Almaden Minerals Ltd.

Notes to the condensed consolidated interim financial statements

For the three months ended March 31, 2022

Unaudited - Expressed in Canadian dollars

1. Nature of operations

Almaden Minerals Ltd. (the “Company” or “Almaden”) was formed by amalgamation under the laws of the Province of British Columbia, Canada on February 1, 2002. The Company is an exploration stage public company that is engaged directly in the exploration and development of exploration and evaluation properties in Canada and Mexico. The address of the Company’s registered office is Suite 1710 –1177 West Hastings Street, Vancouver, BC, Canada V6E 2L3.

The Company is in the business of exploring and developing mineral projects and its principal asset is the Ixtaca precious metals project located on its Tuligtic claim in Mexico. The Company has not yet determined whether this project has economically recoverable mineral reserves. The recoverability of amounts shown for mineral properties is dependent upon the establishment of a sufficient quantity of economically recoverable reserves, the ability of the Company to obtain the necessary financing or participation of joint venture partners to complete development of the properties, and upon future profitable production or proceeds from the disposition of exploration and evaluation assets.

2. Basis of presentation

(a) Statement of Compliance with International Financial Reporting Standards (“IFRS”)

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance and compliance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

(b) Basis of preparation

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended December 31, 2021. However, this interim financial report provides selected significant disclosures that are required in the annual audited consolidated financial statements under IFRS.

Except as described below, these condensed consolidated interim financial statements follow the same accounting policies and methods of application as the annual audited consolidated financial statements for the year ended December 31, 2021.

The changes in accounting policies are also expected to be reflected in the Company's consolidated financial statements as at and for the year ending December 31, 2022.

Certain amounts in prior years have been reclassified to conform to the current period presentation.

Almaden Minerals Ltd.

Notes to the condensed consolidated interim financial statements

For the three months ended March 31, 2022

Unaudited - Expressed in Canadian dollars

3. Significant accounting policies

These condensed consolidated interim financial statements do not include all note disclosures required by IFRS for annual financial statements and, therefore, should be read in conjunction with the annual financial statements for the year ended December 31, 2021. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the three months ended March 31, 2022 are not necessarily indicative of the results that may be expected for the year ending December 31, 2022.

4. Accounts receivable and prepaid expenses

Accounts receivable and prepaid expenses consist of the following:

	March 31, 2022	December 31, 2021
Accounts receivable (Note 10(b))	\$ 180,494	\$ 92,005
Prepaid expenses	39,298	63,633
	<u>\$ 219,792</u>	<u>\$ 155,638</u>

During the period ended March 31, 2022, the Company has recorded value added taxes of \$55,686 included in exploration and evaluation assets, as the value added tax relates to certain projects and is expected to be recovered when the assets are sold (Note 7).

5. Right-of-use assets and lease liabilities

The Company has lease agreements for its headquarter office space in Vancouver, B.C. Upon transition to IFRS 16, the Company recognized \$394,654 of ROU assets and \$394,654 of lease liabilities.

One lease contains an extension option exercisable only by the Company was exercised on November 22, 2021. The lease was therefore extended from March 31, 2022 to March 31, 2027. The Company reassessed this significant event as a lease modification and has estimated that the potential future lease payments under the extended lease term would result in an increase in lease liability by \$508,799.

The continuity of lease liabilities is as follows:

	March 31, 2022	December 31, 2021
Opening balance	\$ 548,607	\$ 170,731
Modification by extending the lease term	-	508,799

5. Right-of-use assets and lease liabilities (Continued)

The Company entered into a sublease arrangement with a third party to lease an office unit from May 1, 2021 to March 31, 2022 under the same terms of the Company's lease. The Company remains beholden to the obligations set out in its lease dated October 31, 2018. The rental income during the period ended March 31, 2022 from this operating sublease was \$8,508 and recorded in interest and other income.

The continuity of ROU assets is as follow:

	March 31, 2022	December 31, 2021
Opening balance	\$ 539,110	\$ 151,790
Modification by extending the lease term	-	508,799
Less: amortization of ROU assets	(30,499)	(121,479)
	\$ 508,611	\$ 539,110

During the three months ended March 31, 2022, the Company recognized occupancy expenses of \$10,871 (2021 - \$4,951) related to short term leases.

As at March 31, 2022, the remaining payments for the operating lease are due as follows:

	2022	2023	2024	2025	2026	Total

The following is a description of the Company's most significant property interests:

(a) Tuligtic

In 2001, the Company acquired by staking a 100% interest in the Tuligtic property in Puebla, Mexico. The property contains the Ixtaca Zone.

(b) Other Property

The Company holds a 40% carried interest in the Logan property located in the Yukon Territory, Canada. The project is carried at a nominal value of \$1.

