No. 63 have no significant effect on the financial statements except, for the classification of net position in accordance with Statement No. 63.

The federally funded programs administered by the Authority are detailed in the Financial Data Schedule and the Schedule of Expenditures of Federal Awards; both are which are included as Supplemental information.

#### **Other accounting policies are as follows:**

- 1 – Cash and cash equivalents are stated at cost, which approximates market. The Authority considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.
- 2 – Collection losses on accounts receivable are charged against an allowance for doubtful accounts.
- 3 – Buildings and equipment are recorded at cost for all programs and depreciation is computed on the straight line basis.
- 4 – Repairs funded out of operations, such as painting, roofing and plumbing, are charged against income for all programs.
- 5 – Operating subsidies received from HUD are recorded as income when earned.
- 6 – The cost of accumulated unpaid compensated absences, including fringe benefits, is reported in the period earned rather than in the period paid.
- 7 – Prepaid expenses represent payments made by the Authority in the current year to provide services occurring in the subsequent fiscal year.
- 8 – The Authority does not have any infrastructure assets for its Enterprise Fund.
- 9 – Inter-fund receivable and payables arise from inter-fund transactions and are recorded by all funds in the period in which the transactions are executed.
- 10- Advertising cost is charged to expense when incurred.
- 11- Costs related to environmental remediation are charged to expense. Other environmental costs are also charged to expense unless they increase the value of the property and/or provide future economic benefits, in which event they are capitalized. Liabilities are recognized when the expenditures are considered probable and can be reasonably estimated. Measurement of liabilities is based on currently enacted laws and regulations, existing technology, and undiscounted site-specific costs. Generally, such recognition coincides with the Authority's commitment to a formal plan of action.
- 12- When expenses are incurred where both restricted and unrestricted net positions are available the Authority will first use the restricted funds until they are exhausted and then the unrestricted net position will be used.

#### **Other accounting policies - Continued**

13- Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Authority but which will only be resolved when one or more future events occur or fail to occur. The Authority's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Authority or unasserted claims that may result in such proceedings, the Authority's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Authority's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed. Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee would be disclosed.

#### 14 - Taxes

The Authority operates as defined by the Internal Revenue Code Section 115 and is exempt from income taxes under Section 115.

Under federal, state, and local law, the Authority's program is exempt from income, property and excise taxes. However, the Authority is required to make payments in lieu of taxes (PILOT) for the low-income housing program in accordance with the provision of a Cooperation Agreement. Under the Cooperation Agreement, the Authority pay the municipality 10% of its net shelter rent.

#### 15 - Net Position

In accordance with the provisions of Statement No. 34 ("Statement 34") of the Governmental Accounting Standards Board *"Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments"*, the Authority has classified its net position into three components - net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

**HOUSING AUTHORITY OF THE CITY OF UNION CITY**

Notes to Financial Statements  
June 30, 2018

**Other accounting policies - Continued**

15 - Net Position -Continued

*Net Investment in Capital Assets* - This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather that portion of the debt is included in the same net position component as the unspent proceeds.

*Restricted* - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), granters, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

*Unrestricted Net Position* - This component of net position consists of net position that do not meet the definitions of "restricted" or "net investment in capital assets."

16-Impairment Losses

The Authority reviews its investment in real estate for impairment whenever events or changes in circumstances indicate that the carrying value of such property may not be recoverable. Recoverability is measured by a comparison of the carrying amount of the real estate to the future net undiscounted cash flow expected to be generated by the rental property including any estimated proceeds from the eventual disposition of the real estate. If the real estate is considered to be impaired, the impairment to be recognized is measured at the amount by which the carrying amount of the real estate exceeds the fair value of such property. No impairment losses were recognized in 2018.

**Budgetary and Policy Control -**

The Authority submits its annual operating budgets and capital budgets to HUD. The Authority also submits its annual operating and capital budgets to the State of New Jersey Department of Community Affairs in accordance with New Jersey statute. After the New Jersey Department of Community Affairs approves the budget, it is formally adopted by resolution of the Housing Authority's Board of Commissioners. Once adopted, the Board of Commissioners may amend the legally adopted budget when unexpected modifications are required in estimated revenues and expenses. Each fund's budget is prepared on a detailed line item basis. Revenues are budgeted by source and expenditures are budgeted by expense classification within each revenue source.

Public and Indian Housing Program

Under the Public and Indian Housing Program, the Authority rents units that it owns to low-income households. This program is operated under an Annual Contributions Contract (ACC) with HUD. HUD’s rent subsidy program provides housing assistance to low income families so that they are able to lease “decent, safe, and sanitary” housing for specific eligible tenants. The rent paid by the tenant is a percentage of tenant gross income subject to a \$50 minimum; it cannot exceed the greater of the following amounts: (a) 30% of the family’s adjusted monthly income, (b) 10% of the family’s monthly income, or (c) Housing Authority of the City of Union City flat rent amount.

