SSILA BUSINESS

Dear Colleagues,

Below, please find Linguistic Society of America registration information followed by our SSILA Annual Meeting sessions. The meeting promises to be engaging and informative; we look forward to seeing you there.

Karen Sue Rolph, Editor, SSILA
THE SOCIETY FOR THE STUDY OF THE INDIGENOUS LANGUAGES OF THE AMERICAS
Annual Meeting, Pittsburgh, Pennsylvania, January 6-9, 2011

Grand Pittsburgh Downtown Hotel
600 Commonwealth Place
Pittsburgh, PA 15222

Plenary Speakers:
- Janet Pierrehumbert (Northwestern University): "Example-based learning and the dynamics of the lexicon."
- Ted Supalla (University of Rochester): "Rethinking the emergence of grammatical structure in signed languages: New evidence from variation and historical change in American Sign Language."

Registration for the Annual Meeting in Pittsburgh

Preregistration closes 20 December 2010 at 11:59 p.m. (EST). Technical support for preregistration will not be available after 5:00 p.m. (EST) on 20 December 2010. Discount preregistration fees will be charged to individuals registering online before 20 December. Onsite fees will be charged to those registering for the meeting after December 20.

Registration Fees can be found online at: https://lsadc.org/whatthis.cfm?ID=REGISTRATION_CATEGORY

As in previous years, members of SSILA will be able to register at the LSA web site and receive LSA member registration rates by entering the SSILA access code: SSILA2011.

http://www.lsadc.org/meetings/registration1.cfm?type=ssm

Reservations at the Grand Pittsburgh Downtown Hotel

Phone: 412-281-0482 x4007 / 1-800-821-1888 x4007
Email: housing@visitpittsburgh.com
https://resweb.passkey.com/Resweb.do?mode=welcome_ei_new&eventID=2942958

LSA has reserved a block of rooms for LSA attendees. Use this link to make reservations at the Grand Pittsburgh Downtown Hotel at the LSA conference rate of $99 per night (single king or double queen).

There will be a $25 surcharge for each additional person in a room. Executive level rooms with additional amenities, including complimentary morning breakfast and afternoon hors d’oeuvres in the Executive Lounge, are available for an additional $25/night.

It is important that SSILA members use this link if reserving a room online, or mention the Linguistic Society of America rate when reserving by phone, in order to take advantage of the special concessions the LSA has negotiated for attendees. These include the advantageous sleeping room rate, complimentary guest room internet for the duration of the meeting, and complimentary access to the hotel’s fitness center.
SSILA Annual Meeting Preliminary Schedule

Thursday, 6 January

• Grammatical explorations of Cuzco-Bolivian Quechua. (4:00 to 7:00 pm) — Susan E. Kalt (Roxbury Community College) Evolution of L1 in the bilingual mind: The case of Cusco-Collao Quechua; Ellen H. Courtney (University of Texas at El Paso) The acquisition of evidentiality, epistemics, and mirativity in Cuzco Quechua; Marilyn S. Manley (Rowan University) Evidentiality, epistemics, and mirativity in Cuzco Quechua; Antje Muntendam (Radboud University Nijmegen) Topic and Focus in Bolivian Quechua; Liliana Sánchez (Rutgers University) A minimal approach to peripheral domains and informational structure in Quechua; Discussion.

• Semantics. (4:00 to 7:00 pm) — Karen Lichtman (University of Illinois) Kinship Terms in Q’anjob’al; Carrie Gillon (Arizona State University) Mass and count in two languages: Innu-aimun vs. Inuttut (Labrador Inuktitut); Tanya Slavin (University of Toronto) How an instrumental suffix can form psych verbs; Christian Koops (Rice University) Cherokee ground phrases; Rosa Vallejos Yopán (University of Oregon) Voice and the polyfunctionality of Kokama –ka; Swintha Danielsen (University of Leipzig) The grammaticalization of adpositions into valency increasing verbal affixes in Arawakan languages.

• Meet and Greet Reception (8:30 to 10:00 pm) — Here is an opportunity to socialize with colleagues and friends.

Friday, 7 January

• Syntax and Semantics. (9:00 am to 12:00 pm) — Ryan Denzer-King (Rutgers, The State University of New Jersey) The Role of Animacy in Blackfoot Subobviative Marking; Luis Oquendo (Universidad del Zulia) The tense and the aspect in the Caribbean languages: Japrería, Yukpa and Ye’ Kwañ; Sidi Facundes (Thammasat University and Universidade Federal do Pará), Brandão Ana Paula (University of Texas at Austin), Angela Chagas (Universidade Federal de Campinas) Verb Classes in Two Arawak Languages. (11:00 am); Melvatha Chee (University of New Mexico) Autonomy and Information Packaging in the Navajo Verb Stem: Polysynthesis & Polysemanics; Indrek Park (Indiana University) Compounding as a syntactic process in Hidatsa; John Boyle (Northeastern Illinois University) Incorporation in Mandan.

• Historical Linguistics. (9:00 am to 12:30 pm) — Ashley Carter (Northeastern Illinois University) Positionals in Mandan: a diachronic analysis; Catherine Rudin (Wayne State College) Phonological and lexical differences between Omaha and Ponca; Justin Spence (University of California, Berkeley) Post-contact dialect convergence: The case of Oregon Athabaskan; Eric Campbell (University of Texas at Austin) The development of causative morphology from motion verbs in Chatino; Catherine Callaghan (Ohio State University) Utian Infixation and First Person Plural Pronouns; Eduardo Ribeiro (University of Chicago) On the inclusion of the Karirí family in the Macro-Jê stock: additional evidence; Pierric Sans (Université Lumiére Lyon 2) Reviewing proposed evidence for a Macro-Jê link for Bésiro (a.k.a. Chiquitano) of Bolivia: The case of nasality.

