| 10:30a-11:00a    | Welcome, Overview, & Coffee Talk  
Speaker: Rebecca Wolfkiel, MPP, NASHIA Executive Director |
| 11:00a-12:00p    | Session 1: Treating Movement Disorders in Individuals Living with Acquired Brain Injury  
Speaker: Preeti Raghavan, MD, Director, Center of Excellence for Treatment, Recovery and Rehabilitation, Sheikh Khalifa Stroke Institute  
This presentation will address how changes in muscle composition contribute to the movement disorder, particularly to severe spasticity, muscle stiffness, and contracture, in patients with acquired brain injury and how these changes are reversible with treatment. This talk will focus on innovative mechanisms of recovery after brain injury to increase muscle strength and decrease resistance to movement. Results from current studies will be reviewed and approaches to treatment will be discussed. |
| 12:00p-12:15p    | Break |
| 12:15p-1:15p     | Session 2: Connection, Loneliness, and Finding Meaning  
Speaker: Kate Kerkmans, LCSW, CBIS, President and CEO, Brain Injury Alliance of Colorado  
Loneliness and social isolation are at epidemic levels in the U.S. and long-term health outcomes associated with loneliness are more serious that you may realize. Learn about those outcomes as well as how to create meaningful connections in your life. |
| 1:15p-1:30p      | Break |
| 1:30p-2:30p      | Session 3: Linking Federal Opportunities to State Initiatives  
Moderator: Rebecca Wolfkiel, MPP, NASHIA Executive Director  
Speakers: Maggie Ferguson, MS, CRC, CBIS, Project Director, Iowa Department of Health and Human Services; Rebecca Quinn, Associate Director, Center for Rural Health, University of North Dakota School of Medicine & Health Sciences; Sondra LeClair, Community Services Director, UAA Center for Human Development  
States are often seeking funding to support critical services and new initiatives. There are a number of ways to take advantage of blending federal dollars with local funding to create innovative approaches to projects and service delivery. This session invites a panel of state programs to discuss how they have done this to implement programs and supports for individuals with brain injury. |
| 2:30p-2:45p      | Break |
| 2:45p-3:45p      | Session 4: Post-Secondary Support and Services for Brain Injury  
Speaker: Kate Weeks, MS, Director for Student Disability Support Services, Morgan State University  
This session will review the process for a student to register for accommodations in higher education. Possible accommodations and how they may provide support to students in college will be reviewed. Learn about the ADA and Section 504 as it relates to reasonable accommodations in higher education. |
| 3:45p-4:00p      | Break |
| 4:00p-5:00p      | Session 5: Strategic Story Sharing for Individuals with Brain Injury and for Providers  
Speakers: Amanda Tower, BA, Grant Project Manager and Amanda Baczko, MPH, Director of the Office of Learning and Community Engagement, from Massachusetts Rehabilitation Commission  
Voices of lived experience are crucial for the development of systems and services. Strategic sharing is a framework of storytelling that supports the storyteller and ensures safe and impactful communication. This presentation will share the framework of strategic sharing and resources for implementing the framework in your daily work. |
| 5:00p-5:15p      | Wrap up |