Public Housing Capital Fund Program:

The Public Housing Capital Fund was established under the Quality Housing & Work Responsibility Act of 1998 (QHWRA). Substantially all additions to land, structures and equipment are accomplished through these programs (included in the financial statements under PHA Owned Housing). These funds replace or materially upgrade deteriorated portions of existing Authority property. This fund is used for repairs, major replacements, upgrading and other non-routine maintenance work that needs to be done on the Authority’s apartments to keep them clean, safe and in good condition.

Section 8 Housing Choice Vouchers Program

Under the Section 8 Housing Choice Voucher Program, the Authority administers contracts with independent landlords to provide housing to Section 8 tenants. The Authority subsidizes the tenant’s rent through Housing Assistance Payment made to the landlord. This program is also administered under an Annual Contributions Contract (ACC) with HUD.

Business Activities –

The Authority owns 112 units of a Veterans housing complex in the City of Union City

**Board of Commissioners** - The criteria used in determining the scope of the entity for financial reporting purposes are as follows:

1. The ability of the Board to exercise supervision of a component unit's financial independence.
2. The Board's governing authority extends to financial decision making authority and is held primarily accountable for decisions.
3. The Board appoints the management of the Authority who is responsible for the day-to-day operations and this management are directly accountable to the Board.
4. The ability of the Board to significantly influence operations through budgetary approvals, signing and authorizing contracts, exercising control over facilities, and approving the hiring or retention of key managerial personnel.
5. The ability of the Board to have absolute authority over all funds of the Authority and have accountability in fiscal matters.

**Grants** - The Authority receives reimbursement from various grantors for the cost of sponsored projects, including administrative cost. Grant revenues are recognized as income when earned. Grant expenditures are recognized on the accrual basis.

### **NOTE 2 - ESTIMATES**

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the period reported. These estimates include assessing the collectibility of accounts receivable, the use, and recoverability of inventory, and the useful lives and impairment of tangible and intangible assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

#### **NOTE 3 - PENSION PLAN**

The Authority participates in the State of New Jersey Public Employees Retirement System (PERS), which is sponsored and administered by the New Jersey Division of Pensions and Benefits. It is a cost sharing, multiple-employer defined benefit pension plan. PERS was established in January 1955 under the provision of NJ SA 43:15A to provide coverage, including post-retirement health care, for substantially all full time employees of the state, its counties, municipalities, school districts or public agencies, provided the employee is not a member of another state administered retirement system.

Membership is mandatory for such employees. Contributions to the plan are made by both the employee and the Authority. Required employee contributions to the system are based on a flat rate determined by the New Jersey Division of Pensions for active plan members. Benefits paid to retired employees are based on length of service, latest earnings, and veteran status. Authority contributions to the system are determined by PERS and are billed annually to the Authority.

The State of New Jersey, Department of Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0925.

#### Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994 and Chapter 115, P.L. of 1998, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employer's contributions are actuarially determined annually by the Division of Pensions. Employee contributions are currently 7.34% of base wages.

The annual employer contribution includes funding for basic retirement allowances, cost-of-living adjustments, the cost of medical premiums after retirement for qualified retirees, and noncontributory death benefits. The Authority's contribution for 2018 amounted to \$152,827.

#### Post-Employment Retirement Benefits

The Authority provides post-employment health care benefits for its eligible retirees. Eligibility requires that employees be 55 years or older with various years of service.

Further information on the Pension Plan and its effects do to the adoption of GASB #68 can be found in Note 18- Accrued Pension Liability.

### **NOTE 4 – CASH, CASH EQUIVALENTS**

The Authority's cash, cash equivalents are stated at cost, which approximates market. Cash, cash equivalents and investment includes cash in banks, petty cash and a money market checking account and certificates of deposit, and other investments with original maturities of less than three months from the date of purchase. For the statement of cash flows, cash and cash equivalents include all cash balances and highly liquid investments with a maturity of three months or less at time of purchase. It is the Authority's policy to maintain collateralization in accordance with the State of New Jersey and HUD requirements.

### **Concentration of Credit Risk**

HUD requires housing authorities to invest excess funds in obligations of the United States, Certificates of Deposit or any other federally insured investment. HUD also requires that deposits be fully collateralized at all times. Acceptable collateralization includes FDIC/FSLIC insurance and the market value of securities purchased and pledged to the political subdivision. Pursuant to HUD restrictions, obligations of the United States are allowed as security for deposits. Obligations furnished as security must be held by the Authority or with an unaffiliated bank or trust company for the account of the Authority. These funds at various banks are collateral pledge under the New Jersey Government Code of the Banking Law.

