It’s going to take work to put Albuquerque back to work.
That’s why Democrat Mimi Stewart has three jobs priorities right now...

Priority #1
Make sure that everyone who needs unemployment benefits and other public services can get the help they need.

Priority #2
Keep working to make more jobs available in key industries like wind and solar power.

Priority #3
Increase investments in local small businesses to help them restart and thrive.

“I’m a longtime supporter of Mimi Stewart because she’s always been there when Albuquerque’s economy needed her. We need Mimi’s leadership now more than ever before.”
— Anne Tafoya, former Director of APS Special Education

Our Senator Mimi Stewart has supported a wide range of pro-jobs legislation, including making New Mexico the nation’s leader in wind and solar power (Senate Bill 29, 2020) and the Invest in New Mexico Funds & Businesses Act (Senate Bill 136, 2020).