(c) Other

Expenditures incurred by the Company in Mexico are subject to Mexican Value added tax ("VAT"). The VAT is included in exploration and evaluation assets as incurred. Under Mexican law VAT paid can be used in the future to offset amounts resulting from VAT charge on sales. Under certain circumstances and subject to approval from tax authorities as Company can also apply for early refund of VAT prior to generating sales. During the three months ended March 31, 2022, the Company received a VAT recovery of \$73,055 and other income of \$20,202 related to the VAT refund from prior years are recorded in interest and other income.

8. Gold loan payable and gold in trust

The Company has entered into a secured gold loan agreement (“Gold Loan”) with Almadex Minerals Ltd. (“Almadex” or the “Lender”) pursuant to which Almadex has agreed to loan up to 1,597 ounces of gold bullion to the Company. The approximate value of this gold as at May 14, 2019 was USD\$2,072,060 or \$2,790,858.

Under the terms of the Gold Loan, the Company will be entitled to draw-down the gold in minimum 400 ounce tranches. At any given time, the amount of gold ounces drawn multiplied by the London Bullion Market Association (“LBMA”) AM gold price in US dollars, plus any accrued interest or unpaid fees, shall constitute the Loan Value.

The maturity date for the Gold Loan is March 31, 2024, and can be extended by two years at the discretion of the Company (the “Term”). Repayment of the Loan Value shall be made either through delivery of that amount of gold drawn, or through the issuance of common shares of the Company (“Shares”), according to the Lender’s discretion. Mandatory prepayment shall be required in the event that the Company’s Ixtaca gold-silver project located in Puebla State, Mexico (the “Ixtaca Project”) enters into commercial production during the Term, requiring the Company to deliver 100 gold ounces per month to the Lender. In addition, the Company has the right to pre-pay the Loan Value at any time without penalty, in either gold bullion or Shares as chosen by the Lender, and the Lender has the right to convert the Loan Value into Shares at any time during the Term. The conversion rate is equal to 95% of the 5 trading day volume weighted average price of the Share on the Toronto Stock Exchange or an equivalent.

The interest rate of the Gold Loan is 10% of the Loan Value per annum, calculated monthly, paid in arrears. Interest payments can either be accrued to the Loan Value, or paid by the Company in cash or gold bullion. A standby fee of 1% per annum, accrued quarterly, will be applied to any undrawn amount on the Gold Loan.

In addition, the Company has issued Almadex 500,000 transferable share purchase warrants (“Warrants”), with an exercise price of \$1.50 per Share and expiry date of May 14, 2024 as an arrangement fee to cover the administrative costs of setting up the credit facility. These warrants were valued at \$50,000 using the Black-Scholes option-pricing model with the following assumptions: expected life of five years, risk-free interest rate of 1.54%, expected dividend yield of 0% and expected volatility of 44.25%.

Security for the loan is certain equipment related to the Rock Creek Mill, which is not required for the Ixtaca Project. The Gold Loan includes industry standard provisions in the event of default, material breach and change of control.

The Gold Loan was recorded at fair value at inception and is subsequently measured at amortized cost using the effective interest method, recognizing interest expense on an effective yield basis.

The Company has determined that the Gold Loan contains multiple derivatives which are embedded in the US dollar denominated debt instrument. As the convertible Gold Loan is denominated in US dollars and is convertible into common shares based upon a variable Canadian dollar conversion rate, the fixed for fixed criteria is not met. As such, the conversion option cannot be classified as an equity instrument and is deemed to have no value. The embedded derivative from indexation of the loan principal portion to the movement in the price of gold is classified as a derivative financial liability and is marked to market at each period end using the Black-Scholes option-pricing model.

8. Gold loan payable and gold in trust (Continued)

At inception, the following assumptions were used: expected life of five years, risk-free interest rate of 1.57% and expected volatility of 11.06%. The fair value of the embedded derivative for the period ended March 31, 2022 decreased by \$3,334 based on the following assumptions used in the Black-Scholes option-pricing model: expected life of 2.00 years, risk-free interest rate of 1.23% and expected volatility of 15.63%.

The continuity of gold loan payable and derivative financial liabilities are as follows:

	March 31, 2022	December 31, 2021
Gold loan payable – opening balance	\$ 3,227,545	\$ 2,842,756

10. Share capital and reserves (Continued)

(c) Share purchase option compensation plan

The Company's stock option plan permits the issuance of options up to a maximum of 10% of the Company's issued share capital. Stock options issued to any consultant or person providing investor relations services cannot exceed 2% of the issued and outstanding common shares in any twelve month period. At March 31, 2022, the Company had reserved 1,732,141 stock options that may be granted. The exercise price of any option cannot be less than the volume weighted average trading price of the shares for the five trading days immediately preceding the date of the grant.

The maximum term of all options is five years. The Board of Directors determines the term of the option (to a maximum of five years) and the time during which any option may vest. Options granted to consultants or persons providing investor relations services shall vest in stages with no more than 25% of such option being exercisable in any three month period. All options granted during the three months ended March 31, 2022 vested on the grant date.

The Company's stock option plan permits the option holder to exercise cashless by surrendering a portion of the underlying option shares to pay for the exercise price and the corresponding withholding taxes, if applicable.