### **Risk Disclosures**

#### Collateral for Deposits

New Jersey Authorities are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or State of New Jersey or the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of securities which may be purchased by New Jersey Authorities. The Authority is required to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

#### Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy limits the Authority's investment portfolio to maturities not to exceed two years at time of purchase. At June 30, 2018, the Authority's deposits and investments were not limited and all of which are either available on demand or have maturities of less than two years.

### **NOTE 7 – INTERFUND ACTIVITY**

Interfund activity is reported as short term loans, services provided during the course of operations, reimbursements, or transfers. Short term loans are reported as interfund short term receivables and payable as appropriate. Interfund receivables and payables between funds are eliminated in the Statement of Net Position.

### **NOTE 8 - FIXED ASSETS**

Fixed assets consist primarily of expenditures to acquire, construct, place in operations, and improve the facilities of the Authority and are stated by an appraisal value.

Expenditures for repairs, maintenance and minor renewals are charged against income in the year they are incurred. Major renewals and betterment are capitalized.

Expenditures are capitalized when they meet the Capitalization Policy requirements.

Under the policy, assets purchased or constructed at a cost not exceeding \$1,000 are expensed when incurred. Donated fixed assets are stated at their fair value on the date donated.

#### Depreciation Expense

Depreciation is provided using the straight line method over the estimated useful lives of the assets.

1. Building and Structure	40 years
2. Office Improvements	7 years
3. Site Improvements	15 years
4. Building Components	15 years
5. Office Equipment	5 years

Depreciation expense for June 30, 2018 was \$988,614.

The Housing Authority of the City of Union City reviews its rental property for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. When recoverability is reviewed, if the undiscounted cash flows estimated to be generated by the property are less than its carrying amount, management compares the carrying amount of the property to its fair value in order to determine whether an impairment loss has occurred. The amount of impairment loss is equal to the excess of the asset's carrying value over its estimated fair value. No impairment loss has been recognized during the year ended June 30, 2018.

The first year of amortization is recognized as pension expense with the remaining years shown as either a deferred outflow of resources or a deferred inflow of resources. The Authority’s deferred outflows and inflows are as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<hr/>	<hr/>
Differences Between Expected and Actual Experiences	\$ 90,424	\$ -

The collective amount of the difference between expected and actual experience for the fiscal year is \$773,675 and \$770,839.

Net Difference between Projected and Actual Investments Earnings on Pension Plan Investments

The difference between the System's expected rate of return of and the actual investment earnings on pension plan investments is amortized over a five year closed period in accordance with GASB 68. The first year of amortization is recognized as pension expense with the remaining years shown as either a deferred outflow of resources or a deferred inflow of resources. The collective amount of the difference between expected and actual experience for the fiscal year is \$26,149 and \$-0-.

Changes in Proportion and Differences between Contributions and Proportionate Share of Contributions

The change in employer proportionate share is the amount of difference between the employer proportionate shares of net pension liability in the prior year compared to the current year. A liability for compensated absences that is attributable to services already rendered and that is not contingent on a specific event that is outside the control of the Authority will be accounted for in the period in which such services were rendered. Unused sick leave may be carried to future periods and used in the event of extended illness. In the event of retirement, an employee is compensated for one for two unused sick days up to a maximum of \$18,000 under the Authority's current personnel policy. Upon retirement under the State of New Jersey Public Employees Retirement system after fifteen (15) or more years of service, employees will receive a payment equal to four (4) days' pay for every year of service with the Authority. Generally, unused vacation may be carried over for a one-year period. In the event of separation from the Authority, the employee is eligible for compensation of up to one year plus any time earned in the year of separation.

**NOTE 14 – UNEARNED REVENUE**

The Authority reported unearned revenues on its Statement of Net Position. Unearned revenues arise when resources are received by the Authority before it has legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when the Authority has a legal claim to the resources, the liability for unearned revenue is removed from the Statement of Net Position and the revenue is recognized. The unearned revenue for June 30, 2018 in the amount of \$29,165 represented July 2018 prepaid rents collected.

**NOTE 15 – OTHER LIABILITIES NONCURRENT**

The Authority under the Section 8 Housing Choice Voucher program is administering a Family Self-Sufficiency (FSS) program. An interest-bearing FSS escrow account is established by the PHA for each participating family. An escrow credit, based on increases in earned income of the family, is credited to this account by the PHA during the term of the FSS contract. The PHA may make a portion of this escrow account available to the family during the term of the contract to enable the family to complete an interim goal such as education. If the family completes the contract and no member of the family is receiving welfare, the amount of the FSS account is paid to the head of the family.

If the PHA terminates the FSS contract, or if the family fails to complete the contract before its expiration, the family's FSS escrow funds are forfeited. For June 30, 2018, the Authority determined a liability in the amount of \$8,929 with a funded bank account balance at June 30, 2018 of \$8,929.

