VITALOGICAL MEETING AND PROGRAM

Photograph Share
Thursday, June 17, 2021 7:30pm

Hopefully this will be our last virtual event in Google Meet. Go to our website to RSVP and get a link emailed to you.

Did you take some photos that you want to share with the members? June's meeting will be our annual PHOTO SHARE night. We will take turns "Presenting" our photos, so please limit your list to 30 photos and have them ready for a slide show or power point format.

Suggested Field Trips

Beginning Bird Walk, San Gabriel River Spreading Basins
We expect that soon we will be allowed to resume bird walks in Sycamore Canyon. Please check our website for details. Until then:
Every second Saturday of the month (except July and August),
June 12, 2021 7:00am
National Audubon is still asking local chapters to refrain from leading field trips or having any gatherings. Therefore, we are simply suggesting interesting places to go birding on your own that are appropriate for the season. Our suggested location is the San Gabriel River Spreading Grounds. A great location to park and begin your morning is at the eastern terminus of Mines on the west side of the spreading basin. Please check our website for further details.

Mailing Address:
Whittier Area Audubon Society
P.O. Box 548
Whittier, CA 90608-0548

SUGGESTED FIELD TRIP
We expect that National Audubon’s guidelines for outing will change soon, so if we can get together and share a field trip outing this month, we will be going SAN GABRIEL MOUNTAINS. Please keep checking our website for up to date info and whether or not the trip is live.
members informed about these and others as they develop.

TO REPEAT:
Our guest for the April General Meeting was Mr. Tom Keeney. Mr. Keeney is now retired but has 40 years of federal service including the 26 years with the Corps of Engineers. He presented the Corps plan to restore habitat within the Whittier Dam area. The Board has decided that this a project of vital importance to the bird life of our Chapter area and is forming a committee to learn about the Army Corps' plans, requirements, and progress.

We will be closely watching and communicating with the Corps and reporting back to Whittier Area Audubon.

June update: We have learned a bit more about the Dam reconstruction plans and the Biologist's requirements for habitat development for Bell's Vireos and California Gnatcatchers.

ELECTION RESULTS
President
Steve Huber
1st Vice President
Edwin Menendez
2nd Vice President