Annual Business Meeting and Presidential Address (2:00 pm) SSILA President Richard A. Rhodes (University of California, Berkeley) The value of 19th Century Ojibwe sources.

• Philology. (3:00 pm to 3:30 pm) — Patricia A. Shaw (University of British Columbia) The “Nootkian” (Mowachaht/Muchalah) Lexicon of Jewitt 1824.

• Discourse Syntax. (3:30 pm to 5:00 pm) — Marianne Mithun (UC Santa Barbara) Tagging modality: Intermingled epistemic and interactive functions of Mohawk tags; N. Louanna Furbee (University of Missouri, Columbia, and CDIT (Mexican Non-Profit- Centro de Documentación del Idioma Tojolabal), Evidentials and the Analysis of Tojol-ab’al Maya Interviews; Scott AnderBois (University of California, Santa Cruz) Topic and Assertion in Yucatec Maya Attitude Reports.

• Discourse/Diversity. (3:30 to 5:00 pm) — Olga Lovick (First Nations University of Canada) Talking like a Raven: Figurative language in Upper Tanana Athabascan; Tania Villamizar (Universidad de Los Andes) The Visit as Ritual of
Interaction Communicative in the Mancomunidad Timote; Femmigje Admiraal (Universität Leipzig, Institut für Linguistik), Swintha Danielsen (Universität Leipzig, Institut für Linguistik), Franziska Riedel (Universität Leipzig, Institut für Linguistik) The Baure language group: cultural and linguistic diversity.

Saturday, 8 January

• Phonology. (9:00 am to 11:30 am) — Andrea L. Berez (University of California, Santa Barbara) Two Ahtna intonation unit cues: Syllable pacing and pitch reset; Siri Tuttle (University of Alaska Fairbanks) Word stress, rhythm and prominence in Minto Athabascan songs; Linda Lanz (Unaffiliated) VOT in Inupiaq velar and uvular stops; Christian DiCanio (Université Lyon 2, Dynamique du Langage) The Phonetics of Glottalized Consonants in Ixcatec; Laura Tejada (University of Southern California) Floating and Spreading Tones in Sierra Juárez Zapotec.

• Syntax. (9:00 am to 11:30 am) — George Aaron Broadwell (University at Albany, State University of New York) Three kinds of compound verb in Copala Triqui; Amy Dahlstrom (University of Chicago) Argument structure of Algonquian Al+O verbs: thematic roles and morphosyntax; Alan C. L. Yu (University of Chicago), Ryan Bochnak (University of Chicago), Tim Grinsell (University of Chicago), Christina Weaver (University of Chicago) Some puzzles in pronominal agreement in Washo copular construction; Paul Kroeber (Indiana University) Pronominal clitics in Hanis and Miluk Coosan; Lucia Golluscio (Universidad de Buenos Aires and Consejo Nacional de Investigaciones Científicas y Técnicas, Argentina) Converbs in Vilela.

• Haas Award Lecture. (11:30 am to 12:00 pm) — Lynda Boudreault (University of Texas at Austin) Serial Verb Constructions in Sierra Popoluca (Mixe-Zoquean).

• Symposium: Minority Language Contact. (2:00 pm to 5:00 pm) — Opening statement; Lev Michael (University of California, Berkeley) The phonological consequences of long-term language contact in the Andean-Amazonian transitional zone; Claire Bowern (Yale University) Loans in the basic vocabulary of PamaNyungan languages; Eduardo Rivail Ribeiro (University of Chicago) Mapping Tupí loans in Macro-Jê languages; Richard A. Rhodes (University of California, Berkeley) Cree-Ojibwe language contact; Break; Nicholas J. Enfield (Max Planck Institute - NL) Nearly symmetrical language contact in an upland basin of central Laos; Patience Epps (University of Texas at Austin) Language contact among foragers of the northwest Amazon; Ed Vajda (Western Washington University) Adstrate influence between Siberian languages under Russian rule; Closing statement.

• Morphology and Morphophonemics. (2:00 pm to 5:00 pm) — Marcia Haag (University of Oklahoma) Morphological class as primary arbiter of word formation: Choctaw and Cherokee; Carmen Jany (California State University, San Bernardino) Nominal compounding as a productive word-formation process in Chuxñabán Mixe; Marie-Lucie Tarpent (Mount St Vincent University) Tsimshianic L-plurals and the structure of Penutian roots; Thomas Wier (University of Chicago) Tonkawa prosodic morphology and prosodic rule blocks; Gabriela Perez Baez (Smithsonian Institution) Morphophonemics of the Potential Aspect in Juchitán Zapotec; Analía Gutierrez (University of British Columbia) Vowel-consonant metathesis in Nivaclé (Matacoan-Mataguayan).

Sunday, 9 January

• Syntax. (9:00 am to 11:30 am) — Chris Rogers (University of Utah) Guazacapan Verb Classes; Michael Barrie (University of Ottawa) Configurationality in Onondaga; Michael Barrie (University of Ottawa), Gabriela Alboiu (York University) Aspect, Mood (and Tense) in Onondaga: A Feature Geometric Approach; Kirill Shklovsky (Massachusetts Institute of Technology) Tseltal Unnegatives; Aaron Sonnenschein (California State University, Los Angeles) Giving in Colonial Valley Zapotec.