#### Plan Description

The Authority participates in the State of New Jersey Public Employees Retirement System (PERS), which is sponsored and administered by the New Jersey Division of Pensions and Benefits. The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at [www.state.nj.gov/treasury/pensions/financial-reports.shtml](http://www.state.nj.gov/treasury/pensions/financial-reports.shtml).

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS. The Authority participates in the State of New Jersey, Public Employees' Retirement System (PERS).

The following represents the membership tiers for PERS:

- 1) Tier 1 – Members who enrolled prior to July 1, 2007
- 2) Tier 2 – Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3) Tier 3 – Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4) Tier 4 – Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5) Tier 5 – Members who were eligible to enroll on or after June 28, 2011.

#### Allocation Percentage Methodology

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense excluding that attributable to employer-paid member contributions are determined separately for each individual employer of the State and local groups of the plan.

# HOUSING AUTHORITY OF THE CITY OF UNION CITY

## Notes to Financial Statements June 30, 2018

### **NOTE 18 – ACCRUED PENSION LIABILITY - CONTINUED**

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer allocations are applied to amounts presented in the schedules of pension amounts by employer. The allocation percentages for each group as of June 30, 2017 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal years ended June 30, 2017.

The contribution for PERS is set by NJSA 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which include the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2017 the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability.

The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

#### Actuarial Assumptions

The total pension liability for June 30, 2017 measurement dates were determined by using an actuarial valuation as of July 1, 2016, with update procedures used to roll forward the total pension liability to June 30, 2017. The actuarial valuations used the following actuarial assumptions:

Inflation	2.25%
Salary Increases:	
Through 2026	1.65-4.15%, based on age
Thereafter	2.65-5.15%, based on age
Investment Rate of Return	7.00%

#### **NOTE 18 – ACCRUED PENSION LIABILITY - CONTINUED**

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA.

In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2016 evaluation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities were higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate

The discount rate used to measure the total pension liability was 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.58% as of June 30, 2017, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the most recent fiscal year. The State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**NOTE 19 – RESTRICTED NET POSITION**

The Authority’s Restricted Net Position account balance at June 30, 2018 is \$202,767 which was reported under the Housing Choice Voucher Program as a HAP reserve for future use. In accordance with HUD’s PIH Notice 2007-03, the reserve fund balance may only be used to assist additional families up to the number of units under contract.

Housing Choice Voucher Program HUD Held Reserves Funds

Effective January 1, 2012, HUD was required to control the disbursement of funds in such a way that the Authority does not receive funds before they are needed, resulting in the re-establishment of HUD held program reserves to comply with the Treasury requirements. HUD held reserve is a holding account at the HUD level that maintains the excess of HAP funds that have been obligated (ABA) but undistributed to the Authority. The excess HAP funds will remain obligated but not distributed to the Authority. HUD will hold these funds until needed by the Authority. The amount of HUD held reserves for the Authority at June 30, 2018 was \$712,601.

**NOTE 20 – UNRESTRICTED NET POSITION**

The Authority unrestricted net position reflects a balance of (\$12,734,259), as of June 30, 2018, because of the requirement to adopt GASB #75 (OPEB) and GASB #68 pension liability. The Authority recorded OPEB liability to date of \$9,088,216 which has a direct effect on the reserves. The Authority recorded an accrued pension liability to date of \$3,840,236 which also has a direct effect on the reserves. GASB #75 and GASB #68 do not require the Authority to fund the liability.

**INDEPENDENT AUDITOR'S REPORT  
REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS**

Board of Commissioners  
Housing Authority of the City of Union City  
3911 Kennedy Boulevard  
Union City, New Jersey 07087

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Housing Authority of the City of Union City as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Housing Authority of the City of Union City basic financial statements, and have issued our report thereon dated March 20, 2019.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Housing Authority of the City of Union City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Housing Authority of the City of Union City's internal control. Accordingly, we do not express an opinion on the effectiveness of Housing Authority of the City of Union City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Housing Authority of the City of Union City financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM AND  
REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE  
UNIFORM GUIDANCE**

Board of Commissioners  
Housing Authority of the City of Union City  
3911 Kennedy Boulevard  
Union City, New Jersey 07087

**Report on Compliance for Each Major Federal Program**

We have audited Housing Authority of the City of Union City compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of Housing Authority of the City of Union City major federal programs for the year ended June 30, 2018. Housing Authority of the City of Union City major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Housing Authority of the City of Union City major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Housing Authority of the City of Union City compliance with those requirements and performing such other procedures as we consider necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Housing Authority of the City of Union City compliance.

***Opinion on Each Major Federal Program***

In our opinion, Housing Authority of the City of Union City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

***Report on Internal Control Over Compliance***

Management of Housing Authority of the City of Union City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Housing Authority of the City of Union City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Housing Authority of the City of Union City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Purpose of This Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
