

PETALUMA GENERAL PLAN UPDATE

WILDFIRE HAZARDS & RESPONSIBILITY AREAS

Fire Responsibility Areas

- Local Responsibility Area
- State Responsibility Area

Wildfire Hazard Severity Zone

- Very High
- High
- Moderate

Historical Fire Perimeter, Year

Note: Wildfire Hazard Severity Zones are areas of significant fire hazards based on vegetative fuels, terrain, weather, tree crown fire potential, flame length, blowing embers and historic fires. "Hazard" is based on the physical conditions that give a likelihood that an area will burn over a 30 to 50-year period without considering modifications such as fuel reduction efforts.

Local responsibility area fire protection is provided by the Petaluma Fire Department within city limits and designated the Very High Wildfire Hazard Severity Zone. State responsibility area is where the State has financial responsibility for wildland fire protection.

Boundaries

- City Limit
- Urban Growth Boundary