• Nominals and Coordination. (9:00 am to 11:30 am) — Erica Sosa (Northeastern Illinois University) Mandan Nominal Structure: Expanding the DP; George Wilmes (Independent scholar) The Structure of Relative Clauses in Mandan; Anne Schwarz (James Cook University) "Possession" in the Language of the Secoya (West Tucanoan); Anna Berge (Alaska Native Language Center, University of Alaska Fairbanks) A Comparison of Conjunctive Coordination in Inuktitut and Aleut; Honore Watanabe (ILCAA, Tokyo University of Foreign Studies) Coordinate Constructions and Coordinators in Sliammon Salish.
CORRESPONDENCE

The Smithsonian’s Department of Anthropology conducted six staff video interviews, one of which was of linguist Gabriela Perez-Baez. Dr. Perez-Baez talks about how she got into the field of linguists, her education, and how she is compiling a Zapotec dictionary. You can view the interviews at: http://anthropology.si.edu/video_interviews.html

Dr. Perez-Baez’s interview is the fifth of the six posted online.

Dear Colleagues,

I am currently helping on a bibliographic update of Indigenous peoples of Panama. Does anybody know if Revista América Indígena: órgano oficial del Instituto Indigenista Interamericano is available through another organization or name online, or if there is an index available?

Thanks in advance,
Milton Ricardo Machuca, Ph.D.
Pitzer College

CALL FOR CORRESPONDENCE

Dear Colleagues,

If you want to hear from us, we want to hear from you. If your department or group has a website, we want to know about your most current programs and publications. Please take the extra moment to keep us informed. Regional groups are encouraged to send us information about your activities.

Please send your editorials and information to the editor at: karenrolph at hotmail dot com.

Many thanks from the Editor

NEWS AND ANNOUNCEMENTS

We are very pleased to announce the first of a series of new resource sites, “Tools for Linguistic Anthropologists”, a blog and archive for the latest information about audio, video, and other tools we use in our field:

http://kit.linguisticanthropology.org/about/

The site currently includes articles by Mark Sicoli and Robin Shoaps and links to useful websites from Bartek Plichta, Andy Kovolos, and the American Folklife Center. More articles and suggestions for links are very welcome. We are particularly interested in pieces talking about how you use particular equipment in the field.

See Mark Sicoli’s piece on Video Recording for an example of what we have on offer.
http://kit.linguisticanthropology.org/2010/10/28/video-recording/

We will be posting a permanent link to this site on the official SLA Website under the Resource tab shortly.

Congratulations and many thanks to our Digital Content Editor, Leila Monaghan, and our Webmaster, Alex Enkerli, for all the work they did to design this terrific site and get it running. Thanks also to J. Dickinson, Robin Shoaps, Mark Sicoli and Debra Spitulnik for their input. We hope that SLA members and their students (especially those preparing grant applications and purchases for their first major fieldwork project) will not only find this site useful but will also contribute to updates over time.

Best to all,
Kit Woolard
President, SLA

XXXIII Congreso Internacional de Americanistas
Congreso Internacional (Italia - Perugia) 2-9 de mayo de 2011

Call for Sessions Deadline: October 31, 2010
Call for Papers Deadline: December 15, 2010

El XXXIII Congreso Internacional será el ámbito en que alrededor de 200 investigadores de las disciplinas americanistas se reunirán para confrontarse, hacer el punto de la situación y trabajar juntos sobre los escenarios en transformación que acontecen en las Américas pero que afectan a todo el mundo.

El congreso se articulará en 20 sesiones, que abarcarán temas muy diferentes, entre ellos, temáticas históricas, antropológicas, arqueológicas, artísticas, etnomusicales, literarias, políticas y sociales de gran interés no sólo para los expertos en materia, sino también para quienes, en la construcción de una sociedad cada vez más multicultural, no quieren quedarse inertes dentro de un conocimiento superficial sobre la diversidad que representa el “Otro”.

El interés hacia el “Otro” desde siempre estimula el hombre al conocimiento y al acercamiento a las diferentes realidades humanas. La Americanística tiene como objeto privilegiado de estudio a la civilización americana: con este término indicamos las culturas que se desarrollaron en el continente americano antes de la llegada de Colón, algunas de las cuales todavía sobreviven intentando encontrar un espacio propio
dentro de un mundo siempre más orientado hacia el modelo llamado “occidental.”

Guidelines and Sessions of the Congress
El Congreso, organizado por el Centro Studi Americanistici “Circolo Amerindiano” Onlus, se desarrollará en Perugia (Italia), del 2 al 9 de mayo de 2011.

La organización se reserva la facultad de prolongar la duración del Congreso más allá de las fechas establecidas y de designar, además de la de Perugia, otras sedes. Las lenguas oficiales del Congreso son: español, francés, inglés, italiano, portugués y todas las lenguas amerindias. Ulteriores sesiones, aparte de aquellas ya indicadas pueden ser propuestas a la Secretaría del Congreso hasta el 31 de octubre de 2010. La aceptación de nuevas sesiones queda bajo la tutela del Comité Científico del Congreso. Cada sesión comprenderá de 3 a 6 ponencias. Los trabajos tienen que ser inéditos y deben ser presentados personalmente Sólo se puede presentar un trabajo por ponente. La duración máxima de cada ponencia es de 20 minutos, a menos de que la organización comunique un cambio. Todos los gastos de viaje, alojamiento y comidas están a cargo de los participantes.

Participation in the International Congress of Americanists
La asistencia al congreso es libre y gratuita. Sin embargo es necesaria la inscripción al mismo para poder presentar ponencias o para recibir las actas o el certificado de asistencia. El plazo límite para la inscripción al Congreso como ponente es el 15 de enero de 2011.

Para participar como ponente es necesario inscribirse enviando el módulo relativo, que se presentará en este sitio a partir del 15 de diciembre de 2010, junto con la lista definitiva de las sesiones propuestas. El módulo será válido sólo con los datos completos, incluyendo el abstracto de mínimo 400 y máximo 800 caracteres y el curriculum vitae detallado, por adjuntar. El módulo será enviado al coordinador de la sesión a la que se desea participar y, contemporáneamente, a la secretaría del Congreso. El coordinador puede pedir una documentación integrativa, si lo considera oportuno.

