Music Associate,
Providence United
Methodist Church,
Charlotte,
North Carolina

The David Bashor Memorial Organ Concert Series

Dr. David Bashor was a member of the Providence United Methodist Church Chancel Choir for over thirty years. He also served, for over a decade, as chair of the organ committee. Though many people were involved in the new organ project, David's vision and dedication are largely responsible for the beautiful organ that today graces the Sanctuary. We are grateful for his efforts and honored to name the organ series in his memory.

The Robinson Family Pipe Organ

The Sanctuary of Providence United Methodist Church is home to the Robinson Family Pipe Organ, which is Parkey OrganBuilders op. 14, incorporating the rebuilt Aeolian-Skinner organ (op 1472) originally housed in the Kennedy Center for the Performing Arts in Washington, DC. Removed from the Kennedy Center, it was restored and reinstalled at Providence UMC in 2013.
