CARDINAL KUNG ACADEMY

Co-ed Catholic Classical Education for Grades 7-12

Cardinal Kung Academy prepares students to be joyous ambassadors for the faith who bring excellence to their vocations while responding with charity and service to those in need.

Cardinal Kung Academy admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admissions policies, scholarship programs, athletic and other school-administered programs.

The Academic Difference at CKA

Cardinal Kung Academy commits to academic rigor across the disciplines, from math and sciences to the humanities, and insists upon high standards for writing and critical reading.

The integrated humanities cycle is at the heart of the school's curriculum. Each high school grade level focuses on the history and literature of a specific era of Western civilization, from the ancient world to modern times. This literary and historical survey of the Western tradition inspires students through reading the great books, engaging the great ideas, and discovering the great figures who have formed our culture. Art, music, and Latin complement the coursework, allowing students a more thorough understanding of each era of study.

Personal engagement and face-to-face discussion are essential for meaningful learning. In order to limit distractions and focus on personal engagement, classroom use of web-enabled devices is discouraged and student cell phone use is prohibited on campus.

Junior High School

The junior high school years prepare students to excel in high school. Students are given strong foundations in mathematics, grammar, Latin, and science. Essay writing and presentation skills are introduced, scaffolded, and assessed. Class discussions on the readings and lectures are a significant portion of the coursework and students become facile with reading primary sources and more difficult texts. 8th graders graduate well-prepared for the rigor of high school.

High School 4 Year Sequence