La inscripción al Congreso como ponente no es automática; está subordinada a la aceptación del coordinador. Antes del 1 de febrero de 2011 los coordinadores tendrán que comunicar la aceptación o menos de la propuesta a aquellos que la hayan enviado. Una vez que el trabajo haya sido aceptado por el coordinador, el ponente tendrá que efectuar el pago de la inscripción a 7 días de la aceptación, para no ser excluido del programa. Rogamos de avisar a la secretaría de organización del Congreso (convegno@amerindiano.org) los datos del depósito.

Para los ponentes socios, en regla con las cuotas sociales, del Centro Studi Americanistici “Circolo Amerindiano” Onlus durante el año 2010, la cuota se reducirá de un 50%.

Program
El programa definitivo y los horarios del Congreso se publicarán en el sitio www.amerindiano.org a partir del 1 de abril de 2011.

Hotel Reservations
Los relatores podrán reservar el hotel consultando la lista de hoteles convencionados con sus respectivos precios, disponible en el sitio www.amerindiano.org a partir del 1 de marzo de 2011.

The 1st Cambridge International Conference on Language Endangerment: Language documentation, pedagogy, and revitalization

Call for Papers Deadline: abstracts due 26, November, 2010
On-line Registration opens 1, January 2011

Submission Guidelines
We welcome abstracts (200 words maximum) for papers (20 minute paper + 10 minute discussion) that include, among other topics, discussion of interdisciplinary approaches and innovative techniques for collecting raw material, presenting metadata, and archiving language materials; teaching endangered languages to both children and adults; and revitalizing language use in homes, schools, and communities.

This conference will bring together academics, students, and members of indigenous communities from around the world to discuss current theories, methodologies, and practices of language documentation, pedagogy, and revitalization.

Most of the world's languages have diminishing numbers of speakers and are on the brink of falling silent. Currently around the globe, scholars are collaborating with members of indigenous communities to document and describe these endangered languages and cultures. Mindful that their work will be used by future speech communities to learn, teach, and revitalize their languages, scholars face new challenges in the way they gather materials and in the way they present their findings. This conference will discuss current efforts to record, collect, and archive endangered languages in writing, sound, and video that will support future language learners and speakers.

Documentation is of critical and immediate importance and is often considered one of the main tasks of the field linguist. Future revitalization efforts may succeed or fail on the basis of
the quality and range of material gathered, and yet the process may be rapid and dependent on conscious decisions by linguists and language workers who may be analyzing the form of a language for the first time and codifying it in dictionaries and grammars. Written documentation of course not only aids the process of standardization but also serves important needs and functions within a community in support of language maintenance such as providing the basis for pedagogical materials in schools and helping to create a community's sense of identity. However, indigenous communities and scholars of endangered languages are beginning to realise that the rapid and often artificial nature of this process can have negative effects - politically, linguistically, and culturally - which feed into issues relating to education and, ultimately, language revitalization.

In addition to the opportunity of sharing experiences with a network of linguists, it is hoped that participants will leave the conference with a new understanding of the topic, innovative ideas for documentation and pedagogy within their own linguistic contexts, and a renewed vigour to implement what they have learnt in their own language situations.

Due by 26, November 2010, send abstracts to:

Dr. Mari Jones (mcj11 at cam dot ac dot uk) and Dr. Sarah Ogilvie (svo21 at cam dot ac dot uk).

http://www.crassh.cam.ac.uk/events/1332/

Ogilvie (svo21 at cam dot ac dot uk).

Dr. Mari Jones (mcj11 at cam dot ac dot uk) and Dr. Sarah Due by 26, November 2010, send abstracts to:

They have learnt in their own language situations.

Linguistic contexts, and a renewed vigour to implement what they have learnt in their own language situations.

Dr. Mari Jones (mcj11 at cam dot ac dot uk) and Dr. Sarah Ogilvie (svo21 at cam dot ac dot uk).

http://www.crassh.cam.ac.uk/events/1332/

Workshop Description

The workshop is organised by the project "Calcul de la référence nominale : langues avec et sans articles of the Fédération Typologie et Universaux du Langage" (CNRS RRE 2559) which brings together researchers in L1 and L2 language acquisition, sign language linguistics and comparative syntax and semantics.

We encourage submissions exploring the linguistic means used to establish the reference of a nominal expression, focusing on the following questions:

▶ What is the role of definite and indefinite articles in establishing the reference of the DP?
▶ How are the effects of definite and indefinite articles achieved in languages that lack those articles?

We invite submissions for 25-minute presentations (plus ten-minute discussions). Abstracts should be at most 2 pages in length (including examples and references) written in French or English. Abstracts should be sent by e-mail (plain ASCII, rtf, ps or pdf) to: pcapredo //AT// univ-paris8.fr

Please write the (first) author's name plus the word 'abstract' in the subject line of your message (e.g., 'Dupont abstract'), and include author name(s), affiliation, contact information, and the title of the abstract in the body of the email. For co-authored papers indicate the email address that we should use for correspondence.

Conference on Endangered Languages and Cultures of Native America

Center for American Indian Languages

On April 22-23, 2011, University of Utah, Salt Lake City, Utah.

Call for Papers Abstract Deadline: January 15, 2011

Workshop Proposals Deadline: December 15, 2010

Sponsors: Smithsonian Institution, College of Humanities, and CAIL (Center for American Indian Languages, University of Utah).

Call for papers: Presentations are invited on any aspect of American Indian languages, including language documentation and description; language revitalization; historical linguistics; theoretical implications of minority languages; anthropological linguistics; sociolinguistics; text collection and analysis; phonetics and phonology, morphology, syntax, and semantics. Native American participants are especially invited and encouraged to attend.

