Life Cycle of a Plant

This is the lifecycle of a sunflower! Using the key below, colour in the cycle!

Colour the sunflower seeds and the smaller circle on the flower 000
Colour the arrows 001
Colour the soil 010
Colour the leaves and stem, as we as the two plants without a flower 011
Colour the bigger outside circle on the flower 100
Colour the petals on the flower 101
Leave the roots white!
