

Announcement:

The Kraft Group is now accepting new clients virtually to provide distance counseling to those in need of treatment.

For more information on The Kraft Group's Distance Counseling Services, please feel free to call us at: 973-727-1597.

The Kraft Group recognizes the significant personal and professional impact that COVID-19 has across all communities right now, and we strongly encourage everyone to take extra care of their mental health during these trying times. Your mental health is just as important as your physical health, and The Kraft Group is here to ensure quality, effective treatment is available through our Distance-Counseling services. Our clinicians offer phone and/or video sessions, through Zoom, to provide HIPPA compliant, customized mental health and addiction treatment.

Tele-Health will be increasingly needed across many fields, and The Kraft Group is fully prepared to accommodate mental health and addiction treatment accordingly.

Social Distancing, Working Remotely, and other CDC recommended actions to stop the spread of COVID-19 are necessary but can lead to increased stress, anxiety, and

isolation—if you are experiencing changes in mood, symptoms, or struggling to make these significant life changes, The Kraft Group’s clinicians are skilled in offering distance counseling for mental health and addiction treatment. Our team is dedicated and ready to help.

We understand Distance Counseling is not as widely utilized by many treatment providers and therefore, you may have questions about how it works. For more information on The Kraft Group’s Distance Counseling Services, please feel free to call me on 973-727-1597. Again, we are here to help and happy to walk you through the process of Distance Counseling.

Above all, please stay safe, and remember to take actions based on the facts and not fear.

Sincerely,

Leigh