Abstracts are invited for: (a) 20-minute papers or (b) posters. Please indicate your preference with your abstract. Papers and posters can be presented in English or Spanish.

Deadline: for abstracts Jan. 15, 2011. The Program Committee will announce results about Feb. 5.

Abstract guidelines: Abstracts, no longer than one page including references, should include paper title, name of author(s), affiliation. Abstracts will be submitted on line through the LINGUIST List's conference support facility. To submit an abstract, please go to:
Call for Workshop Proposals: Proposals are also encouraged for special workshops in language revitalization, such as materials development, orthographic issues. Proposals for workshops or discussion sessions should specify which person or persons will lead the discussion, and what the proposed topic/question for discussion is.

Teacher Workshop: A concurrent workshop entitled Teaching beginning students how to speak their ancestral language will be held on Friday April, 22nd organized by Marianna DiPaolo of the University of Utah. Participation for this workshop requires pre-registration; available on the conference website cail.utah.edu.

Special Session on Community Language Programs: A special concurrent session concentrating on revitalization programs, language classes, technology, orthography, and other community issues will be held on Saturday April 23rd. Authors should indicate if their preference is to present their paper at this session or the main session.

Registration: $70 for conference participants (students $35) (tribal elders, no cost). This is used to cover the cost of conference rooms, refreshments and dinner on Friday evening.

There is no pre-registration; registration is in person at the conference, payable by Cash or Check (sorry, no credit card facilities).

Accommodations: University Guest House - 100 yards from the meeting venue (Officers' Club) and from CAIL. To book accommodations, contact the Guest House directly (mention CELCNA):

University Guest House University of Utah
110 South Fort Douglas Blvd.
Salt Lake City, Utah 84113-5036
Toll free: 1-888-416-4075 (or 801-587-1000), Fax 801-587-1001
Website www.guesthouse.utah.edu
(please make reservations early; rooms will be held for the conference only until early March).

Additional information: Contact Jennifer Mitchell: cail.utah@gmail.com. If you need information not easily arranged via e-mail, please call: Tel. 801-587-0720 during business hours.

Symposium on Teaching and Learning Indigenous Languages of Latin America
October 30 - November 2, 2011
Kellogg Institute for International Studies
University of Notre Dame
Call for Proposals Deadline: December 6, 2010

The Association for Teaching and Learning Indigenous Languages of Latin America (ATLILLA) and the Kellogg Institute for International Studies at the University of Notre Dame invite proposals for panels, individual papers, round table discussions, interactive workshops, poster sessions, and technological tools showcases to be presented at the second Symposium on Teaching and Learning Indigenous Languages of Latin America (STLILLA-2011). Proceedings of the Symposium will be published.

The deadline for receipt of proposals is Monday, December 6, 2010. Proposals will be accepted only through the online submission system located at:

http://kellogg.nd.edu/projects/quechua/STLILLA/proposalform.shtml

Successful proposals will clearly indicate the relationship of the presentation to the core symposium themes. Presentations should provide an opportunity for symposium participants to engage with some of the challenging and fundamental questions at the intersection of research and the teaching and learning of Latin American indigenous languages. Priority will be given to proposals that address one or more of the following topics:

- Best practices, methodologies, and strategies in indigenous languages pedagogy
- The interplay of research, theory, and practice in teaching and learning indigenous languages
- Languages as vehicles to cultures and the world of living experience
- Language revitalization and documentation
- Distance learning / online courses
- Issues of dialectology and standardization in language instruction
- Impact of language attitudes and ideologies on teaching and learning indigenous languages
- Intellectual, cultural, and political role of indigenous languages in Latin America
- Indigenous languages, cultures, and identity
- Connecting, celebrating and maintaining traditions through teaching
- Assessment and evaluation of indigenous language learning
- Innovative technologies for teaching and learning indigenous languages and cultures
- Effects of language policy and planning on the teaching and learning of indigenous languages
- Language, literacy, and cultural practices
- Issues of bi-literacy and bilingual education in Latin America
- Music/musicology and the teaching and learning of indigenous languages
- Sociolinguistics, applied linguistics, and pragmatics in the teaching and learning of indigenous languages
- Programmatic structure for Less Commonly Taught Language (LCTL) instruction
General Proposal Guidelines
Proposals and presentations are welcome in English, Spanish or Portuguese. All proposals, regardless of type, must include the following:

- Name and title of the author/organizer, institutional affiliation, and contact information
- Title of the proposed presentation
- Abstract (300 words)
- Indicate any equipment needs for your presentation

Proposals for panels and round table discussions must also include:

- Name, title, and institutional affiliation for each additional participant
- Role or proposed topic to be covered by each additional participant (150 words)
- Indication that all proposed participants have been contacted and have agreed to participate

Types of Presentation
Presentations may be made in a number of formats, as listed below. You must indicate the proposed format in your submission. The Conference Committee may negotiate the proposed delivery format with the speaker.

Panel Presentations (75 minutes)
Individuals or institutional sponsors may propose to organize a panel of presentations on a related subject, with each presenter offering a perspective on the topic. Panels may include a chair/moderator, three or four presenters, and a discussant. Depending on the number of panelists, each presenter will be allotted 15-20 minutes to deliver his/her paper, allowing 15 minutes at the end of the panel for commentary by a discussant and/or questions. Panel proposals must include information on all proposed participants and must indicate that they have been contacted and agree to participate. The individual submitting the proposal will be the sole contact person regarding the panel.

Individual Papers (15-20 minutes)
Individual paper proposals provide an opportunity to present original contributions to the research, theory, and practice of indigenous language teaching and learning. Submissions should demonstrate an awareness of relevant literature, and clearly indicate the importance of the proposed topic to conference themes. Upon acceptance, individual papers will be organized into panels of three or four by subject. As described above, depending on the number of participants on a given panel, individual presenters will have 15-20 minutes to deliver the content of their individual papers.

