

# REAL JULMUST

**Our organic julmust is made without synthetic ingredients and aromas, brewed from scratch by hand – it's a must!**

Julmust, the traditional Swedish Christmas soda, is unique in many ways. From its special taste and history, to its ability to dominate the Swedish soft drink market every December.

Our wide range of backgrounds and insatiable curiosity led us to question the composition and transparency of Julmust – why did all producers buy the same extract, full of synthetic ingredients and aromas? Why wasn't there an organic option on the market, brewed without any shortcuts? And why all the secrecy? We knew we needed to change all that!

We started experimenting with brewing a julmust, using cultural heritage malts, organic fruits, herbs and spices. From all of us to all of you: Our organic, honest and great-tasting version of the everlasting Swedish classic.

Serve **TÖRST REAL JULMUST** in front of a crackling fire, with Jansson's frestelse or simply let it be the star of your Christmas mingle.

## Ingredients:

Carbonated water, cane sugar\*, freshly squeezed lemon juice\*, barley malt\*, lingonberry\*, burnt sugar\*, orange\*, raisins\*, ginger\*, juniper\*, licorice root\*, cinnamon\*, hops\*, nutmeg\*, cardamom\*, cloves\*
