

# Introduction to Scoring

## Townsville Technical Officials

### SUBS & TIME OUTS

Every time the referee blows the whistle, this is an opportunity for you to blow the hooter and call a sub or time out using the conventional signs.

After a last successful free throw at any time throughout the game you can:

- have a sub/timeout regardless of what team wants one

During the game after a basket:

- only the non scoring team (the team who is entitled to possession of the ball when the ball passes through the basket) can be granted a timeout after a basket

In the last two minutes of the game:

- You can have a sub after a basket, however, Only the non scoring team can have a substitution after a basket

**NOTE: Regardless of the clock being stopped, the rule states that only the non scoring team can have a sub!!**