Round Table Discussions (45 minutes)
Individuals or institutional sponsors may propose to organize a round table discussion on a topic related to symposium themes. Like panels, round table discussions are coordinated by an organizer/moderator, and offer different perspectives on the proposed topic. However, rather than focusing on the presentation of individual papers, presentation time for each discussant is limited to 5-7 minutes. The majority of the session is devoted to dialogue between the discussants and the audience. In the best round tables, the speakers are aware of each other's work and views, and they refute or support those views in their own talks. There's real interchange, as well as the chance to go in-depth very quickly. They are time-efficient and encourage audience participation in the discussion. Proposals for round table discussions must include information on all proposed discussants and must indicate that they have been contacted and agree to participate. The individual submitting the proposal will be the sole contact person regarding the round table discussion.

Interactive Workshops (45 minutes)
Presenters spend a short amount of time on the delivery of the pedagogical concept, theory or model, and the majority of the session is devoted to direct, hands-on participation by the attendees. Workshops are organized to address a theme, discussion is informal and interactive, and papers are not presented.

Poster Sessions / Technological Tools Showcases
Poster and technological tool presenters will be allocated a time slot within the main symposium venue to showcase their pedagogical and technological tool or model through a poster exhibition or a technological tool showcase. Symposium participants will be able to view displays at their leisure during session breaks. Poster/technological tool proposals should briefly describe not only the subject matter to be presented, but also how the material will be presented visually.

Proposals will only be accepted through the online submission system and the deadline is December 6, 2010. Each proposal will be reviewed by the Proposal Review Committee.

For more information and to submit proposals go to:
http://kellogg.nd.edu/projects/quechua/STLILLA/call.shtml

The first International Conference on Indigenous Place Names took place in September of 2010 at Sámi University College in Guovdageaidnu Norway. We are waiting for a report from the working group.

New Language Encountered by Linguists- Koro

Excerpt from the New York Times: Science
By John Noble Wilford
Published: October 11, 2010
Two years ago, a team of linguists plunged into the remote hill country of northeastern India to study little-known languages, many of them unwritten and in danger of falling out of use.

At a rushing mountain river, the linguists crossed on a bamboo raft and entered the tiny village of Kichang (Arunachal Pradesh). They expected to hear the people speaking Aka, a fairly common tongue in that district. Instead, they heard a language, the linguists said, that sounded as different from Aka as English does from Japanese.

After further investigation, leaders of the research announced last week the discovery of a “hidden” language, known locally as Koro, completely new to the world outside these rural communities. While the number of spoken languages continues to decline, at least one new one has been added to the inventory, though Koro too is on the brink of extinction.

“We noticed it instantly” as a distinct and unfamiliar language, said Gregory Anderson, director of the Living Tongues Institute for Endangered Languages in Salem, Ore. Dr. Anderson and K. David Harrison, a linguist at Swarthmore College, were leaders of the expedition, part of the Enduring Voices Project of the National Geographic Society. Another member of the group was Ganash Murmu, a linguist at Ranchi University in India. A scientific paper will be published by the journal Indian Linguistics.

When the three researchers reached Kichang, they went door to door asking people to speak their native tongue — not a strenuous undertaking in a village of only four bamboo houses set on stilts. The people live by raising pigs and growing oranges, rice and barley. They share a subsistence economy and a culture with others in the region who speak Aka, or Miji, another somewhat common language.

On the veranda at one house, the linguists heard a young woman named Kachim telling her life story in Koro. She was sold as a child bride, was unhappy in her adopted village and had to overcome hardships before eventually making peace with her new life. Listening, the researchers at first suspected Koro to be a dialect of Aka, but its words, syntax and sounds were entirely different. Few words in Koro were the same as in Aka: mountain in Aka is “phu,” but “nggo” in Koro; pig in Aka is “vo,” but in Koro “lele.” The two languages share only 9 percent of their vocabulary.

In “The Last Speakers: The Quest to Save the World’s Most Endangered Languages,” published last month by National Geographic Books, Dr. Harrison noted that Koro speakers “are thoroughly mixed in with other local peoples and number perhaps no more than 800.”

By contrast, the Aka people number about 10,000 living in close relations with Koro speakers in a district of the state of Arunachal Pradesh, where at least 120 languages are spoken. Dr. Anderson said the coexistence of separate languages between two integrated groups that do not acknowledge an ethnic difference between them is highly unusual.

As Dr. Harrison and Dr. Anderson expanded their research, comparing Koro with several hundred languages, they determined that it belonged to the Tibeto-Burman language family, which includes 400 tongues related to widely used Tibetan and Burmese. But Koro had never been recognized in any surveys of the approximately 150 languages spoken in India.

American Indian tribes across the U.S. are working to revive their lost languages

By Patricia Cohen on October 4, 2010
Excerpted from The New York Times

The Shinnecock and Unkechaug tribes on New York’s Long Island have not spoken their native tongues in more than 200 years.

But now, the two Native American nations and Stony Brook University are trying to revive the tribes’ lost languages, using yellowed documents like a vocabulary list that Thomas Jefferson wrote during a visit in 1791.

Chief Harry Wallace, the elected leader of the Unkechaug Nation, says that for tribal members, knowing the language is an integral part of understanding their own culture, past and present.

The New York effort is part of a wave of language reclamation projects that have been undertaken by Native Americans in recent years. For many tribes, language is the cultural glue that holds a community together, linking generations and preserving a heritage and values. As one official involved in the effort said, language is “the DNA of a culture.”

In the 1870s, the federal government set up boarding schools to assimilate Native American children, who were often punished for speaking Indian languages. That came on the heels of the Indian Removal Act of 1830, which required Indian tribes to leave their ancestral lands and relocate west of the Mississippi River, eventually to reservations. When older generations of speakers died, there were no new speakers to keep the languages going.

