Corporate and Family Sponsorship  
2023 CACNA1A Run, Walk & Roll 5K  
May 20-21, 2023

Sponsorship Opportunities

As a virtual race sponsor, you can make a significant contribution to the CACNA1A community and play a central role in the continued success of the CACNA1A Foundation. Your business, organization or family will benefit from visibility and goodwill to event participants across the globe and help continue our mission to improve the lives of all individuals affected by CACNA1A variants through research, family support, education and raising awareness.

Our 2022 2nd Annual Run, Walk & Roll 5K was a major success because of our generous corporate and family sponsors, which were able to reach over 550 event registrants and donors from 4 countries and 33 states, helping raise over $80,000 for research!

About CACNA1A

CACNA1A is a gene on the 19th chromosome. Variations in this gene can cause neurodegenerative disease and a variety of neurological symptoms including epilepsy, ataxia, hemiplegic migraines, eye movement disorders, cerebellar atrophy, developmental delays and intellectual disability. CACNA1A-related symptoms can have devastating effects on patients and their families. Many symptoms begin in childhood and worsen over time. Currently, there are no specific treatments available.

About Us

The CACNA1A Foundation is on a MISSION to raise both awareness of CACNA1A-related disorders and funds to accelerate research, aid in the discovery of new targeted treatment options and make a difference in the lives of those affected by CACNA1A. Some of our current research studies that are in need of funding and would benefit from your support include:

- Gene Therapy Proof-of-Concept Study
- Drug Repurposing Project
- Characterization of Genetic Variants Project
- Novel Small Molecule Development Project
- Anti-Sense Oligonucleotide Proof-of-Concept Study