The continuity of stock options for the three months ended March 31, 2022 is as follows:

Under the Administrative Services Agreements, the Company is the sole and exclusive manager of Azucar and Almadex that provides general management services, office space, executive personnel, human resources, geological technical support, accounting and financial services at cost with no mark-up or additional direct charge. The three companies are considered related parties though common officers.

(c) Other related party transactions

At March 31, 2022, the Company accrued \$Nil (December 31, 2021 - \$72,130) payable to Almadex for exploration and drilling services in Mexico.

During the three months ended March 31, 2022, the Company employed the Chairman's daughter for a salary of \$10,325 less statutory deductions (2021 - \$10,325) for marketing and administrative services provided to the Company.

12. Net loss per share

Basic and diluted net loss per share

The calculation of basic net loss per share for the three months ended March 31, 2022 was based on the loss attributable to common shareholders of \$1,139,918 (2021 - \$1,054,779) and a weighted average number of common shares outstanding of 137,221,408 (2021 - 123,519,656).

The calculation of diluted net loss per share for the period ended March 31, 2022 did not include the effect of stock options and warrants, as they were considered to be anti-dilutive.

13. Supplemental cash flow information

Cash	\$ 1,703,454	\$ 2,133,076
Term Deposits	7,373,600	8,037,300
	<u>\$ 9,077,054</u>	<u>\$ 10,170,376</u>

14. Financial instruments

The fair values of the Company's cash and cash equivalents, accounts receivable and trade and other payables approximate their carrying values because of the short-term nature of these instruments.

Except for warrants liability and derivative financial liabilities, the Company does not carry any financial instruments at FVTPL.

The Company is exposed to certain financial risks, including currency risk, credit risk, liquidity risk, interest rate risk and commodity and equity price risk.

(a) Currency risk

The Company's property interests in Mexico make it subject to foreign currency fluctuations and inflationary pressures which may adversely affect the Company's financial position, results of operations and cash flows. The Company is affected by changes in exchange rates between the Canadian dollar, the US dollar and the Mexican peso. The Company does not invest in foreign currency contracts to mitigate the risks.

As at March 31, 2022, the Company is exposed to foreign exchange risk through the following monetary assets and liabilities denominated in currencies other than the functional currency of the applicable subsidiary:

All amounts in Canadian dollars	US dollar	Mexican peso
Cash and cash equivalents	\$ 5,344,321	\$ 119,852
Accounts receivable and prepaid	-	574
Gold in trust	954,434	-

14. Financial instruments (Continued)

(a) Currency risk (Continued)

A 10% change in the US dollar exchange rate relative to the Canadian dollar would change the Company's net loss by \$263,000.

A 10% change in the Mexican peso relative to the Canadian dollar would change the Company's net loss by \$3,000.

(b) Credit risk

The Company's cash and cash equivalents are held in large financial institutions, located in both Canada and Mexico. Cash equivalents mature at less than ninety days during the twelve months following the statement of financial position date. The Company's accounts receivable consist of amounts due from related parties which were subsequently collected.

To mitigate exposure to credit risk on cash and cash equivalents, the Company has established policies to limit the concentration of credit risk with any given banking institution where the funds are held, to ensure counterparties demonstrate minimum acceptable credit risk worthiness and ensure liquidity of available funds.

As at March 31, 2022, the Company's maximum exposure to credit risk is the carrying value of its cash and cash equivalents, and accounts receivable.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure.

Trade and other payables are due within twelve months of the statement of financial position date.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to varying interest rates on cash and cash equivalents. The Company has no debt bearing variable interest rate.

A 1% change in the interest rate would change the Company's net loss by \$91,000.

14. Financial instruments (Continued)

(e) Commodity and equity price risk

The ability of the Company to explore its exploration and evaluation assets and the future profitability of the Company are directly related to the market price of gold and other precious metals. The Company monitors gold prices to determine the appropriate course of action to be taken by the Company. Equity price risk is defined as the potential adverse impact on the Company's performance due to movements in individual equity prices or general movements in the level of the stock market.

(f) Classification of financial instruments

IFRS 13 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy.

	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Derivative financial liabilities	-	382,664	-	382,664
Warrant liability	-	788,286	-	788,286

15. Management of capital

The Company considers its capital to consist of components of equity. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares and, acquire or dispose of assets.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to invest its short-term excess cash in highly liquid short-term interest-bearing investments with short term maturities, selected with regards to the expected timing of expenditures from continuing operations.

15. Management of capital (Continued)

The Company expects its current capital resources will be sufficient to carry its exploration plans and operations for the foreseeable future. There were no changes to the Company's approach to the management of capital during the period.

16. Segmented information

The Company operates in one reportable operating segment, being the acquisition and exploration of mineral resource properties.

The Company's non-current assets are located in the following geographic locations:

	March 31, 2022	December 31, 2021
Canada	\$ 553,425	\$ 587,684
United States	13,968,566	13,968,566