"First we have to figure out what the language looked like," using primary sources: remembered prayers, greetings, sayings, and word lists like the one Jefferson created, he says. "Then we'll look at languages that are much better documented . . . short word lists to see what the differences and what the equivalencies are, and we'll use that to reconstruct what the Long Island languages probably looked like."

Daryl Baldwin is working to revive the dormant language of the Miami Nation in the Midwest. He taught himself Myaamia
entirely through old documents like Jefferson's, and has taught his children to speak it fluently. He now directs the Myaamia Project at Miami University in Oxford, Ohio, a joint effort with the Miami tribe.

Mary Tippmann, 23, started learning Myaamia at age 6 from her grandmother. But to become more fluent, she studied at Miami University, where Baldwin's program is based. "It's helped me to get a better understanding of my heritage," says Tippmann. "It's one thing when you read about it; it's another thing when you're actually living it."

Farther east, Stephanie Fielding, a member of the Connecticut Mohegans, has devoted her life to bringing her tribe's language back to life and is compiling a dictionary and grammar book.

The task is particularly difficult for the Shinnecock and Unkechaug in New York because few records exist. But their languages belong to a family of eastern Algonquian languages, some of which have both dictionaries and native speakers, which the team can mine for missing words and phrases, and for grammatical structure.

The Massachusett language, for example, which is also undergoing reclamation, will be an important resource for the New York project because it is well documented, with dictionaries and Bible translations.

"When we have an idea of what the language should sound like, we'll then introduce it to people in the community," Hoberman says. He adds that approximating the sound of the lost languages was possible because the dictionaries were transcribed into English.

To view the vocabulary compilation handwritten by Thomas Jefferson during his 1791 visit to the Unkechaug tribe in New York, please go to:

The document contains terms for: anatomical parts, common animals, natural resources, kinship, verbs, and numbers. It is in the collection of the American Philosophical Society' Library. Jefferson's notes begin:

"Unquachogs. About 20 souls(.) They constitute the Pußpatok (Poosepatuck) settlement in the town of Brookhaven S. side of Long Island. The language they speak is a dialect differing a little from the Indians settled near South Hampton called Shinicocks and also from those of Montock called Montocks. The three tribes can barely understand each other."

Back from the brink: Learning the Yurok language

By Kelley Atherton on October 16, 2010
The Triplicate, Crescent City California

Del Norte High School (DNHS) students study language that was once nearly extinct. A class of 22 high school students is learning how to speak a language that nearly went extinct. It's estimated there are about 10 fluent speakers of Yurok, the native language of the tribe.

This is the first year the language is being taught at Del Norte High School. “For years, we have been trying to get a class at Del Norte High School,” said the instructor, Barbara McQuillen. Jim McQuillen, education director for the Yurok Tribe and brother to Barbara, used the words “historical” and “monumental” to describe the introduction of this class to DNHS.

Tribe Awarded Grant to Train Middle School Language Teacher

Published October 12, 2010, Staff report
Taken from: Indian Country Today

The Lower Elwha Klallam Tribe received confirmation Sept. 23 that the Klallam Language Program was awarded a $483,744 three-year language grant. Out of 387 other applicants, only eight grants were awarded. Part of the funding will be used to train an apprentice to become tribal/state certified middle school Klallam language teacher.

“The goal of this grant will be to strengthen and broaden our community of Klallam language speakers by transcribing recorded stories; developing lessons from these stories, and training a middle school Klallam language teacher.” said Program Manager Jamie Valadez. “This grant will also create job opportunities for tribal artists, as the stories will be illustrated and published.”

Currently, there is a state/tribal credited Klallam language class taught at Port Angeles High School. The award-winning instructor, Valadez teaches the class. The class is open to all students, and has been offered there since 1998. The curriculum and materials for this class were developed and paid through previous Administration for Native Americans grants.

This is the sixth ANA grant the tribe has received since 1995. Classes have been taught at the Lower Elwha Head Start, tribal center elementary after-school program, the Lower Elwha Head Start, in the Port Angeles High School, and a weekly community language class at the Lower Elwha Child Care.
The proof that this program has been successful is in the fact that the tribe has been awarded an ANA language grant six times,” said Tribal Chairwoman Frances Charles. “Some of the teachers were preschool students at the Lower Elwha Head Start. Our goal has always been to revive and restore the Klallam Language, and we’re doing that.”

“Outreach to both Jamestown and Port Gamble tribes has also been a goal to help revitalize the Klallam language in their communities,” Valadez said. “We’ve been doing this by revitalizing songs, ceremonial speeches, having classes and prayers for community events and protocol speeches at the canoe journeys celebrations.”

“The continued training of new language teachers is fulfilling the dreams of our elders by revitalizing a language on the brink of extinction,” said language teacher Wendy Sampson.

The Lower Elwha Klallam Tribe resides in the Lower Elwha River Valley and adjacent bluffs on the north coast of the Olympic Peninsula just west of Port Angeles, Wash. The original land base was acquired by the United States in trust for the tribe in 1935-36 and these lands were proclaimed as the Lower Elwha Reservation in 1968. Today, tribal lands include about 1,000 acres of land on and near the Elwha River.

UCLA is Trying out Indigenous Languages

By Esmeralda Bermudez on October 11, 2010
The Los Angeles Times

At UCLA and other schools, some students are forgoing French, Spanish and Chinese to try indigenous Latin American languages such as Zapotec, Mixtec and Quechua. Some leap in for the adventure. Others want to get closer to their roots.

