YOUR GUIDE TO EVERYTHING FAMILY IN DETROIT AND WAYNE COUNTY.
It’s opening day - every day.

Finally, we are engaging again. Hopefully, you are gradually recharging and getting ready to reconnect your family with all of the great resources Detroit and Wayne County have to offer. This guide is our best attempt at sharing the fun and learning connections for your family.

Change is a constant.

Our team works year ‘round to share the most current and correct information and resources with families of young children. But, as we have all learned, stuff happens! So, before you click everyone in their car seats, call or check the Facebook page and website to make sure your destination is open, hours are still the same and if any of their normal activities are limited.

Welcome!

Follow your faves on Facebook and Instagram.

Websites can share a ton of information, but for your “go to” favorites, follow them on social media. Hear about the new stuff as it happens!

Parents and grandparents!

If you would like to receive more daily connections, tips and events for your family, join the Wayne Parent Coalition Facebook Group.

Do you work with children and families?

Child care providers, libraries, human services programs, public, private and parochial schools, medical, dental and mental health providers - share great info with your families - add the three Great Start links to your website!

Talk, Read, and Sing Together Every Day!

Tips for Families

When you talk, read, and sing with your child – even before they can use words – you’re helping them learn. And making them happier too! Research shows that talking, reading and singing with your child every day from birth helps build their brains as well as important language, math, reading and social skills for use in school and beyond. Talk, read and sing with your child in the language you are most comfortable using. You probably naturally talk to your baby about the events of the day. Keep doing it, and do it more! The more words and conversations you share together, the better prepared they will be to learn. You are your baby’s first teacher!

These materials were developed under a grant awarded by the Michigan Department of Education.
We are lucky in Wayne County to have a wide variety of community Mental Health options available to children and families. The organizations on the next page provide things like family therapy, individual therapy, and parent guidance sessions with options both in-office or in-home. Some also provide case management which helps families get linked to basic needs like food and shelter. Some can also connect families to services such as speech therapy, occupational therapy and physicians. Many also offer something called Infant Mental Health or parent partner programs that can assist families who want support for their tiny little ones Pre-natal to 3yrs and sometimes Pre-natal to 6yrs of age. Think transition to parenting, struggle with baby sleeping, postpartum depression for mom AND dad, struggles with toddler behavior, struggles after family changes, or even just support for parents who want to prevent challenges for their families.

One important note: Many of these programs require Medicaid insurance, but some do have private insurance options. For more information about Private Insurance or Private Pay options, call the Help Me Grow Hotline at 313-410-4588, we are happy to talk you through it.
