Beginner's Guide to Sublimation: Supply List

Get sublimation printer

-Epson or Sawgrass

All depends on your budget. Epson Ecotank 2720, 2760, 3710, 3760, 4700, 4760, 15000, 16600.

Epson SureColor F170, SureColor F570, SureColor F6370. Any Sawgrass printer.

Get sublimation paper

-TexPrint XPHR

This is my personal recommendation because this is what I use. It's never let me down. There are plenty of options are there though! See next page

Get sublimation ink

-Cosmos Ink

This is my recommendation. Make sure to sign up for their email list to stay up to date when paper is in stock. You'd learn a lot from his Youtube videos.

Get heat press

Think about what you want to press (mugs, shirts, caps, etc) and buy based on that. They come in different sizes and prices.

Heat resistant tape

Butcher Paper

Adhesive Spray

Lint Brush

Teflon Pillow

Get sublimation blanks

Here are a list of sites you can use to get your sublimation supplies.

[Conde](#)

[Silky Socks](#)

[Pro World](#)

[Heat Press Nation](#)

In addition to Cosmos Ink that was mentioned on page 2, you can also visit [Dnias Apparel](#) , [J.Stewart's Laboratory](#) , & [Crafting Besties](#) for sub supplies.

Crafting Besties has great paper that pairs well with Cosmos Ink. I'm not as quick with the Buy Now button to catch it, but if you are, I highly recommend it!

Visit [blog](#) for more details.