RECENT PUBLICATIONS

Global Language Endangerment and Local Significance

The Last Speakers: The Quest to Save the World’s Most Endangered Languages, by K. David Harrison

K.David Harrison, who travels broadly visiting remote peoples, is a linguist at Swarthmore College. In his new book, Harrison points out that indifference and lack of understanding about local knowledge are some reasons that indigenous languages are endangered. Harrison explains why local languages matter, describes “landscape awareness” and what can be done to protect endangered languages. Jared Diamond and Crystal have commented on the book. Theirs and other comments can be found online at various booksellers.

The Influence of Language on Perception & Thought

Through the Language Glass: Why the World Looks Different in Other Languages, by Guy Deutscher

This work, said to be both erudite and entertaining is authored by linguist Guy Deutscher. Here he re-engages with the idea the culture and language are coupled, making the point that language reflects culture and perception in ways that are profound. Viewed similarly to the Sapir-Whorf Hypothesis, color-use consciousness is discussed, comparing, for instance, blues and greens. The case is made that language may even affect character, connected as language is to our thoughts. Harrison argues for preserving linguistic diversity.

University of Utah: Job Announcement

General Linguistics; Language Documentation: Associate Professor, University of Utah, UT, USA
Employer: University of Utah, Department of Linguistics
http://www.linguistics.utah.edu
Job Location: Utah, USA Rank or Title: Associate Professor

The Department of Linguistics at the University of Utah invites applications for a tenured position at the rank of Associate Professor to begin July 1, 2011, pending budgetary approval. Candidates must hold an earned doctorate in Linguistics and show a strong record of sustained research and departmental citizenship.

While the area of primary focus is open, the successful
applicant must have a theoretical perspective on data drawn from an empirical domain including the languages of the peoples indigenous to the Americas, have interests that mesh well with those of the present faculty of the department, college, and university, and contribute actively to the success of the department's research, teaching, service, and outreach missions. Duties of faculty members include sustaining a high-quality research program, mentoring graduate and undergraduate student-scholars, teaching courses which are part of the departmental curriculum, and providing departmental and/or university service.

In addition to the departmental role, the successful applicant will also be appointed as Director of the Center for American Indian Languages (CAIL). One of the primary duties of the appointee is to bring a vision for CAIL's future that builds on, enhances, and augments its current strengths and ongoing successes, and which integrates the activities of CAIL into the larger university community, while continuing and expanding its role in the community. Experience in administration, collaborative outreach, and fund-raising, as well as ability to support and facilitate varying research perspectives, will be considered.

Salary is competitive, and commensurate with abilities and experience. The University of Utah offers a generous benefits package and research support. Review of applicants will begin on November 15, 2010 and continue until the position is filled. A letter of application, a CV, and the names of three references should be sent to the address below. Out of courtesy to applicants and referees, reference letters will be required only at a later stage of the process.

The University of Utah is fully committed to affirmative action and to its policies of nondiscrimination and equal opportunity in all programs, activities, and employment. Employment decisions are made without regard to race, color, national origin, sex, age, status as a person with a disability, religion, sexual orientation, gender identity or expression, and status as a protected veteran. The University seeks to provide equal access for people with disabilities. Reasonable prior notice is needed to arrange accommodations. Evidence of practices not consistent with these policies should be reported to: Director, Office of Equal Opportunity and Affirmative Action, (801) 581-5365 (V/TDD).

Please refer to our website at http://www.hr.utah.edu/oeo/access/ for more information.

**Application Deadline:** 15-Nov-2010

**Application Address:** Edward Rubin, Chair
Department of Linguistics
255 South Central Campus Drive, Ste. #2300
Salt Lake City, UT 84112 USA
Contact Information: Shantel de Arraiz
Phone: 801-585-9785 Fax: 801-585-7351

### Dissertation Abstracts

**Complementation in Chol (Mayan): A theory of split ergativity**
By Jessica Coon
Dissertation Advisor: Norvin Richards

Massachusetts Institute of Technology, Department of Linguistics and Philosophy

The central claim of this dissertation is that aspect-based split ergativity does not mark a split in how Case is assigned, but rather, a split in sentence structure. Specifically, I argue that the contexts in which we find the appearance of a nonergative pattern in an otherwise ergative language - namely, the nonperfective aspects - involve an intransitive aspectual matrix verb and a subordinated lexical verb. In other words, the nonperfective forms show a disassociation between the syntactic predicate and the stem carrying the lexical verb stem. This proposal builds on the proposal of Basque split ergativity in Laka (2006), and extends it to other languages. I begin with an analysis of split person marking patterns in Chol, a Mayan language of southern Mexico. I argue that the appearance of split ergativity in the language follows naturally from the fact that the progressive and the imperfective morphemes are verbs, while the perfective morpheme is not. Ergative-patterning perfective constructions are thus monoclusal, while progressives and imperfectives involve an aspectual matrix verb and a nominalized embedded clause. The fact that the nonperfective morphemes are verbs, combined with independent properties of Chol grammar, results in the appearance of a split. Next, after focusing on Chol, I survey aspect splits in a variety of unrelated languages and offer an explanation for the following universal: in a language with an aspectual split, the perfective aspect will always retain an ergative pattern (Dixon, 1979). Following Laka's (2006) proposal for Basque, I suggest that the cross-linguistic tendency for imperfective aspects to pattern with locative constructions is responsible for the biclausality which causes the appearance of a nonergative pattern. Building on Demirdache and Uribe-Etxebarria's (2000) prepositional account of spatiotemporal relations, I propose that the perfective is never periphrastic (and thus never involves a split) because there is no preposition in natural language that correctly expresses the relation of the assertion time to the event time denoted by the perfective aspect; instead, perfective is the default aspect. The proposal here thus accounts both for the appearance of aspect-based split ergativity without the need for special rules of Case assignment, and also provides an explanation for why we find the splits in certain aspects and not others.
